COMMISSION REGULATION (EEC) No 830/90

of 30 March 1990

fixing for the 1990 marketing year the reference prices for tomatoes

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the Act of Accession of Spain and Portugal,

Having regard to Council Regulation (EEC) No 1035/72 of 18 May 1972 on the common organization of the market in fruit and vegetables (1), as last amended by Regulation (EEC) No 1119/89 (2), and in particular Article 27 (1) thereof,

Whereas, pursuant to Article 23 (1) of Regulation (EEC) No 1035/72, reference prices valid for the whole Community are to be fixed at the beginning of the marketing year;

Whereas tomatoes are produced in such quantities in the Community that reference prices should be fixed for them;

Whereas tomatoes harvested during a given crop year are marketed from January to December; whereas the quantities harvested from January to March and during the last 10 days of December are so small that there is no need to fix reference prices for the whole year; whereas reference prices should therefore be fixed only for the period 1 April up to and including 20 December;

Whereas, Article 23 (2) (b) of Regulation (EEC) No 1035/72 stipulates that reference prices are to be fixed at the same level as for the preceding marketing year, adjusted, after deducting the standard cost of transporting Community products between production areas and Community consumption centres in the preceding year, by:

— the increase in production costs for fruit and vegetables, less productivity growth, and

— the standard rate of transport costs in the current marketing year;

Whereas the resulting figure may nevertheless not exceed the arithmetic mean of producer prices in each Member State plus transport costs for the current year, after this amount has been increased by the rise in production costs less productivity growth; whereas the reference price may, however, not be lower than in the preceding marketing year;

Whereas, to take seasonal variations into account, the year should be divided into several periods and a reference price fixed for each of these periods;

Whereas producer prices are to correspond to the average of the prices recorded on the representative market or markets situated in the production areas where prices are lowest during the three years prior to the date on which the reference price is fixed, for a home-grown product with defined commercial characteristics, being a product or variety representing a substantial proportion of the production marketed over the year or over part thereof and satisfying specified requirements as regards market preparation; whereas, when the average of prices recorded on each representative market is being calculated, prices which could be considered excessively high or excessively low in relation to normal price fluctuations on that market are to be disregarded;

Whereas, in accordance with Articles 140 (2) and 272 (3) of the Act of Accession, the prices of Spanish and Portuguese products will not be used for the purpose of calculating reference prices, during the first phase in the case of Spain and during the first stage in the case of Portugal;

Whereas, up to 10 July, Community-produced tomatoes are grown mainly under glass; whereas the reference prices for this period of the marketing year must therefore be fixed for a product of that type; whereas tomatoes imported from certain third countries during the same period will have been grown in the open; whereas, although such tomatoes may be classed in class I, their quality and price are not comparable with those of products grown under glass; whereas the prices for tomatoes not grown under glass should therefore be adjusted by a conversion factor;

Whereas, from October to December inclusive, tomatoes imported from certain third countries are cultivated under glass; whereas a conversion factor should also be applied to the prices of these tomatoes to make them comparable with the reference prices which are during this period calculated on the basis of prices of Community products cultivated in the open;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fruit and Vegetables,

(1) OJ No L 118, 20. 5. 1972, p. 1.
(2) OJ No L 118, 29. 4. 1989, p. 12.
