COMMISSION REGULATION (EC) No 242/94

of 2 February 1994

authorizing the Greek intervention agency to put up for sale by tender 110 000 tonnes of durum wheat for export from the other Member States in the form of durum wheat meal to Algeria

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 1766/92 of 30 June 1992 on the common organization of the market in cereals (1), as last amended by Commission Regulation (EEC) No 2193/93 (2), and in particular Article 5 thereof,

Whereas Commission Regulation (EEC) No 2131/93 (3) lays down the procedures and conditions for the disposal of cereals held by intervention agencies;

Prices for durum wheat on the Community's internal market are very high due to a fall in total production caused by the drought in Spain and a reduction in land down to durum wheat in France; whereas the Community's durum wheat meal industry must continue to be able to export in order to keep up normal trade flows to Algeria; whereas, therefore, provision should be made for Greek intervention stocks to be used to supply the Community export meal industry during the period 1 January to 30 April 1994 at competitive prices;

Whereas the above situation requires the measure to be implemented as a matter of urgency;

Whereas a conversion rate should be set to determine the quantity of durum wheat meal to be exported on the basis of the durum wheat used;

Whereas the specific nature of the operation requires greater flexibility in the mechanisms and obligations governing the resale of intervention stocks and the exclusion of any refund or monthly increase; whereas special procedures must be laid down to ensure that the operations are properly carried out and monitored; whereas to that end provision should be made for a system of securities to ensure that the aims of the measure are achieved without placing excessive burdens on operators; whereas derogations should accordingly be made from certain rules, in particular those laid down in Regulation (EEC) No 2131/93;

Whereas, to ensure that the operation is carried out smoothly and to avoid any disturbance of the market, it should be stipulated that securities may be released only after presentation of proof of arrival;

Whereas, where removal of the durum wheat is delayed by more than five days or the release of one of the required securities is delayed for reasons imputable to the intervention agency, Greece should pay compensation;

Whereas the Member States are to take all additional measures compatible with the provisions in force to ensure that the scheme operates smoothly and that the Commission is kept informed;

Whereas the Management Committee for Cereals has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION:

Article 1

Where the final results of the analysis of the sample indicate a significant difference between the quality of the durum wheat to be removed and the quality as described in the notice of invitation to tender referred to in Article 1 of this Regulation, the successful tenderer may refuse the merchandise.

A significant difference shall be a specific weight of less than 76 kg/hl, a level of broken grains of more than 9 % and a discrepancy of one percentage point for the moisture content, ten points for the Hagberg falling index, one percentage point for the protein content, ten percentage points for the impurities referred to under B.2, B.3 and B.4 and a half a percentage point for the impurities referred to under B.5, the percentage admissible for noxious grains, damaged grains and ergot, however, remaining as laid down in the Annex to Regulation (EEC) No 689/92.

2. The obligation to export from the Community and import into Algeria shall be covered by a security amounting to ECU 50 per tonne of durum wheat of which ECU 25 per tonne shall be lodged upon issue of the licence for the export of meal for the corresponding quantity of durum wheat and the balance of ECU 25 per tonne before removal of the cereals.

3. Except in duly substantiated exceptional cases, in particular the opening of an administrative enquiry, any release of the securities provided for in this Article after the time limits specified herein shall confer an entitlement to compensation from Greece amounting to ECU 0,015 per 10 tonnes of meal for each day's delay. Such compensation shall not be charged to the European Agricultural Guidance and Guarantee Fund (EAGGF).
