COMMISSION REGULATION (EEC) No 1770/91

of 21 June 1991

providing for the grant of compensation to producers' organizations in respect of tuna delivered to the canning industry during the period 1 October to 31 December 1990

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 3796/81 of 29 December 1981 on the common organization of the market in fishery products [1], as last amended by Commission Regulation (EEC) No 2886/89 [2], and in particular Article 17a (10) thereof,

Whereas the compensation referred to in Article 17a of Regulation (EEC) No 3796/81 is granted, under certain conditions, to Community tuna producers' organizations in respect of quantities of tuna delivered to the canning industry, during the calendar quarter for which prices were recorded, where the average quarterly price recorded on the Community market and the free-at-frontier price are both lower than 93 % of the Community producer price for the product in question;

Whereas examination of the situation on the Community market has shown that for some species and presentations of the product in question, for the period 1 October to 31 December 1990, both the average quarterly market price and the free-at-frontier price referred to in Article 17a of Regulation (EEC) No 3796/81 were lower than 93 % of the Community producer price in force as laid down in Council Regulation (EEC) No 3648/89 of 27 November 1989 fixing the Community producer price for tuna intended for the industrial manufacture of products falling within CN code 1604 for the 1990 fishing year [3];

Whereas the quantities eligible for compensation, within the meaning of Article 17a (2) of Regulation (EEC) No 3796/81, may not under any circumstances exceed, for the quarter concerned, the limits laid down in paragraph 4 of that Article;

Whereas, in the case of yellowfin weighing not more than 10 kg, skipjack and albacore, none of these limits is exceeded and, consequently, there is no need to determine the maximum quantities in respect of which the allowance may be granted;

Whereas, on the other hand, during the quarter concerned the quantities of yellowfin weighing more than 10 kg, sold and delivered to canning industries established in Community customs territory were higher than the average of the quantities sold and delivered during the same quarter of the preceding three fishing years; whereas, these quantities exceed the limits set in the second indent of Article 17a (4) of Regulation (EEC) No 3796/81, the total quantities of these products should therefore be limited to those eligible for compensation and the quantities granted to each producers' organization concerned should be determined in accordance with their respective output during the same quarter of the 1984 to 1986 fishing years;

Whereas, in accordance with Commission Regulation (EEC) No 2381/89 of 2 August 1989 laying down detailed rules for granting compensation for tuna for the canning industry [4], the granting of compensation for the products in question should be decided for the period from 1 October to 31 December 1990;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fishery Products,

HAS ADOPTED THIS REGULATION:
