COUNCIL REGULATION (EC) No 517/94

of 7 March 1994

on common rules for imports of textile products from certain third countries not covered by bilateral agreements, protocols or other arrangements, or by other specific Community import rules

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas the common commercial policy must be based on uniform principles; whereas the common rules applicable to imports under Council Regulation (EEC) No 288/82 of 5 February 1982 on common rules for imports [1], Council Regulation (EEC) No 1765/82 of 30 June 1982 on common rules for imports from State-trading countries [2], Council Regulation (EEC) No 1766/82 of 30 June 1982 on common rules for imports from the People's Republic of China [3] and Council Regulation (EEC) No 3420/83 of 14 November 1983 on import arrangements for products originating in State-trading countries, not liberalized at Community level [4] form an important aspect of the policy; however, they still allow exceptions and derogations enabling Member States to continue applying national measures to imports of certain products, so that the policy needs to be completed;

Whereas under Article 7a of the Treaty, the internal market comprises since 1 January 1993 of an area without internal frontiers in which the free movement of goods, persons, services and capital is ensured;

Whereas completion of the common commercial policy as it pertains to rules for imports is therefore a necessary complement to the completion of the internal market and is the only means of ensuring that the rules applying to the Community's trade with third countries correctly reflect the integration of the markets;

Whereas in order to achieve greater uniformity in the rules for imports it is necessary to eliminate the exceptions and derogations resulting from the remaining national commercial policy measures and, in particular, the quantitative restrictions maintained by Member States under Regulation (EEC) No 288/82; whereas the economic and industrial repercussions of their elimination have been or can be taken into account in the Community's horizontal policies for the market concerned; whereas this uniformity must be achieved by laying down, as far as possible

given the particular features of the economic system in third countries, provisions similar to those applied under the common rules for other third countries;

Whereas the liberalization of imports, namely the absence of any quantitative restrictions or their suspension, must therefore form the starting points for the Community rules;

Whereas, as a result of the completion of GATT Uruguay Round negotiations on the integration of the textile and clothing sector into normal World Trade Organization rules and disciplines, it is necessary that the exceptions and derogations resulting from the remaining national commercial policy measures should be suspended until such time as the products in question have been integrated in accordance with that Agreement;

Whereas, in addition, for a limited number of products originating in some third countries owing to the sensitivity of the textile sector of the Community, quantitative restrictions and surveillance measures applicable at Community level should be incorporated in this Regulation;

Whereas provision should be made for special rules for products re-imported under the arrangements for economic outward processing;

Whereas some imports of certain textile products from certain third countries may have to be subject to Community surveillance, quantitative limits or other appropriate measures;

Whereas if Community surveillance is applied, release for free circulation of the products concerned must be made subject to presentation of an import document meeting uniform criteria; whereas that document must, on simple application by the importer, be endorsed by the authorities of the Member States within a certain period but without the importer thereby acquiring any right to import; whereas the document must therefore be valid only during such period as the import rules remain unchanged;

Whereas it is in the interests of the Community that the Member States and the Commission should make as full as possible an exchange of information resulting from Community surveillance;

Whereas experience has shown that it is necessary to adopt more precise criteria for assessing possible injury and to introduce an investigation while still allowing the Commission to introduce appropriate measures in urgent cases;

Whereas, to this end, more detailed provisions should be introduced on the opening of investigations, on the checks and inspections required, on the hearing of those concerned, the treatment of information obtained and the criteria for assessing injury;

Whereas a new system for administering quantitative restrictions should be established based on the principle of a uniform common commercial policy, in accordance with the guidelines laid down by the Court of Justice of the European Communities and with the principle of the internal market;

Whereas it is necessary to establish an appropriate system for administering Community quantitative restrictions;

Whereas the administrative procedure must ensure that all applicants have fair access to quotas;

▼B

Whereas in the interests of uniformity in rules for imports, the formalities to be carried out by importers should be simplified and must be identical regardless of the place where the goods clear customs; whereas it is, therefore, desirable to provide that any formalities should be carried out using forms corresponding to the specimen annexed to the Regulation;

Whereas surveillance or safeguard measures confined to one or more regions rather than the whole of the Community may nevertheless prove necessary; whereas, however, such measures should be authorized only exceptionally and where no alternative exists; whereas it is necessary, in addition, to ensure that such measures are temporary and cause the minimum of disruption to the operation of the internal market;

Whereas the provisions of this Regulation and those governing its implementation should not prejudice existing national and Community legislation concerning professional secrecy;

Whereas it is desirable that the management and decision-making procedures should be those traditionally provided for in the textile and clothing sector;

Whereas, therefore, it is necessary for a Committee to be set up for this purpose, to examine the terms and conditions of importation, import trends and the various aspects of the economic and commercial situation and, where appropriate, the measures to be taken;

Whereas it is necessary to provide that this Committee shall also have the competence for reviewing and checking the measures taken on the basis of the system for the administration of the quotas in order to adapt them to changes in the situation;

Whereas it is no longer necessary to maintain two separate Regulations for State-trading countries and the People's Republic of China;

Whereas provision should be made for implementing the safeguard measures necessitated by the interests of the Community with due regard for existing international obligations;

Whereas the measures covered by this Regulation fall within the competence of the European Community and they are both necessary and appropriate in order to complete the common commercial policy and to safeguard the measures already taken by the Community in the textile and clothing sector;

Whereas Regulations (EEC) No 288/82, (EEC) No 1765/82, (EEC) No 1766/82 and (EEC) No 3420/83 should consequently be repealed, as far as their application to textile products is concerned,

HAS ADOPTED THIS REGULATION:

PART I

TITLE I

General principles

Article 1

1. This Regulation applies to imports of textile products falling within Section XI of the Combined Nomenclature and of other textile products, as listed in Annex I, originating in third countries and not covered by bilateral agreements, protocols or other arrangements, or by other specific Community import rules.

2. For the purposes of paragraph 1 above, textile products falling within Section XI of the Combined Nomenclature shall be classified in categories as set out in Annex I A, with the exception of products covered by CN codes 5604 10 00, 6309 00 00 and 6310 which are listed in Annex I B.

3. For the purposes of this Regulation, the term ‘originating products’ and the methods for controlling the origin of those products shall be as defined by the relevant Community rules in force.

Article 2

1. Imports into the Community of products referred to in Article 1 and originating in third countries other than those listed in Annex II, shall be free and therefore not subject to any quantitative restriction, without prejudice to:

— the measures that may be taken under Title III;

— the measures that may be taken under specific common import rules for the duration of those rules, and

— the annual quantitative restrictions listed in Annex III A applicable on 31 December 1993 on the basis of Regulation (EEC) No 288/82 to imports of products listed in Annex I and originating in third countries other than those referred to in Annex II;

— the annual quantitative restrictions listed in Annex III B applicable to textile products originating in the countries indicated therein.

2. The quantitative restrictions listed in Annex III A are hereby suspended until such time as the products in question are integrated into normal World Trade Organization rules and disciplines in accordance with the agreement on textile and clothing products negotiated within the framework of the Uruguay Round GATT negotiations.

Article 3

1. Imports into the Community of textile products listed in Annex IV and originating in the countries indicated in that Annex shall be subject to the annual quantitative limits established in that Annex if these

▼B

products are shipped on or after the date of application of this regulation. For the purposes of this paragraph, shipment of the goods shall be considered as having taken place on the date on which they were loaded on the exporting aircraft, vehicle or vessel.

2. The release for free circulation in the Community of imports subject to the quantitative limits provided for in paragraph 1 shall be subject to the presentation of an import authorization or equivalent document issued by the Member States' authorities in accordance with the procedure set out in this Regulation. The imports authorized in accordance with this paragraph shall be charged against the quantitative limits fixed for the calendar year for which quantitative limits have been fixed.

▼M31

3. Any textile product referred to in Annex V to this Regulation and originating in the countries indicated therein may be imported into the Union provided an annual quantitative limit is established by the Commission. Any such quantitative limit shall be based on previous trade flows, or where not available, duly justified estimations of such trade flows. The Commission shall be empowered to adopt delegated acts to amend the relevant Annexes to this Regulation in accordance with Article 25a concerning the establishment of such annual quantitative limits.

▼B

4. Imports into the Community of textile products other than those covered by paragraphs 1 and 3 above and originating in the countries indicated in Annex II shall be free, subject to measures that may be taken under Title III and to measures that have been or may be taken under specific common import rules for the duration of those rules.

Article 4

1. Without prejudice to measures that may be taken under specific common import rules or under Title III, re-imports into the Community of textile products after processing in countries other than those listed in Annex II shall not be subject to quantitative limits.

2. However, re-imports into the Community of textile products listed in Annex VI after processing in the countries listed therein shall not be subject to the annual quantitative limits referred to in Annex III B provided that they are effected in accordance with the rules on economic outward processing in force in the Community and up to the annual limits fixed in Annex VI.

▼M31

Article 5

1. The Committee referred to in Article 25 may consider any matter relating to the application of this Regulation, raised by the Commission or at the request of a Member State.

2. The Commission shall be empowered to adopt delegated acts in accordance with Article 25a concerning the measures required to adapt Annexes III to VII to this Regulation where problems are detected in their effective functioning.

▼B

TITLE II

Community information and investigation procedure

Article 6

1. In respect of the textile products in Annex I, Member States shall notify the Commission, within 30 days following the end of each month, of the total quantities imported during the month by country of origin and Combined Nomenclature code and the units, including where appropriate supplementary units of the CN code. The imports shall be broken down in accordance with the statistical procedures in force.

2. In order to enable the market trends in the products covered by this Regulation to be monitored, Member States shall communicate to the Commission, before 31 March each year, statistical data for the preceding year on exports. The statistical data relating to the production and the consumption of each product shall be forwarded under arrangements to be determined subsequently ►**M18** in accordance with the procedure provided for in Article 25(2) ◄.

3. Where the nature of the products or particular circumstances so require, the Commission may, at the request of a Member State or on its own initiative, alter the time-limits for communicating the abovementioned information ►**M18** in accordance with the procedure provided for in Article 25(2) ◄.

4. In the urgent cases referred to in Article 13, the Member State or States concerned shall send the necessary import statistics and economic data to the Commission and the other Member States by telex.

Article 7

▼M31

1. Where it is apparent to the Commission that there is sufficient evidence to justify an investigation, with regard to the conditions of imports of products mentioned in Article 1, the Commission shall initiate an investigation. The Commission shall provide information to the Member States once it has determined the need to initiate such an investigation.

2. In addition to the information supplied under Article 6, the Commission shall seek all information it deems to be necessary and shall endeavour to check that information with importers, traders, agents, producers, trade associations and organisations.

▼B

The Commission shall be assisted in this task by staff of the Member State on whose territory these checks are being carried out, provided this Member State so wishes.

3. The Member States shall supply the Commission, at its request and following procedures laid down by it, with the information at their disposal on developments in the market of the product being investigated.

4. The Commission may hear the interested natural and legal persons. Such parties must be heard where they have applied in writing within the period laid down in the notice published in the *Official Journal of the European Communities,* showing that they are actually likely to be affected by the outcome of the investigations and that there are special reasons for them to be heard orally.

5. Where the information requested by the Commission is not supplied within a reasonable period, or the investigation is significantly impeded, findings may be made on the basis of the facts available.

▼B

6. Where the Commission has been asked to act by a Member State and it finds that there is insufficient evidence to justify an investigation, it shall inform the Member State of its decision following consultations.

Article 8

1. At the end of the investigation, the Commission shall submit a report on the results to the Committee referred to in Article 25.

▼M31

2. If the Commission considers that no Union surveillance or safeguard measures are necessary, it shall, acting in accordance with the examination procedure provided for in Article 25(2), decide to close the investigations, stating the main conclusions of the investigations.

▼B

3. If the Commission considers that Community surveillance or safeguard measures are necessary, it shall take the necessary decisions in accordance with Title III.

Article 9

1. Information received in pursuance of this Regulation shall be issued only for the purpose for which it was requested.

2. (a) Neither the Council, nor the Commission, nor Member States, nor the officials of any of these, shall reveal any information of a confidential nature received in pursuance of this Regulation, or any information provided on a confidential basis, without specific permission from the supplier of such information.

(b) Each request for confidentiality shall state the reasons why the information is confidential.

However, if it appears that a request for confidentiality is unjustified and if the supplier of the information wishes neither to make it public nor to authorize its disclosure in general terms or in the form of a summary, the information concerned may be disregarded.

3. Information will in any case be considered to be confidential if its disclosure is likely to have a significantly adverse effect upon the supplier or the source of such information.

4. Paragraphs 1, 2 and 3 shall not preclude reference by the Community authorities to general information and in particular to reasons on which decisions taken in pursuance of this Regulation are based. These authorities must, however, take into account the legitimate interest of the natural and legal persons concerned that their business secrets should not be divulged.

Article 10

1. The examination of the trend of imports, of the conditions in which they take place and of the serious injury or threat of serious injury to Community producers resulting from such imports, shall cover in particular the following factors:

▼B

(a) the volume of imports, in particular where there has been a significant increase, either in absolute terms or relative to production or consumption in the Community;

(b) the prices of the imports, in particular where there has been a significant price undercutting as compared with the price of a like product in the Community;

(c) the consequent impact on the Community producers of similar or directly competitive products as indicated by trends in certain economic factors such as:

— production,

— utilization of capacity,

— stocks,

— sales,

— market share,

— prices (i.e. depression of prices or prevention of price increases which would normally have occurred),

— profits,

— return on capital employed,

— cash flow,

— employment.

2. In conducting the investigation, the Commission shall take account of the particular economic system of the countries referred to in Annex II.

3. Where a threat of serious injury is alleged the Commission shall also examine whether it is clearly foreseeable that a particular situation is likely to develop into actual injury. In this regard, account may be taken of factors such as:

(a) the rate of increase of the exports to the Community;

(b) export capacity in the country of origin or export, already in existence or which will be operational in the foreseeable future, and the likelihood that the resulting exports will be to the Community.

TITLE III

Surveillance and safeguard measures

Article 11

1. Where imports of textile products originating in third countries other than those listed in Annex II threaten to cause injury to Community production of like or directly competitive products, the Commission, acting at the request of a Member State or on its own initiative, may:

▼M31

(a) decide to introduce retrospective Union surveillance of certain imports, in accordance with the advisory procedure referred to in Article 25(1a);

(b) decide, for the purposes of monitoring the trend of these imports, to make certain imports subject to prior Union surveillance, in accordance with the advisory procedure referred to in Article 25(1a).

▼B

2. Where imports of textile products liberalized at Community level and originating in third countries listed in Annex II threaten to cause injury to the Community production of like or directly competitive products, or where the economic interests of the Community so require, the Commission, acting at the request of a Member State or on its own initiative, may:

▼M31

(a) decide to introduce retrospective Union surveillance of certain imports, in accordance with the advisory procedure referred to in Article 25(1a);

(b) decide, for the purposes of monitoring the trend of these imports, to make certain imports subject to prior Union surveillance in accordance with the advisory procedure referred to in Article 25(1a).

▼B

3. The measures referred to in paragraphs 1 and 2 above shall, as a rule, be of a limited period of validity.

Article 12

1. Where imports of textile products originating in third countries other than those listed in Annex II take place in such increased quantities, absolute or relative, and/or under such conditions, so as to cause serious injury or actual threat thereof to the Community production of like or directly competitive products, the Commission may, acting at the request of a Member State or on its own initiative, alter the import rules for the product in question by providing that it may be put into free circulation only on production of an import authorization, the granting of which shall be governed by such provisions and subject to such limits as the Commission shall lay down.

2. Where imports of textile products liberalized at Community level and originating in the third countries listed in Annex II take place in such increased, absolute or relative, quantities or under such conditions, so as to threaten to cause injury to the Community production of like or directly competitive products, or where the economic interests of the Community so require, the Commission may, acting at the request of a Member State or on its own initiative, alter the import rules for the product in question by providing that it may be put into free circulation only on production of an import authorization, the granting of which shall be governed by such provisions and subject to such limits as the Commission shall lay down.

▼M31

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 25a concerning measures referred to in paragraphs 1 and 2 of this Article in order to alter the import rules for the product in question, including by amending the Annexes to this Regulation.

▼B

4. The measures referred to in this Article and Article 11 shall apply to every product which is put into free circulation after the entry into force of those measures.

However, such measures shall not prevent the release for free circulation of products already shipped to the Community provided that the destination of such products cannot be changed and that those products which, under this Article and Article 11, may be put into free circulation only on production of an import document are in fact accompanied by such a document.

In accordance with Article 16, measures referred to in this Article and Article 11 may be confined to one or more regions of the Community.

▼M31

Article 13

In cases of emergency where the absence of measures would cause irreparable damage to the Union industry, and where the Commission finds, upon its own initiative or on the request of a Member State, that the conditions set out in Article 12(1) and (2) are fulfilled, and considers that a given category of products listed in Annex I to this Regulation and not subject to any quantitative restriction should be subject to quantitative limits or prior or retrospective surveillance measures, and therefore imperative grounds of urgency so require, the procedure provided for in Article 25b shall apply to delegated acts referred to in Article 12(1) and (2) in order to alter the import rules for the product in question, including by amending the Annexes to this Regulation.

▼B

Article 14

▼M18

1. Products subject to prior Community surveillance or safeguard measures may be put into free circulation only on production of an import document.

In the case of prior Community surveillance measures, the import document shall be issued free of charge by the competent authority designated by Member States within a maximum of five working days following receipt of an application to the national competent authority by any Community importer, regardless of his place of business in the Community, for any quantity requested. Such an application shall be deemed to be received by the national competent authority no later than three working days after submission, unless it is proven otherwise. The import document shall be made out on a form corresponding to the model in Annex VII. The provisions of Article 21 shall apply *mutatis mutandis*.

In the case of safeguard measures, the import document shall be issued in accordance with the provisions of Title IV.

2. Information other than that provided for in paragraph 1 may be required when the decision to impose surveillance or safeguard measures is taken.

▼B

3. The import document shall be valid for imports throughout the territory in which the Treaty establishing the European Community is applied under the conditions laid down in that Treaty, regardless of the Member State of issue, without prejudice, however, to measures taken under Article 16.

4. Import documents may not in any event be used beyond the expiry of the period which will be laid down at the same time and by means of the same procedure as the imposition of surveillance or safeguard measures, and which will take account of the nature of the products and other special features of the transactions.

5. Where a decision taken under the appropriate procedure provided for in Article 25 so requires, the origin of products under Community surveillance or safeguard measures must be proved by a certificate of origin. This paragraph shall not prejudice other provisions concerning the production of any such certificate.

6. Where the product under prior Community surveillance is subject to regional safeguard measures in a Member State, the import authorization granted by that Member State may replace the import document.

▼B

Article 15

▼M31

In accordance with the advisory procedure referred to in Article 25(1a), the Commission may, at the request of a Member State or on its own initiative, if the situation referred to in Article 12(2) is likely to arise:

▼B

— reduce the period of validity of any import document required for the surveillance measures;

— make issue of this document subject to certain conditions and, as an exceptional measure, subject to insertion of a revocation clause, or, with the frequency and for the length of time indicated by the Commission, to the prior information and consultation procedure referred to in Articles 6 and 8.

Article 16

Where, on the basis, in particular, of the factors referred to in Articles 10, 11 and 12, it emerges that the conditions laid down for the adoption of surveillance or safeguard measures are met in one or more regions of the Community, the Commission, after having examined alternative solutions, may exceptionally authorize the application of surveillance or safeguard measures limited to the region(s) concerned if it considers that such measures applied at that level are more appropriate than measures applied throughout the Community.

These measures must be temporary and must disrupt the operation of the internal market as little as possible.

▼M31

These measures shall be adopted in accordance with the appropriate procedure applicable to measures to be adopted pursuant to Articles 10, 11 and 12.

▼B

PART II

TITLE IV

Management of Community import restrictions

Article 17

1. The competent authorities of the Member States shall notify the Commission of the amounts of the requests for import authorizations which they have received.

2. The Commission shall notify its confirmation that the requested amount(s) of quantities are available for importation in the chronological order in which the notifications of the Member States have been received ('first come, first served' basis).

3. Where there is reason to believe that anticipated requests may exceed the quantitative limits, the Commission may, ►M18 in accordance with the procedure provided for in Article 25(2) ◄, divide the quantitative limits into tranches or fix maximum amounts per allocation. ►M18 In accordance with the procedure provided for in Article 25(2) ◄, the Commission may reserve a proportion of a specific quantitative limit for requests supported by evidence of past import performance.

4. Normally the notifications referred to in the previous paragraphs of this Article shall be communicated electronically within the

▼B

integrated network setup for this purpose, unless for imperative technical reasons it is necessary to use other means of communication temporarily.

However, that authority shall only issue an import authorisation in written form after having ensured that the authorisation by electronic means has been cancelled.

▼**M18**

Any measure necessary to implement this paragraph may be adopted in accordance with the procedure provided for in Article 25(2).

5. At the request of the Member State concerned, textile products in the possession of the competent authorities of that Member State, particularly in the context of bankruptcy or similar procedures, for which a valid import authorisation is no longer available, may be released into free circulation in accordance with the procedure laid down in Article 25(2).
