COMMISSION REGULATION (EEC) No 2639/90

of 13 September 1990

adopting interim protective measures in regard to applications for STM licences for milk and milk products lodged between 3 and 8 September 1990

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the Act of Accession of Spain and Portugal, and in particular Article 85 (1) thereof,

Whereas Commission Regulation (EEC) No 606/86 of 28 February 1986 laying down detailed rules for applying the supplementary trade mechanism to milk products imported into Spain from the Community of Ten [1], as last amended by Regulation (EEC) No 1637/90 [2], fixes the indicative ceilings for milk sector products for 1990 and splits these up into monthly ceilings;

Whereas applications for STM licences for cheese of category 2 lodged between 3 and 8 September quantities higher than the ceiling set for the third quarter;

Whereas Article 85 (1) of the Act of Accession states that the Commission may take interim protective measures necessary by an emergency procedure where the situation indicates that the indicative ceiling will be attained or exceeded; whereas to this end it is necessary, for the products concerned, to refuse all requests lodged during the week in question and with effect from that week to suspend all further issuing of licences,

HAS ADOPTED THIS REGULATION:

Article 1

1. Applications for STM licences for milk products falling within category 2 of CN code ex 0406 as referred to in Regulation (EEC) No 606/86 lodged between 3 and 8 September 1990 and notified to the Commission are hereby rejected.

2. The issuing of STM licences for products covered by the abovementioned CN code is hereby provisionally suspended.

Article 2

This Regulation shall enter into force on 14 September 1990.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 13 September 1990.

For the Commission

Ray MAC SHARRY

Member of the Commission
