COMMISSION REGULATION (EC) No 2116/95

of 5 September 1995

determining the percentage of quantities covered by applications for export licences for eggs which may be accepted

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Commission Regulation (EC) No 1371/95 of 16 June 1995 laying down detailed rules for implementing the system of export licences in the egg sector [1], and in particular Article 3 (4) thereof,

Whereas Regulation (EC) No 1371/95 provides for specific measures where applications for export licences concern quantities and/or expenditure which exceed the normal trade patterns or where there is a risk that they will be exceeded, taking account of the limit referred to in Article 8 (12) of Council Regulation (EEC) No 2771/75 [2], as last amended by the Act of Accession of Austria, Finland and Sweden, and by Regulation (EC) No 3290/94 [3], and/or the corresponding expenditure during the period in question;

Whereas the market for certain egg products is affected by uncertainties; whereas the refunds currently applicable for these products could lead to applications being made for export licences for speculative purposes; whereas there is a risk that the issue of certificates for the quantities applied for from 28 August to 1 September 1995 may lead to the quantities corresponding to the normal trade patterns for the products concerned being exceeded; whereas applications for which export licences have not yet been granted should be rejected for the products concerned and acceptance coefficients applying to the quantities requested should be fixed,

HAS ADOPTED THIS REGULATION:
