Whereas Commission Regulation (EEC) No 983/88 (3) excludes olive oil and olive-pomace oil, the tetrachloroethylene content of which exceeds a certain threshold, from most of the advantages provided for by Community legislation ;

Whereas Article 3 of Commission Regulation (EEC) No 3154/85 of 11 November 1985 laying down detailed rules for the administrative application of monetary compensatory amounts (4), as amended by Regulation (EEC) No 361/88 (5), states that no monetary compensatory amount is to be granted where prodcts are not of sound and fair merchantable quality ; whereas the granting of a monetary compensatory amount should therefore be included among the advantages provided for by Community legislation listed in Article 1 of Regulation (EEC) No 983/88 ;
