(Acts whose publication is obligatory)

COUNCIL REGULATION (EEC) No 3459/88

of 4 November 1988

opening, allocating and providing for the administration of a Community tariff quota for certain handmade products (1989)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas, as regards certain handmade products, the Community has declared its readiness to open an annual duty-free Community tariff quota of an overall amount which, for 1988, amounted to 10 540 000 ECU with a limit value of 1 200 000 ECU for each group of products considered; whereas products may, however, be admitted under the Community tariff quota only on production to the Community's customs authorities of a document issued by the recognized authorities of the country of manufacture certifying that the goods concerned are handmade; whereas it is accordingly appropriate to open the tariff quota in question with effect from 1 January 1989, at the volume set for 1988;

Whereas equal and continuous access to the quota should be ensured for all Community importers and the rate laid down for the tariff quota should be applied consistently to all imports until the quota is used up; whereas a system of utilization of the Community tariff quota based on an allocation among the Member States concerned would, in the light of the principles outlined above, appear consistent with the Community nature of the quota; whereas to represent as closely as possible the actual development of the market in the said goods, the allocation should follow proportionately the requirements of the Member States calculated both from statistics of imports from third countries during a representative reference period and according to the economic outlook for the quota year in question;

Whereas, however, there is no specific classification of the said goods in the statistical nomenclatures; whereas it has thus been impossible to collect sufficiently precise and representative statistics; whereas the extent to which the current Community tariff quota has been used is not such that the real requirements of each of the Member States can be clearly ascertained; whereas the only possibility is, therefore, to divide the tariff quota volume into 11 parts, of which one each would be allocated to the Benelux countries, Denmark, the Federal Republic of Germany, Greece, Spain, France, Ireland, Italy, Portugal and the United Kingdom, the last part being held in reserve to cover the later requirements of Member States which use up their initial shares;

Whereas the initial shares may be used up at different rates; whereas, therefore, to avoid any break in the continuity of supplies, any Member State which has almost used up its initial share should draw a supplementary share from the Community reserve; whereas this must be done by each Member State as each one of its supplementary shares is almost used up, and as many times as the reserve allows; whereas the initial and supplementary shares must be valid until the end of the quota period; whereas this form of administration requires close collaboration between the Member States and the Commission, and the latter must be able to monitor the extent to which the tariff quota has been used up and inform the Member States accordingly; whereas this collaboration must be all the closer since it does not seem necessary, at present, to provide for special measures in the Regulation to avoid the maximum allocation of 1 200 000 ECU per six-figure code of the combined nomenclature being exceeded;

Whereas if, at a given date in the quota period, a Member State has a considerable quantity left over, it is essential

that it should return a significant percentage to the reserve so as to avoid a part of the Community tariff quota remaining unused in one Member State when it could be used on others;

Whereas since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any operation concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1989, the customs duties applicable to imports of the products shall be listed in Annex I totally suspended within the limits of a Community tariff quota bearing the order No 09.0105 and being of a volume corresponding to a value of 10 540 000 ECU subject to a maximum of 1 200 000 ECU for each six-figure code of the combined nomenclature.

Within the limits of this tariff quota, Spain and Portugal shall apply duties calculated in accordance with the relevant provisions of the 1985 Act of Accession.

2. Admission under this quota shall, however, be granted only for products accompanied by a certificate recognized by the relevant authorities of the Community conforming to one of the examples in Annex II (1), issued by one of the recognized authorities of the country of manufacture as given in Annex III and certifying that the goods in question are handmade. The goods must in addition be accepted as handmade by the relevant authorities of the Community.

Article 2

1. A first part of the quota of a value of 5 691 600 ECU shall be allocated among the Member States; the shares, shall, subject to Article 5, be valid from 1 January to 31 December 1989, and shall correspond to the following values:

	(ECU)
Benelux	1 048 390
Denmark	229 370
Germany	1 244 750
Greece	13 660
Spain	205 470
France	1 027 900
Ireland	137 740
Italy	635 180
Portugal	73 990
United Kingdom	1 075 150

2. The second part of 4 848 400 ECU shall constitute the Community reserve.

3. Regulations (EEC) No 2779/78 (2) and (EEC) No 289/84 (3) shall apply for the purposes of determining the equivalent value in national currencies of amounts expressed in ECU.

Article 3

1. If 90 % or more of a Member State's initial share as specified in Article 2 (1), or of that share less the portion returned to the reserve where Article 5 is applied, has been used up, that Member State shall forthwith, by notifying the Commission, draw a second share equal to 15 % of its initial share, rounded up where necessary to the next whole number, to the extent permitted by the amount of the reserve.

2. If, after its initial share has been used up, 90 % or more of the second share drawn by a Member State has been used up, that Member State shall, using the procedure provided for in paragraph 1, draw a third share equal to 7,5 % of its initial share, rounded up where necessary to the next whole number.

3. If, after its second share has been used up, 90 % or more of the third share drawn by a Member State has been used up, that Member State shall, using the same procedure, draw a fourth share equal to the third.

This process shall continue to apply until the reserve is used up.

(1) The examples of certificates in Annex I to Regulation (EEC) No 4093/87 (OJ No L 390, 31. 12. 1987, p. 1) may, however be accepted until 31 December 1989.

(2) OJ No L 333, 30. 11. 1978, p. 5.
(3) OJ No L 33, 4. 2. 1984, p. 2.

4. By way of derogation from paragraphs 1, 2 and 3, a Member State may draw lower shares than those specified if there are grounds for believing that in those paragraphs they may not be used up. It shall inform the Commission of its reasons for applying this paragraph.

Article 4

Supplementary shares drawn pursuant to Article 3 shall be valid until 31 December 1989.

Article 5

Member States shall return to the reserve, not later than 1 October 1989, the unused portion of their initial share which, on 15 September 1989, is in excess of 50 % of the initial amount. They may return a larger quantity if there are grounds for believing that it might not be used.

Member States shall notify the Commission, not later than 1 October 1989, of the total quantities of the said goods imported up to and including 15 September 1989 and charged against the Community tariff quota and of any portion of their initial share returned to the reserve.

Article 6

The Commission shall keep an account of the shares drawn by the Member States pursuant to Articles 2 and 3 and shall, as soon as it has been notified, inform each State of the extent to which the reserve has been used up.

It shall inform the Member States, not later than 5 October 1989 of the amount still in reserve after amounts have been returned thereto pursuant to Article 5.

It shall ensure that the drawing which exhausts the reserve does not exceed the balance available and to this end shall notify the amount of that balance to the Member State making the last drawing.

Article 7

1. Member States shall take all appropriate measures to ensure that supplementary drawings of shares pursuant to Article 3 are carried out in such a way that imports may be charged without interruption against their accumulated shares in the Community tariff quota.

2. Member States shall ensure that imports of the products have free access to the shares allocated to them.

3. Member States shall charge importers of the products against their shares as and when they are entered with the customs authorities for free circulation.

4. The extent to which a Member State has used up its share shall be determined on the basis of imports charged in accordance with paragraph 3.

Article 8

At the Commission's request, Member States shall inform it of imports of the products concerned actually charged against their shares.

Article 9

Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 10

This Regulation shall enter into force on 1 January 1989.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 4 November 1988.

For the Council

The President

A. TSOCHATZOPOULOS

ANNEX I

List of products referred to in Article 1 (1)

CN code	Description of goods
ex 4202	Trunks, suitcases, vanity-cases, executive-cases, briefcases, school satchels, spectacle cases, binocular cases, camera cases, musical instrument cases, gun cases, holsters and similar containers, travelling-bags, toilet bags, rucksacks, hand-bags, shopping-bags, wallets, purses, map-cases, jewellery boxes, powder-boxes, cutlery cases and similar containers of leather or of composition leather, of sheeting of plastics, of textile materials, of vulcanized fibre or of paperboard, or wholly or mainly covered with such materials:
