COMMISSION REGULATION (EEC) No 1959/91

of 21 June 1991

laying down detailed rules for implementing Council Regulation (EEC) No 4028/86 as regards Community financial assistance for redeployment operations

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 4028/86 of 18 December 1986 on Community measures to improve and adapt structures in the fisheries and aquaculture sector (1), as amended by Regulation (EEC) No 3944/90 (2), and in particular Articles 17c (2) and 17e (3) thereof,

Whereas Article 17b (1) of Regulation (EEC) No 4028/86 provides that the Commission shall grant assistance to redeployment operations carried out under certain conditions as set out therein;

Whereas applications for Community assistance must contain data enabling a decision to be taken thereon and whereas such applications must be submitted in a standardized form;

Whereas the encouragement of these operations is intended to bring about a redeployment of Community fishing acitvities and Member States must therefore be informed of certain results obtained in the course of redeployment operations;

Whereas applications are to be submitted via the competent authorities of the Member States; whereas those authorities should examine applications in order to convey their opinion to the Commission;

Whereas the Commission must have access to sufficient information to enable it to take a decision as to the substance;

Whereas if effective checks are to be made, Member States must keep the supporting documents on the basis of which the aid has been calculated at the Commission's disposal for a period of three years after payment of the final reimbursement;

Whereas the measures provided for in this Regulation are in accordance with the opinion to the Standing Committee for the Fishing Industry,

HAS ADOPTED THIS REGULATION:

Article 1

A redeployment operation project as referred to in Article 17a of Regulation (EEC) No 4028/86 must concern a commercial fishing operation and must be carried out by a single vessel in a given zone.

Article 2

1. Redeployment projects submitted to the Commission through the Member State(s) concerned must contain the particulars specified in Annex I and must be presented in the form shown in the said Annex.

2. Part A of Annex I shall be submitted to the Commission in duplicate. Part B shall be retained by the competent national authorities of the Member State concerned.

3. The Member State concerned shall examine the information contained in Part B of Annex I and shall notify the Commission of the result of that examination in accordance with paragraph 1 of Part A of Annex I. It shall at the same time specify the criteria which it applies for the selection of projects and for the granting of its financial contribution, as provided for in paragraph 10 of Part A of Annex I.

4. Applications as referred to in paragraph 1 shall be recorded on the day when they are received by the Commission.

Article 3

1. For the purposes of this Regulation:

— the 'beginning of the redeployment operation' shall mean the day of departure from the port of operations or the last port of fitting out immediately before fishing operations;

— 'port of operations' shall mean the port from which the vessel carries out most of its activities;

— the 'last port of fitting out' shall mean the port at which the vessel takes on the fishing gear, supplies and crew;

(1) OJ No L 376, 31. 12. 1986, p. 7.
(2) OJ No L 380, 31. 12. 1990, p. 1.

— the 'end of the redeployment operation' shall mean the day on which the vessel returns to the last port of landing, on the understanding that no activity extraneous to the redeployment operation in question has taken place in the meantime;

— the 'duration of the redeployment operation' shall mean the number of days spent at sea per year between the beginning and the end of the redeployment operation in question.

2. To qualify for a redeployment premium, the redeployment operations may not begin until after the date on which the application for aid is recorded as received by the Commission. In cases where the application is received after the departure of the vessel concerned from the port of operations but before the departure from the last port of fitting out before fishing operations, the application shall be admitted but the days at sea incurred between that latter port and the port of operations shall not be eligible for Community aid.

Article 4

In respect of each project submitted to the Commission, the Member State(s) concerned must check and certify that the legal fishing authorization or authorizations have been issued by the competent authorities for the duration of the redeployment operation in question.

Article 5

1. The report referred to in Article 17e of Regulation (EEC) No 4028/86 hereinafter referred to as the 'final report', must reach the Commission not later than two months after the end of the redeployment operation in question.

2. The final report must contain the particulars specified in Annex II and must be submitted in the form shown in that Annex.

Article 6

1. Applications for payment as referred to in Article 17c of Regulation (EEC) No 4028/86, which are submitted to the Commission by the Member State(s) concerned, must contain the particulars specified in Annex III and must be presented in the form shown in that Annex. They must be accompanied by the final report within the meaning of Article 5.

2. The Member State(s) concerned shall certify that the information contained in applications for payment as referred to in paragraph 1 is accurate.

Article 7

Redeployment premiums may not be paid until the Commission has received the final report.

Article 8

Member States shall keep at the Commission's disposal, for a period of three years after the final payment is made, all the supporting documents or certified true copies thereof on the basis of which the aids provided for in Regulation (EEC) No 4028/86 have been calculated, together with the complete files relating to applicants.

Article 9

This Regulation shall enter to force on the day of its publication in the *Official Journal of the European Communities.*

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 21 June 1991.

PROJECT FOR A REDEPLOYMENT OPERATION

(To be completed by the Member State in duplicate)

As regards the project for a redeployment operation submitted by (1) .....

.....

having its head office at: .....

The public body entitled: .....

hereby certifies that:

1. the Member State has given its approval;

2. the project relates to fishing operations for commercial purposes in the zone designated as (2): [ ]

   by a vessel measuring over or equal to 12 metres in length between perpendiculars, to be carried out in that zone with a view to the exploitation of fishery resources, primary consideration being given to the supply of the Community market;

3. the project relates to fishing operations lasting a minimum of 60 days per year and vessel and comprising one or more trips and up to a maximum of 220 days;

4. the project provides that (3):

   the beginning of the redeployment operation is scheduled for: [../../....]

   the end of redeployment operation is scheduled for: [../../....]

   the duration of the redeployment operation is scheduled for: [... days]

   the vessel has a gross registered tonnage of: [... GRT]

   and is registered in the Community fishing fleet register pursuant to Regulation (EEC) No 163/89 (4).

5. the necessary fishing authorizations and official notices have been issued;

6. the objective is compatible with the guidelines laid down periodically by the Commission, the most recent ones dating from 21 June 1991;

7. the project in submitted to the Commission with a view to obtaining a redeployment premium

amounting to (3) ECU [ ] ;

8. the national financial contribution will be awarded by competent authorities

the total amount being: ECU [ ]

assessed at ... % of the requested Community redeployment premium

and hereby states that:

9. the said national financial contribution (4) will be adjusted if necessary so that, at the time of payment, it does not exceed the limits specified in Article 17 quater and in annex VIII of Regulation EEC) No 4028/86;

10. the criteria used for the selection of this project and for his financial participation are the following (7):

.....

.....

11. the general description of this project is summarized in the Annex (8);

3. PREVIOUS ACTIVITIES OF THE VESSEL

3.1 **Previous activities of the vessel**

— Name of vessel:

— Usual area of activities (1):

— Most recent area of activities (1):
from . . / . . / . . . . to . . / . . / . . . .

— Type of fishing usually practised (2):

— Fishing gear generally used (3):

3.2 **Main species caught and average landings during the year preceeding the submission of this application**

Species	Quantities		Presentation of landings (a)	Initial sale (ports of landing)
	Caught	Landed		

(a) Specify whether the products were processed and, if so, in what form (frozen, deep-frozen, packaged, prepared, etc.) or whether they were landed as fresh products.

Any comments (summary of activities): .....

.....

.....

(1) Specify the ICES or NAFO divisions. For other maritime areas, give the names used by the competent national or international authorities.

(2) Enter the code corresponding to the vessel's principal activity, in accordance with the International Standard Statistical Classification of Fishing Vessels (ISSCFV).

(3) Enter the appropriate code, in accordance with the International Standard Statistical Classification of Fishing Gear (ISSCFG).

4. OBJECTIVES OF THE REDEPLOYMENT OPERATION

4.1 **Identification of fishing zone**

4.1.1 **Geographical definition**

Enter the code for the main zone of activities (1) and enclose a copy of the nautical chart covering the said zone, references being provided by the applicant where necessary:

Note:

The Commission grants Community financial aid only to projects involving redeployment operations carried out:

— in waters falling withing the sovereignty or jurisdiction of a third country with which the Community has not concluded a fisheries' agreement but maintains relations, or

— in waters falling within the sovereignty or jurisdiction of a third country with which the Community has concluded a fisheries' agreement if this project can not benefit from other Community aid with the same objective within the framework of the common fishery policy, or

— in waters which do not fall within the sovereignty or jurisdiction of any State, in so for as such operations do not involve the catching of species subject to a quota assigned to the Community.

4.1.2 **Access to the fishing zone**

Where appropriate, describe the situation as regards access to the fishing zone.

Important note:

Where legal fishing authorizations have to be granted for fishing operations, the present applicant(s):

— hereby certifies/certify that the legal authorizations have been issued,

— enclose(s) herewith copies of the supporting documents.

4.1.3 **Meterological situation**

Data on the weather conditions usually encountered in the zone.

4.2 **State of resources**

4.2.1 **Present state of resources**

Please specify:

Source (a)	Fishable species	Estimate of stocks (MSY in tonnes)	Possible and/or authorized fishing period

(a) Specify the sources of information.

Any comments should be attached hereto.

4.2.2 **Present state of fishing (2)** FISHED ☐ NOT FISHED ☐

If fished, specify the volume:

Flag flown by the vessel(s) operating in the zone	Type of vessel (a)	Period of activity	Species	Present level of fishing (b)

(a) Use the code employed for the International Standard statistical Classification of Fishing Vessels (ISSCFV).
(b) State whether fishing of the species concerned is: nul, light, average, heavy or excessive.

4.2.3 **Special conditions for fishing**

YES ☐ NO ☐

If yes, specify the conditions (mesh size, fishing season, . . .)

4.2.4 **Logistics**

(a) Port facilities (description and assessment of existing facilities);

(b) Other infrastructures (air links, communications, . . .).

4.3 Identification of the technical and commercial objectives and of the fishing plan

4.3.1 Technical objectives

Catch forecasts

Complete the following table, estimating the average catches of the target species:

Name of vessel	Number of trips scheduled	Commercial species targeted	Catches/day (tons)	Number of fishing day	Fishing gear/ fishing method

Any comments should be annexed hereto.

4.3.2 Commercial objectives

Forecasts for landings/transhipments and marketing

Complete the following toble where possible:

Forecast of catches of	Landing/transhipmen		Marketing		
	Volume (tonnes)	Presentation (a)	Processing (b)	Consumer Market(s) (country)	
				EC countries	Non-EC countries

(a) State whether products are landed fresh or processed on board (frozen, deep-frozen, prepared, packaged, etc.) and specify the presentation (gutted, without head, filleted or whole).
(b) Specify the type of onshore processing, if any.

Comments (enclose a market study if available):

.....

.....

.....

.....

4.3.3 **Identification of fishing plan**

Using the following model, state for each trip the planned activities of the vessel.

Trip number	Departure		Return		Fishing zone	Number of days of fishing	Specification of fishing gear/method
	Port	Date	Port	Date			

(1) Specify the ICES or NAFO divisions. For other martime areas, give the name used by the competent national or international authorities.
(2) Tick the appropriate box.

5. GENERAL DESCRIPTION OF THE PROJECT

A brief descriptive signifacant report (not longer than two pages, even if handwritten) containing the following information must be attached:

1. The applicant's comments on the structural situation of the fleet in the area where his vessel has fished during the last two years, in outlining particularly the necessity of redeployment of the vessel.

2. The advantages expected from this scheduled redeployment operation, in outlining particularly the aspects of supplying the Community market.

3. The descriptive report should particularly incorporate the information given under item 3 (Previous activities of the vessel) and 4 (Objectives of the redeployment operation).

2. GENERAL INFORMATION ON THE FISHING ZONE

2.1 **Geographical situation**

Specify and describe the areas fished and state the fishing conditions.

2.2 **Conditions of access**

Outline the conditions governing access to fish stocks, and in particular those laid down by the competent authorities.

3. INFORMATION RELATING TO THE REDEPLOYMENT OPERATION

Enclose the daily record of fishing operations as shown in the model on page 104 and copies of the European Communities' landing/transhipment declarations (Commission Regulation (EEC) No 2807/83 (1))

The fishing operations during the abovementioned redeployment operation may be summarized as follows:

3.1 **Fishing**

(a) Complete the attached Tables 3.1A and 3.1B.

(b) List all technical operations relating to the above mentioned redeployment operation, and in particular concerning:

— the species caught, stored and, where appropriate, sampled and discarded (qualitative and quantitative assessments),

— the gear and techniques employed,

— the vessel engaged in fishing,

— logistics (description of arrangements for taking on stores and land-based facilities for unloading, storage and communications).
