COMMISSION REGULATION (EEC) No 3795/91

of 18 December 1991

amending the Annex to Regulation (EEC) No 3846/87 establishing an agricultural product nomenclature for export refunds

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 804/68 of 27 June 1968 on the common organization of the market in milk and milk products (1), as last amended by Regulation (EEC) No 1630/92 (2), and in particular Article 17 thereof,

Having regard to Commission Regulation (EEC) No 3846/87 of 17 December 1987 establishing an agricultural product nomenclature for export refunds (3), as last amended by Regulation (EEC) No 3655/91 (4), and in particular Article 3, last subparagraph, thereof,

Whereas pursuant to Council Regulation (EEC) No 2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff (5) as last amended by Commission Regulation (EEC) No 3537/91 (6) all fresh cheeses are grouped under CN code 0406 10 with effect from 1 January 1992;

Whereas Commission Regulation (EEC) No 3846/87 establishes an agricultural product nomenclature for export refunds on the basis of the tariff nomenclature; whereas sector 10 thereof concerning milk and milk products should be adjusted to take account of the abovementioned amendments;

Whereas this Regulation specifies that as a rule no export refund is granted on cheeses of a free-at-frontier value less than ECU 140 per 100 kilograms; whereas trends in market prices require that this value be updated;

(1) OJ No L 148, 28. 6. 1968, p. 13.
(2) OJ No L 150, 15. 6. 1991, p. 19.
(3) OJ No L 366, 24. 12. 1987, p. 1.
(4) OJ No L 348, 17. 12. 1991, p. 14.
(5) OJ No L 256, 7. 9. 1987, p. 1.
(6) OJ No L 335, 6. 12. 1991, p. 9.

Whereas Regulation (EEC) No 3846/87 provides for the publication of the full version of the refund nomenclature to be used from 1 January each year as it follows from the regulatory provisions on export arrangements for agricultural products (1),

Whereas account must be taken of amendments to the combined nomenclature introduced by Commission Regulation (EEC) No 2587/91 of 26 July 1991 amending Annex I to Council Regulation (EEC) No 2658/87 on the tariff and statistical nomenclature and on the Common Customs Tariff (2) applicable from 1 January 1992;

Whereas the measures provided for in this Regulation concerning the amendments to sector 10 of the Annex are in accordance with the opinion of the Management Committee for Milk and Milk Products,

HAS ADOPTED THIS REGULATION:

Article 1

The Annex to Regulation (EEC) No 3846/87 is hereby replaced by the Annex hereto.

Article 2

This Regulation shall enter into force on 1 January 1992.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 18 December 1991.

For the Commission
Ray MAC SHARRY
Member of the Commission

(1) Incorporated in the Annex to this Regulation are amendments resulting from the adoption of the following measures:

	– Of 63 % or more by weight (N × 6,25)	2303 10 11 100
	– Other	2303 10 11 900

(1) The export refund is paid in respect of maize, groats and meal:
— of which a percentage not exceeding 30 % passes through a sieve with an aperture of 315 micrometres,
— of which a percentage not exceeding 5 % passes through a sieve with an aperture of 150 micrometres.

(2) 'Hulled grains' are grains corresponding to the definition given in the Annex to Commission Regulation (EEC) No 821/68 (OJ No L 149, 29. 6. 1968, p. 46).

(3) 'Pearled grains' are grains corresponding to the definition given in the Annex to Regulation (EEC) No 821/68.

(4) The analytical method to be used for the determination of the fatty matter content is that printed in Annex I (method A) to Commission Directive 84/4/EEC (OJ No L 15, 18. 1. 1984, p. 28).

(5) The procedure to be followed for the determination of the fatty matter content is as follows:
— the sample has to be crushed so that 90 % or more can pass through a sieve with an aperture of 500 micrometres and 100 % can pass through a sieve with an aperture of 1 000 micrometres,
— the analytical method to be used afterwards is that which is printed in Annex I (method A) to Directive 84/4/EEC.

(6) The dry matter content of starch is determined by the method laid down in Annex II to Commission Regulation (EEC) No 1908/84 (OJ No L 178, 5. 7. 1984, p. 22). The purity of starch is determined using the Ewers modified polarimetric method, as published in Annex I of the Third Commission Directive 72/199/EEC (OJ No L 123, 29. 5. 1972, p. 6).

(7) The export refund payable for starch shall be adjusted by using the following formula:

1. Potato starch: $\frac{\text{actual \% dry matter}}{80} \times$ export refund.

2. All other types of starch: $\frac{\text{actual \% dry matter}}{87} \times$ export refund.

When completing customs formalities, the applicant shall state on the declaration provided for this purpose the dry matter content of the product.

(1) The products may be classified in this subheading only if the size and the characteristics of the coherent muscle tissue enable them to be identified as coming from the primary cuts mentioned. The expression 'parts thereof' applies to products with a net unit weight of at least 100 grams or to products cut into uniform slices coming from the same primary cut which are packed together in the natural consecutive order with a net overall weight of at least 100 grams.

(2) Only those products for which the name is certified by the competent authorities of the producing Member State can benefit from this refund.

(3) The refund on sausages presented in containers with a preservative liquid is granted on net weight after deduction of weight of this liquid.

(4) The weight of a coating of paraffin corresponding to normal use in the trade is considered as part of the net weight of the sausage.

(5) The term 'uncooked' shall apply to products which have not been subjected to any heat-treatment or which have been subjected to a heat-treatment insufficient to ensure the coagulation of meat proteins in the whole of the product and which therefore show traces of a pinkish liquid on the cut surface when the product is cut along a line passing through its thickest part.

(6) If composite food preparations (including prepared dishes) containing sausages, are classified within heading No 1601 because of their composition, the refund is granted only on the net weight of the sausages, the meat and the offal, including fats of any kind or origin, which make part of these preparations.

(7) The refund on products containing bones is granted on the net weight of the product after deduction of the weight of the bones.

(8) The granting of the refund is subject to the compliance with the conditions laid down in Commission Regulation (EEC) No 171/78 (OJ No L 25, 31. 1. 1978, p. 21). At the time of the conclusion of customs export formalities the exporter shall declare in writing that the products in question fulfill these conditions.

(9) The meat and fat content is to be determined in accordance with the analysis procedure in the Annex to Commission Regulation (EEC) No 1583/89 (OJ No L 156, 8. 6. 1989, p. 13).

(10) The content of meat or meat offal, of any kind, including fats of any kind or origin, is to be determined in accordance with the analysis procedure in the Annex to Commission Regulation (EEC) No 226/89 (OJ No L 29, 31. 1. 1989, p. 11).

(1) When the product falling within this subheading is a mixture containing added whey and/or added lactose and/or casein and/or caseinates, no export refund shall be granted.
When completing customs formalities, the applicant shall state on the declaration provided for this purpose, whether or not whey and/or lactose and/or casein and/or caseinates have been added to the product.

(2) The weight of the added non-lactic matter and/or added whey and/or added lactose and/or added casein and/or added caseinates shall not be taken into account for the purpose of calculation of the fat content by weight. When the product falling within this subheading is a mixture containing added whey and/or added lactose and/or added casein and/or added caseinates, the whey and/or added casein and/or caseinates shall not be taken into account in the added calculation of the amount of refund.
When completing customs formalities, the applicant shall state, on the declaration provided for this purpose, whether or not whey and/or lactose and/or casein and/or caseinates have been added, and where this is the case:
— the actual content by weight of whey and/or lactose and/or casein and/or caseinates added per 100 kilograms of finished product, and in particular,
— the lactose content of the added whey.

(3) When the product contains casein and/or caseinates that were added before or at the time of processing, no refund shall be granted.
When completing customs formalities, the applicant shall state, on the declaration provided for this purpose, whether or not whey and/or lactose and/or casein and/or caseinates have been added.

(4) The weight of added non-lactic matter and/or added whey and/or added lactose and/or added casein and/or added caseinates shall not be taken into account for the purpose of calculation the fat content, by weight.
The refund per 100 kilograms of product falling within this subheading shall be equal to the sum of the following components:
(a) the amount per kilogram shown, multiplied by the weight of the lactic part contained in 100 kilograms of product; however, where whey and/or lactose and/or casein and/or caseinates have been added to the product, the amount per kilogram shown shall be multiplied by the weight of lactic part excluding the weight of added whey and/or added lactose and/or added caseinates, contained in 100 kilograms of product;
(b) a component calculated in accordance with the provisions of Article 2 (3) of Regulation (EEC) No 1098/68 (OJ No L 184, 29. 7. 1968, p. 10).
When completing customs formalities, the applicant shall state, on the declaration provided for this purpose, whether or not whey and/or lactose and/or casein and/or caseinates have been added, and where this is the case:
— the actual content by weight of whey and/or lactose and/or casein and/or caseinates added per 100 kilograms of finished products, and in particular.
— the lactose content of the added whey.

(5) The refund on 100 kilograms of product falling within this subheading is equal of the sum of the following elements:
(a) the amount per 100 kilograms shown; however, where whey and/or lactose and/or casein and/or caseinates have been added to the products, the amount per 100 kilograms shown shall be:
— multiplied by the weight of the lactic part other than the added whey and/or added lactose and/or added casein and/or added caseinates contained in 100 kilograms of product, and then
— divided by the weight of the lactic part contained in 100 kilograms of product;
(b) a component calculated in accordance with the provisions of Article 2 (3) of Regulation (EEC) No 1098/68.
When completing customs formalities, the applicant shall state, on the declaration provided for this purpose, whether or not whey and/or lactose and/or casein and/or caseinates have been added, and where this is the case:
— the actual content by weight of whey and/or lactose and/or casein and/or caseinate added per 100 kilograms of finished product, and, in particular,
— the lactose content of the added whey.

(6) No refund shall be paid in respect of exported cheese of which the free-at-frontier price, before application of the refund and the monetary compensatory amount, in the exporting Member State, is less than ECU 150 per 100 kilograms. This limitation to ECU 150 per 100 kilograms does not apply to cheeses falling within subheadings 0406 90 93 and 0406 10 20 with a water content, calculated by weight, of the non-fatty matter exceeding 72 %.

(7) In the case of cheeses presented in containers which also contain conserving liquid, in particular brine, the refund is granted on the net weight, the weight of the liquid being deducted.

(8) When completing customs formalities, the applicant shall state on the declaration provided for this purpose:
— the skimmed-milk-powder content, by weight,
— whether or not whey and/or lactose and/or casein and/or caseinates have been added, and where this is the case:
— the content by weight of the added whey and/or added lactose and/or added casein and/or added caseinates, and
— the lactose content of the added whey per 100 kilograms of finished product.

(9) 'Special compound feedingstuffs' are compound feedingstuffs containing skimmed-milk powder and fish meal and/or more than 9 grams of iron and/or more than 1,2 grams of copper in 100 kilograms of product.

(10) Where the product contains casein and/or caseinates, the part corresponding to the casein and/or the added caseinates will not be taken into account for the purpose of calculating the refund.
When completing customs formalities, the party concerned is to state, on the declaration provided for the purpose, whether or not casein and/or caseinates have been added per 100 kilograms and where this is the case, the actual content by weight of added casein and/or added caseinates of finished product.
