COMMISSION REGULATION (EEC) No 1847/90

of 29 June 1990

determining for the Member States the estimated loss of income and the estimated level of the premium payable per ewe and per female goat and fixing the first advance for the 1990 marketing year

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 3013/89 of 25 September 1989 on the common organization of the market in sheepmeat and goatmeat [1], and in particular Article 5 (6) thereof,

Whereas Article 5 (1) and (5) of Regulation (EEC) No 3013/89 provides for the granting of a premium to compensate for any loss of income sustained by producers of sheepmeat and, in certain areas, of goatmeat; whereas those areas are defined in Annex I to Regulation (EEC) No 3013/89 and in Article 1 of Commission Regulation (EEC) No 1065/86 of 11 April 1986 determining the mountain areas in which the premium for goatmeat is granted [2], as last amended by Regulation (EEC) No 3519/86 [3]; whereas Article 5 (8) of Regulation (EEC) No 3013/89 provides for the possibility of granting premiums to producers holding females of the ovine species of certain mountain breeds other than eligible ewes, in certain areas; whereas those sheep and those areas are defined in the Annex to Council Regulation (EEC) No 872/84 of 31 March 1984 laying down the general rules for the granting of premiums to sheepmeat producers [4], as last amended by Regulation (EEC) No 1970/87 [5];

Whereas, pursuant to Article 5 (6) of Regulation (EEC) No 3013/89 and to enable an advance payment to be made to sheepmeat and goatmeat producers, the foreseeable loss of income should be estimate in the light of the foreseeable trend in market prices;

Whereas, under Article 22 (5) of Regulation (EEC) No 3013/89, the amount of the premium per ewe and per region is obtained transitionally for the 1990 marketing year by multiplying the loss of income referred to in paragraph 4 of that Article by a coefficient expressing for each region the annual average production of lamb meat per ewe expressed per 100 kilograms of carcase weight; whereas the coefficient for 1990 has not yet been fixed in view of the lack of full Community statistics; whereas, pending the fixing of that coefficient, the coefficients used for 1989, adjusted in accordance with the rules on transition, should be used provisionally; whereas, for region 1 the loss of income must be reduced by the weighted average of the variable premiums actually granted and the foreseeable premiums for the remainder of the 1990 marketing year, such average being obtained in accordance with Article 24 (4) of that Regulation; whereas Article 22 (5) of that Regulation also fixes for the 1990 marketing year the premium per female of the caprine species and per female of the ovine species other than eligible ewes, at 80 % of the premium per ewe;

Whereas, in accordance with Article 24 (8) of Regulation (EEC) No 3013/89, the losses of income in Great Britain on the one hand (impact of the non-deducted variable premium) and of Ireland — Northern Ireland on the other hand, and the coefficients expressing the annual average production of lamb meat per ewe are to be gradually merged into a single income loss and single coefficients in proportion to the actual dismantling of the variable slaughter premium during each marketing year;

Whereas, in accordance with Article 22 (6) of Regulation (EEC) No 3013/89, for the 1990 marketing year where a premium per ewe is granted for region 2 on application from the parties concerned, a premium per ewe of an amount equal to the premium payable per ewe in region 2 may be granted in region 3 instead of the premium payable in that region where the recipients have shown, to the satisfaction of the competent authority, that lambs from ewes which they hold have not been slaughtered before two months of age; whereas that paragraph also provides, for the 1990 marketing year, that a premium per female goat equal to 80 % of the premium payable per ewe in region 2 may be granted in the areas in region 3 referred to in Article 5 (5) of that Regulation instead of the premium payable in that region where the recipients have shown, to the satisfaction of the competent authority, that the kids from female goats which they hold have not been slaughtered before two months of age;

Whereas, in accordance with Article 22 (8) of that Regulation, the Member States comprising regions 3 and 4 which, to the satisfaction of the Commission, have, from the 1990 marketing year introduced a system enabling

producers of heavy lambs to be distinguished from producers of light lambs, are to qualify in respect of that marketing year, in the case of producers of heavy lambs, for the premium paid in region 2, and, in the case of producers of light lambs, for a premium corresponding to 70 % of the premium for producers of heavy lambs, that premium also applying to female goats; whereas the two Member States comprising region 4 have introduced such a system for the 1990 marketing year;

Whereas, pursuant to Article 8 of Regulation (EEC) No 3013/89, the premium must be reduced by the impact on the basic price of the coefficient provided for in Article 8 (2) of that Regulation; whereas that coefficient was fixed provisionally by Commission Regulation (EEC) No 3618/89 of 1 December 1989 on the application of the guarantee limitation arrangements for sheepmeat and goatmeat for the 1990 marketing year [1];

Whereas, in accordance with Article 5 (6) of Regulation (EEC) No 3013/89, the half-yearly advance payment is fixed at 30 % of the expected premium; whereas, in accordance with Article 4 (3) of Commission Regulation (EEC) No 3007/84 [2], as last amended by Regulation (EEC) No 1260/90 [3], the advance payment is to be paid only if it is equal to or greater than ECU 1;

Whereas the Management Committee for sheep and goats has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION:
