COMMISSION REGULATION (EEC) No 1733/93

of 30 June 1993

amending Regulation (EEC) No 2164/92 laying down detailed rules for the application of the specific supply arrangements for the Canary Islands relating to milk products and establishing the forecast supply balance

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1601/92 of 15 June 1992 concerning specific measures for the Canary Islands with regard to certain agricultural products (1), as amended by Commission Regulation (EEC) No 3714/92 (2), and in particular Article 3 (4) thereof,

Whereas Commission Regulation (EEC) No 1695/92 (3), as amended by Regulation (EEC) No 2132/92 (4), lays down in particular the detailed rules for the application of the specific supply arrangements for the Canary Islands relating to certain agricultural products;

Whereas Commission Regulation (EEC) No 2164/92 of 30 July 1992 laying down detailed rules for the application of the specific supply arrangements for the Canary Islands relating to milk products and establishing the forecast supply balance (5), as last amended by Regulation (EEC) No 1604/93 (6), establishes the forecast supply balance in milk products for the Canary Islands for the period 1 July 1992 to 30 June 1993;

Whereas, after this initial period of applying the scheme in question, it is now appropriate to revise the period of validity of the import licences, the period during which applications for the said licences can be made and the amounts of the securities with a view to aligning them more closely with the time limits and amounts generally provided for in the milk sector;

Whereas, in order to continue satisfying the milk and milk product requirements of the Canary Islands, it is necessary to establish the forecast supply balance for the period 1 July 1993 to 30 June 1994; whereas the Annex to Regulation (EEC) No 2164/92 should accordingly be amended;

Whereas the quantities of products benefiting from the specific supply arrangements must be determined within the framework of periodic forecast supply balances which may be adjusted on the basis of the essential requirements of the markets and taking account of local production and traditional trade flows; whereas to ensure coverage of requirements in terms of quantity, price and quality and to ensure that the proportion of products supplied from the Community is preserved, the aid to be granted for products originating in the rest of the Community must be determined on terms equivalent, for the end user, to the advantage resulting from exemption from import duties on imports of products from third countries;

Whereas Commission Regulation (EEC) No 1646/93 (7) fixing the export refunds on milk and milk products adjust the refunds on certain milk products; whereas the aid for certain products listed in Annex II to Regulation (EEC) No 2164/92 should be adapted to take account of those adjustments;

Whereas the Management Committee for Milk and Milk Products has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION:

Article 1
