COMMISSION REGULATION (EEC) No 3695/90

of 19 December 1990

fixing the target ceiling for imports of olive oil into Portugal for the period 26 November to 31 December 1990

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the Act of Accession of Spain and Portugal, and in particular Article 251 thereof,

Having regard to Council Regulation (EEC) No 569/86 of 25 February 1986 laying down general rules for the application of the supplementary mechanism applicable to trade [1], as last amended by Regulation (EEC) No 3296/88 [2], and in particular Article 7 (1) thereof,

Whereas Article 249 of the Act of Accession provides that the supplementary trade mechanism (STM) is to apply to olive oil; whereas Article 251 of that Act provides that a forward estimate is to be drawn up, as a general rule at the start of each marketing year, of production and consumption of olive oil in Portugal; whereas the target ceiling fixed is based on the estimate thus drawn up;

Whereas Council Regulation (EEC) No 3501/90 [3] removed olive oil from the list of products subject to the STM in Portugal; whereas the target ceiling for imports during December 1990 should therefore be fixed;

Whereas, with a view to ensuring minimum supply to the greatest number of operators to satisfy their immediate requirements, it should be provided that each operator may submit tenders in respect of a minimum quantity only; whereas, with a view to preventing this provision from being circumvented in any way and consequently to preventing a small number of operators from monopolizing the quantities put up for sale, it should be provided that only recognized operators may be allocated quantities to be exported;

Whereas Commission Regulation (EEC) No 574/86 [4], as last amended by Regulation (EEC) No 3296/88, lays down the detailed rules for the application of the supplementary mechanism applicable to trade for all agricultural sectors; whereas certain detailed rules applying specifically to the oils and fats sector were laid down by Regulation (EEC) No 1634/86 [5], as last amended by Regulation (EEC) No 2439/89 [6]; whereas, in view of the current situation on the market for olive oil in Portugal, certain special detailed rules for the application of that mechanism should be laid down for the period 26 November to 31 December 1990, the better to organize imports into that country;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Oils and Fats,

HAS ADOPTED THIS REGULATION:

Article 1

The target ceiling for imports into Portugal of olive oil falling within CN codes 1509 and 1510 00 from the other Member States is hereby fixed at 3 000 tonnes for the period 26 November to 31 December 1990.
