COMMISSION REGULATION (EEC) No 1727/92

of 30 June 1992

laying down detailed rules for implementation of the specific arrangements for the supply of cereal products to the Azores and Madeira and establishing the forecast supply balance

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1601/92 of 15 June 1992 introducing specific measures in respect of certain agricultural products for the benefit of the Azores and Madeira ([1]), and in particular Article 10 thereof,

Whereas Commission Regulation (EEC) No 1696/92 ([2]) lays down common detailed rules for implementation of the specific arrangements for the supply of certain agricultural products to the Azores and Madeira;

Whereas Commission Regulation (EEC) No 3719/88 ([3]), as last amended by Regulation (EEC) No 92/91 ([4]), lays down in particular detailed rules for import licences; whereas Commission Regulation (EEC) No 891/89 ([5]), as last amended by Regulation (EEC) No 337/92 ([6]), lays down additional and exceptional detailed rules specific to the cereals sector;

Whereas, in order to take account of trade practices specific to the cereals sector, provision should be made for detailed rules supplementing or derogating from the provisions of Regulation (EEC) No 1696/92;

Whereas, pursuant to Article 2 of Regulation (EEC) No 1600/92, the forecast supply balance for cereal products for the Azores and Madeira should be drawn up, showing for the Azores the quantities required on each island; whereas the balance must allow for interchange of the quantities determined for certain products and, if necessary, adjustment during the year of the overall quantity determined, in line with regional requirements;

Whereas provision should be made for the Member State to designate the competent authority for issuing import licences and aid certificates, and for handling aid applications and payments;

Whereas a timetable for submitting licence and certificate applications should be set, and also admissibility requirements for applications, in particular as regards the lodging of securities; whereas, in addition, the period of validity of import licences and aid certificates should be fixed in accordance with supply needs and the requirements of sound administration by granting, in view of the situation of the Azores and Madeira, a longer period of validity for aid certificates;

Whereas provision should be made for the adjustment of the aid granted for the supply of cereal products originating in the Community on the basis of the difference in the threshold price of the product in question between the month of application for aid certificates and the month in which the certificates are used, in order to prevent, before the harvest, supply commitments which benefit from aid for the new marketing year, and to take account of practices in the cereals sector;

The aid for supply shall be adjusted:

(a) in the case of all cereal products listed in the Annex with the exception of maize, grain sorghum, malt and common wheat meal, for the period August to May of the same marketing year, by the monthly increase applicable to the intervention price fixed for that marketing year for the cereal in question, multiplied by the number of months elapsing between the month in which the aid certificate is applied for and the month in which each quantity is charged against the certificate. The first adjustment shall take place on the first day of the calendar month following the day the certificate application is submitted;

(b) in the case of maize and grain sorghum, for the period November of one marketing year to August of the following marketing year, by the monthly increase applicable to the intervention price fixed for the former marketing year for the cereal in question, multiplied by the number of months elapsing between the month in which the aid certificate is applied for and the month in which each quantity is charged against the certificate. The first adjustment shall be made on the first day of the calendar month following the day the certificate application is submitted;

(c) in the case of malt and durum wheat meal, for the period August to May of the same marketing year, by the monthly increase applicable to the intervention price fixed for that marketing year, multiplied on the one hand by the number of months elapsing between the month in which the aid certificate is applied for and the month in which each quantity is charged against the certificate and, on the other hand, by the processing coefficients 1,3 and 1,5 for malt and durum wheat meal respectively. The first adjustment shall take place on the first day of the calendar month following the day the certificate application is submitted;

(d) in the case of all products with the exception of maize and grain sorghum, where the term of validity of the aid certificate extends beyond the end of the marketing year and for all supplies charged against the certificate during the new marketing year, as follows: the aid shall be reduced by an amount equal to the difference between the intervention prices, not including monthly increases, for the former and the new marketing years and by an amount equal to the monthly increase for the new marketing year, multiplied by the number of months from August inclusive to the month in which the certificate application is submitted;
