COUNCIL REGULATION (EEC) No 4259/88

of 19 December 1988

applying generalized tariff preferences for 1989 to textile products originating in developing countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, in particular Article 113,

Having regard to the proposal from the Commission (1),

Having regard to the opinion of the European Parliament (2),

Having regard to the opinion of the Economic and Social Committee (3),

Whereas in accordance with its offer made within the context of the United Nations Conference on Trade and Development (UNCTAD), the European Economic Community opened generalized tariff preferences, commencing in 1971, with particular reference to finished and semi-finished industrial products from developing countries; whereas the initial 10-year period of application of this system of preferences ended on 31 December 1980;

Whereas the positive role played by this system in improving access for developing countries to the markets of the preference-giving countries was recognized at the ninth session of the UNCTAD Special Committee on Preferences; whereas it was there agreed that the objectives of the generalized preferences system would not be fully attained by the end of 1980, that it should consequently be prolonged beyond the initial period and that an overall review of the system should take place in 1990;

Whereas the Community has therefore decided to apply generalized tariff preferences, in the context of the conclusions agreed in UNCTAD in accordance with the intention expressed in the said Committee, in particular by all the preference-giving countries;

Whereas the temporary and non-binding nature of the system means that the offer can be withdrawn wholly or in part at a later date, thus maintaining the possibility of remedying any unfavourable situations which might arise in the African, Caribbean and Pacific States (ACP States) as a result of the system's implementation;

Whereas, however, most of the preference-giving countries exclude textile products from preferential treatment; whereas, under the Community scheme of generalized preferences, these products have always been covered by special arrangements pursuant to which, for cotton textile and similar products, the preferences were originally granted in the form of duty-free ceilings only to those beneficiaries under the generalized preferences scheme which were signatories to the Long-Term Arrangement regarding International Trade in Cotton Textiles (LTA) or which undertook, *vis-à-vis* the Community, commitments similar to those existing under that Arrangement;

Whereas the Long-Term Arrangement has been replaced from 1980 onwards by the Arrangement regarding International Trade in Textiles (MFA), and the Community has therefore, in the case of products covered by the MFA, reserved preferences in the form of duty-free ceilings, for products originating in those countries or territories which signed Bilateral Agreements, in the framework of the MFA, providing for quantitative limitation of their exports of certain textile products to the Community, or in those countries which undertook similar commitments *vis-à-vis* the Community; whereas, such commitments have been undertaken by Bolivia, Chile, Costa Rica, Ecuador, Honduras, Iran, Nicaragua, Paraguay and Venezuela; whereas for these products, it is therefore desirable that the Community should continue to apply the generalized tariff preferences on the basis of the same principles until the expiry of the MFA and the Bilateral Agreements concluded with certain supplier countries; whereas it should be provided that countries and territories accepting the renewal of such agreements or giving such commitments after the date of adoption of this Regulation and before 1 January 1989 will be accorded preferential treatment as from 1 February 1989 in respect of the entire volume provided for in this Regulation; whereas countries and territories which accept the renewal of the said agreements or enter into similar commitments after 1 January 1989 will be accorded preferential treatment from the first day of the second month following the date of commitment, in respect of a volume calculated in proportion to the period of the year from the first day of the month following the date of the commitment until 31 December 1989;

(1) OJ No C 302, 28. 11. 1988, p. 45.
(2) OJ No C 326, 19. 12. 1988.
(3) OJ No C 318, 12. 12. 1988.

Whereas, in view of the special nature which trade in the products concerned may have, it would appear that the volumes of preferential imports should be determined in terms of tonnes, pieces, or pairs, as appropriate;

Whereas according to the case law of the Court of Justice it would be illegal to allocate Community quotas among the Member States unless compelling circumstances of an administrative, technical or economic character make it impossible to do otherwise; whereas in addition in cases where allocation is decided upon a mechanism is to be provided so as to protect the integrity of the common customs tariff;

Whereas certain economic and administrative constraints exist which justify in conformity with the Commissions proposal the continued allocation among the Member States of the Community quotas in the textile sector;

Whereas, in order to ensure that each of the countries or territories referred to above has access to the preferential volumes, quotas and separate tariff ceilings for each beneficiary should be specified for each category of products, and in view of the links which continue to exist with international control of trade in textiles, it is appropriate to allocate these quotas between the Member States according to the scale contained within the MFA framework, establishing for each of the Member States initial participation percentages as follows:

Benelux	9,5 %
Denmark	2,7 %
Germany	25,5 %
Greece	1,5 %
Spain	7,5 %
France	16,5 %
Ireland	0,8 %
Italy	13,5 %
Portugal	1,5 %
United Kingdom	21,0 %

Whereas, to take account of future import trends in the various Member States in respect of the tariff quotas given in Annex I and to mitigate any inadequacy in the initial allocation, the quotas should be divided into two tranches, the first being apportioned among Member States and the second held as a reserve to cover the subsequent requirements of Member States which have exhausted their initial shares;

Whereas, moreover, the reserve thus constituted tends to avoid making the system of utilization of the quota excessively rigid, to the detriment of each of the developing countries concerned, and contributes to achieving the aim already mentioned of improving the generalized preferences system; whereas, to this end and to accord importers in each Member State some degree of security, the first tranche of the Community quota should be fixed at 70 % of the quota volumes;

Whereas Member States may exhaust their initial shares for the tariff quotas given in Annex I at different rates; whereas, to avoid disruption of supplies on this account, it should be provided that each Member State which has almost used up one of its initial shares should draw an additional share from the corresponding reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up and repeated as many times as each of the reserves allows; whereas each of these initial and additional shares must be available for use until the end of the quota period;

Whereas, if, in the course of the quota period, the Community reserve is almost fully used, Member States may return to the said reserve the unused part of their initial and, where applicable, complementary shares in order that part of a Community tariff quota which remains unused in a Member State may eventually be utilized in others;

Whereas, however, it is impossible to implement in 1989 the system of automatic transfer for the unused parts of Member States' allocated shares without causing severe economic hardship to the Portuguese Republic where the textile sector provides employment for 28,5 % of the industrial workforce and accounts for more than 32 % of export earnings, the Community market absorbing more than 60 % of these exports;

Whereas special arrangements of a temporary character for trade in textile products between Spain and Portugal and the other Member States were deemed necessary in view of the full application of the EEC Treaty rules by the Treaty of Accession of the Kingdom of Spain and the Portuguese Republic of 12 June 1985; whereas it is appropriate to align the termination of the present mechanism based on the voluntary return of Member States' unused shares to the Community reserve with the termination of the aforementioned special arrangements;

Whereas it is intended that a mechanism to protect the Common Customs Tariff of the kind referred to by the Court in its Judgment will be introduced with effect from 1 January 1990;

Whereas for other textile products and apparel listed in Annex II, it appears possible to grant the preferences to the countries or territories which are normally beneficiaries in the other industrial sectors;

Whereas, for jute and coir products, it was understood that the preferences would be granted only where special arrangements had been made with the exporting developing countries; whereas these arrangements have hitherto concerned India and Sri Lanka for coir products, and India and Thailand for jute products; whereas, it would be appear desirable to maintain also the preferential advantage to the least-developed countries in respect of jute and coir;

Whereas the Republic of Korea does not treat the Community on an equal footing with other trade partners and whereas it has taken discriminatory measures in respect of the Community in the sphere of the protection of intellectual property; whereas therefore it is inappropriate that the Republic of Korea should benefit from the scheme of generalized tariff preferences as long as this situation continues;

Whereas the MFA agreement was renewed for a period of five years from 1 August 1986; whereas in the context of the five-yearly review of the GSP scheme, the Community decided to initiate a revision of the textile scheme in 1987; whereas this revision extends over two years and aims for, in particular, an improvement of the scheme, a better distribution and management simplifications;

Whereas the preferential advantages are not used equally by beneficiary countries and it is necessary to ensure a more balanced usage of these advantages, particularly for the less competitive countries, in order to improve preferential access for these latter countries, it is necessary to institute a new phase of differentiation between beneficiary countries of the preferential benefits; this differentiation comprises withdrawal of the abovementioned advantages for certain product categories originating in the most competitive countries the criterion adopted being based on the competition capacity of the beneficiary country concerned, the capacity being expressed, for individual product categories, by that country's participation in total Community imports; whereas for the application of this criterion a 10 % share of the total extra-EEC imports averaged over three years (1983, 1984, 1985) is taken; whereas it is necessary to make adjustments to this criterion when:

— the gross national product per head of the count concerned is low and the country does not provide more than 5 % of total Community imports of textile products and apparel,

— the total exports of textile products of the country concerned comprise almost exclusively a single product;

Whereas particular measures are applicable, according to the sensitivity of products, to countries with a low gross national product *per capita* whose share in the total Community imports of textile products exceed 5 %;

Whereas the level of economic development of the country concerned has also been taken into account for these products;

Whereas the revisions of the preferential quantities made for 1984, 1985 and 1986 did not permit substantial improvements in the offer which does not currently reflect the reality of commercial trends nor respond to the needs of the less-developed producer countries nor permit real growth in the textile scheme; whereas, there is therefore a need to update the volumes opened and revise the calculation method for these quantities; whereas it seems appropriate to take into account a fixed percentage of total Community imports for each category of products;

Whereas, according to this new method of calculation, for each beneficiary country, the quantity opened corresponds in general to 1 % of total Community imports of the category of products in question, excepting the most competitive countries for which the quantities opened are 0,2 % of these imports;

Whereas the other textile products and apparel listed in Annex II can be attained by providing for each category of product individual tariff limits per beneficiary, corresponding in general to 5 % of total Community imports of the product categories in question; whereas allocation amongst Member States is not appropriate where Community measures are concerned;

Whereas the fixed duty-free amounts and ceilings meet this objective; whereas, as regards fixed duty free amounts, it is necessary to provide for Member States to effect drawings on the quantities opened by means of quantities corresponding to their needs;

Whereas, if a considerable balance remains in one of the fixed duty-free amount shares of one or other Member State, it is essential that that Member State returns it in order to prevent a part of the Community amount from remaining unused in one Member State when it could be used in others;

Whereas, in the multilateral trade negotiations, in accordance with paragraph 6 of the Tokyo Declaration, the Community reaffirmed that special treatment should be granted, wherever this is possible, to the least-developed developing countries appearing on the list in Annex VI;

Whereas the benefit of such preferential tariff treatment should be reserved for products originating in the countries or territories under consideration, the concept of 'originating products' being determined in accordance with Regulation (EEC) No 693/88 [1];

Whereas the Community preference arrangements applicable to Yugoslavia for textile products result exclusively from the provisions of the Agreement between the European Economic Community and the Socialist Federal Republic of Yugoslavia [2];

[2] OJ No L 147, 4. 6. 1981, p. 6; OJ No L 41, 14. 2. 1983, p. 1.

Whereas from 1 March 1986, the Kingdom of Spain and the Portuguese Republic shall apply the Community system of generalized preferences, in compliance with Articles 178 and 365 of the Act of Accession;

Whereas, consequently, for 1989 the Community should open:

— for each of the categories of products covered by Annex I, tariff quotas allocated amongst the Member States for each of the countries and territories specified in column 5 of that Annex, and Community tariff ceilings at a zero rate of duty for each of the other countries and territories listed in Annex IV; the limits of the quantities opened are indicated in columns 6 and 7 or 8 of Annex I,

— for each category of products shown in Annex II and for each of the countries and territories specified in Annex V, excluding Yugoslavia, fixed amounts and Community tariff ceilings at a zero rate of duty; the limits of the quantities opened are specified in columns 6 and 7 of the said Annex II,

— in respect of the manufactured jute and coir products listed in Annex III, a total suspension of customs duties for the beneficiary countries specified in column 3 against each of the categories of products shown in column 2;

Whereas, as regards the Community tariff quotas allocated among the Member States, and the fixed duty-free amounts:

— it is necessary to guarantee to all importers equal and continuous access to the abovementioned quotas and fixed duty-free amounts and uninterrupted application of the rates laid down for them to all imports of the products concerned into all Member States until they have been used up,

— drawings against the quotas and fixed duty-free amounts can only be made for goods entered for free circulation accompanied by a certificate of origin;

Whereas, as regards the Community tariff ceilings the objectives sought may be achieved by applying a method of administration based on the charging, at Community level, of imports of the products in question against the ceilings as and when these products are entered for free circulation and are accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of the levying of customs duties as soon as the said ceilings are reached at Community level;

Whereas the methods of administration for the products listed in Annexes I and II call for close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to keep under observation the extent to which charges are made against the fixed duty free amounts and the ceilings and inform Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce customs duties, when any of the ceilings is reached at Community level;

Whereas, having regard to the rules applying to the repayment or remission of import or export duties, and in particular to Council Regulation (EEC) No 1430/79 [1] and Commission Regulation (EEC) No 3040/83 [2], a procedure should be laid down to regularize imports actually made within the preferential tariff limits opened under this Regulation and thus provision should be made for the Commission to be able to take appropriate measures; whereas, in order to avoid such regularization causing excessive tariff ceiling overruns, provision should at the same time be made for the Commission to be able to terminate set-offs;

Whereas it is necessary to establish complete statistics on imports admitted in accordance with the provisions of this Regulation and to apply to the collection, preparation and transmission of these statistics Council Regulations (EEC) No 1736/75 [3] and No 3367/87 [4];

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union or drawings by it on a fixed duty-free amount may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 31 December 1989, the Common Customs Tariff duties shall be:

— totally suspended within the framework of tariff quotas, fixed duty-free amounts and Community tariff ceilings in respect of the products listed in Annexes I and II,

— totally suspended in respect of the jute and coir products listed in Annex III.

(1) OJ No L 175, 12. 7. 1979, p. 1.
(2) OJ No L 297, 29. 10. 1983, p. 13.
(3) OJ No L 183, 14. 7. 1975, p. 3.
(4) OJ No L 321, 11. 11. 1987, p. 3.

Spain and Portugal shall apply on the imports of products referred to above the customs duties established in accordance with Articles 178 and 365 of the 1985 Act of Accession.

2. The arrangements laid down in paragraph 1 shall apply only in respect of products originating in the countries and territories:

— indicated in column 5 of Annex I or listed in Annex VI, as regards the products in Annex I,

— listed in Annex V, as regards the products in Annex II, with the exception of Yugoslavia,

— indicated in column 4 of Annex III, for each of the category of products indicated in column 2.

3. The preferences granted by this Regulation are suspended, on a temporary basis, for products originating in the Republic of Korea.

4. Preferential entry as provided for in this Regulation shall be subject to conformity with the rules of the origin of products determined by Regulation (EEC) No 693/88.

5. The tariff quotas, fixed duty-free amounts, and tariff ceilings shall be administered in accordance with the following provisions:

SECTION I

Provisions concerning the administration of the Community tariff quotas

Article 2

The total suspension of customs duties within the framework of the Community tariff quotas referred to in Article 1 (1) concerns the categories of products in Annex I for each of which the volume of the quota is specified individually in column 6 of that Annex with regard to certain beneficiary countries or territories of origin listed in column 5 of the same Annex.

Article 3

1. A first tranche of 70 % of each of the Community tariff quotas listed in Annex I, the amount of which is shown in column 7 of Annex I, shall be apportioned among the Member States in accordance with the following scale both for products covered by the MFA and for the other textile products:

Benelux	9,5 %
Denmark	2,7 %
Germany	25,5 %
Greece	1,5 %
Spain	7,5 %
France	16,5 %
Ireland	0,8 %
Italy	13,5 %
Portugal	1,5 %
United Kingdom	21,0 %

2. Each Member State shall determine its own share by applying the appropriate percentage to the volumes indicated in column 6 of Annex I rounding up the result to the next higher unit (Kilogram, piece or pair) if necessary.

3. The second tranche of each of the tariff quotas shall constitute the reserve specified in each case in column 7 of Annex I.

Article 4

1. Where a Member State has used 90 % or more of one of its initial shares as fixed in Annex I, shall forthwith, by notifying the Commission, draw a second share, to the extent that the reserve so permits, equal to 10 % of its initial share, rounded up, should the occasion arise, to the nearest unit.

2. Where a Member State, after exhausting one of its initial shares, has used 90 % or more of the second share drawn by it, that Member State shall draw a third share, under the conditions laid down in paragraph 1, equal to 5 % of its initial share.

3. Where a Member State, after exhausting its second share, has used 90 % or more of the third share drawn by it, that Member State shall, under the same conditions, draw a fourth share equal to the third.

This process shall continue until the reserve has been exhausted.

Article 5

Additional shares drawn pursuant to Article 4 shall be valid until 31 December 1989.

Article 6

1. Once at least 80 % of the reserve of one of the tariff quotas, as defined in Article 3 (3) has been used up, the Commission shall inform the Member States thereof; they may return to the reserve the quantities which have not been used up.

2. Where in a Member State, which has effected a voluntary return to the reserve, further requirements appear, that Member State may draw on the corresponding reserve in accordance with the procedure laid down in Article 4.

Article 7

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 3 and 4 and shall, as soon as the information reaches it, inform each Member State of the extent to which the reserve has been used up.

It shall, not later than 15 October 1989 inform the Member States of the amount still in reserve following any return of shares pursuant to Article 6.

It shall ensure that, when an amount exhausting the reserve is drawn, the amount so drawn does not exceed the balance available and to this end shall notify the amount of that balance to the Member State making the last drawing.

The Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Article 4 are opened in such a way that imports may be charged without interruption against their cumulative shares of the Community tariff quotas.

Article 8

The Member States shall take all appropriate measures to ensure free access to the shares which have been allocated to them for importers of the products in question who are established in their territory.

SECTION II

Provisions concerning the administration of fixed duty-free amounts

Article 9

1. The total suspension of customs duties within the framework of the fixed duty-free amounts referred to in Article 1 (1) concerns the categories of products of Annex II, for each of which the volume of the amount is specified individually in column 6 of that Annex, with regard to the countries or territories specified in column 5 of the same Annex.

2. Fixed duty-free amounts shall be administered by the Commission. If an importer presents in a Member State a declaration of entry into free circulation, including a request for preferential benefit for a product subject to a fixed duty-free amount and if this declaration is accepted by the customs authorities the Member State concerned shall draw, by means of notification to the Commission, a quantity corresponding to its needs.

The requests for drawing, with the indication of the date of acceptance of the said declarations, must be communicated to the Commission without delay.

The drawings are granted by the Commission following the date of acceptance of the declaration of entry into free circulation by the customs authorities of the Member State concerned, to the extent that the balance of the said amount permits.

If a Member State does not use the quantities drawn, it shall return them as soon as possible to the corresponding amount.

If the quantities requested corresponding to a certain date are greater than the available balance of the fixed duty-free amount, allocation shall be made on a *pro rata* basis with respect to the requested quantities. Member States shall be informed by the Commission of the drawings made.

Article 10

1. The Commission shall keep account of the quantities drawn by the Member States conforming to Article 9 and shall inform each of them as soon as it receives notification of the exhausting of the volumes opened. It shall ensure that the drawing which uses up any of these amounts is limited to the balance available and, to this end, specify the amount to the Member State which proceeds to the last drawing.

The fact that the fixed amounts have been used shall forthwith be brought to the notice of Member States. This communication shall be the subject of a publication in the *Official Journal of the European Communities* C Series.

2. The Member State shall take all the appropriate measures to ensure that the drawings that they effect pursuant to Article 9 may be charged without interruption against the fixed duty-free amounts.

Each Member state shall guarantee free access to these amounts to the importers of the products in question as far as the balance of the volumes opened permits.

SECTION III

Provisions concerning the administration of the Community tariff ceilings

Article 11

Subject to Articles 12 and 13, preferential tariff treatment shall be accorded for each category of products subjected in Annexes I and II to individual ceilings within the limits of the quantities specified respectively:

— in column 8 of Annex I, to certain countries or territories specified in column 5 of this Annex or listed in Annex VI,

— in column 7 of Annex II, to certain countries or territories specified in column 5 of this Annex, with the exception of Yugoslavia.

Article 12

As soon as the individual ceilings determined in accordance with Article 11 are reached at the Community level, the levying of customs duties on imports of the products in question originating in each of the countries or territories concerned may at any time be reintroduced until the end of the period referred to in Article 1 (1).

Article 13

The Commission shall reintroduce, by means of a Regulation, the levying of customs duties in respect of any one of the countries and territories referred to in Article 1 (2), under the conditions laid down in Article 12.

In the case of such a reintroduction, Spain and Portugal shall reintroduce the levying of customs duties that they shall apply to third countries on the date in question.

By means of a Regulation, the Commission may, even after 31 December 1989, take measures to stop quantities being charged against the Community tariff ceilings if, particularly as a result of regularizations of imports actually made during the period referred to in Article 1 (1), these ceilings are exceeded.

The Member State which initiates such regularizations shall communicate to the Commission as and when the figures of import charges relating thereto. The Commission, on receiving these communications, shall inform the other Member States thereof.

SECTION IV

General provisions

Article 14

By 28 February 1990 at the latest, Member States shall notify the Commission of the final total of the quantities charged and any balance of shares still unused at 31 December 1989. Up to the limit of the balance remaining, and at the request of the Member States, the Commission shall authorize the Member States to make any necessary regularization of the quantities charged in respect of imports actually made during the period referred to in Article 1 (1). The Commission shall inform the other Member States thereof.

Article 15

Articles 2, 9, 12 and 13 shall not apply to the countries listed in Annex VI.

Article 16

1. Imports of the products in question shall be charged against the quota shares and the shares of the fixed duty-free amounts of Member States and the Community ceilings as and when the products are entered for free circulation and are accompanied by a certificate of origin pursuant to the rules referred to in Article 1 (4).

2. Goods may be charged against a ceiling or admitted under a national quota share only if the certificate of origin referred to in paragraph 1 is presented before the date on which the levying of duties is reintroduced.

3. The extent to which the tariff quotas, fixed duty-free amounts and Community ceilings have been used up shall be determined at Community level on the basis of the imports charged in accordance with paragraph 1.

Article 17

1. The Member States shall, within six weeks of the end of each quarter at the latest, forward to the Statistical Office of the European Communities the relevant statistical data for the products entered for free circulation in the quarter concerned under generalized preferential treatment in accordance with the provisions of the present Regulation. This data, transmitted according to the codes of the combined nomenclature and

where applicable of the TARIC shall show the country of origin, value, quantity and any supplementary units as defined by Regulations (EEC) No 1736/75 and (EEC) No 3367/87.

2. However, in the case of products subject to quotas, the Member states shall, by the 11th day of each month, at the latest, forward to the Commission the list of charges effected during the previous month.

In the case of products subject to ceilings, the Member States shall forward to the Commission, at its request and under the same conditions, the list of charges effected during the previous month.

At the Commission's request, when the level of 75 % of the non-allocated ceiling is reached, the Member States shall forward to the Commission the lists of charges every 10 days; these lists shall be forwarded within five days from the end of each 10-day period.

3. The Commission shall ensure the publication in the *Official Journal of the European Communities* ('C' series) the tariff ceilings as and when they reach 100 % utilization.

It shall see that the Statistical Office of the European Communities ensures the publication of the annual state of import charges.

Article 18

The Member States and the Commission shall cooperate closely to ensure compliance with this Regulation.

Article 19

This Regulation shall enter into force on 1 January 1989.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 19 December 1988.
