THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 4028/86 of 18 December 1986 on Community measures to improve and adapt structures in the fisheries and aquaculture sector [1], and in particular Articles 20 (4) and 21 (4) thereof,

Whereas applications for Community financial assistance must contain information enabling the Commission to take a decision thereon and must be submitted in standardized form;

Whereas payment applications to the Commission by the Member State(s) concerned must contain certain information permitting verification that the expenditure meets the requirements of Regulation (EEC) No 4028/86;

Whereas the purpose of aiding joint ventures is to stimulate initiatives of this type throughout the Community fishing industry; whereas it is therefore essential that Member States be informed of the results obtained by joint ventures;

Whereas, in order that proper checks may be made, Member States must keep at the Commission's disposal, for three years following the final payment, the documents on which the aid calculations were based;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Standing Committee for the Fishing Industry,

HAS ADOPTED THIS REGULATION:

— the 'completion of fishing operations' means the day on which the vessel concerned or the last vessel of the fleet returns to the last port of landing, provided that no activities other than those for which the joint venture was set up have occurred in the mean time,

— 'duration of fishing operations', means the period between the beginning and the end of fishing operations.

Article 3

1. To qualify for a cooperation premium, the fishing operations planned under the joint venture must not commence until the project referred to in Article 1 has been recorded as received.

2. The premium referred to in Article 20 (1) of Regulation (EEC) No 4028/86 shall be granted solely in respect of the duration of the fishing operations of the vessel or of each of the vessels involved in the joint venture. Such fishing operations must have a minimum duration of three consecutive months and the period of inactivity of the vessel(s) in question must not exceed 27 days per quarter, except in proven cases of *force majeure.*
