COUNCIL REGULATION (EC) No 749/95

of 31 March 1995

amending Regulation (EC) No 3363/94 allocating, for 1995, Community catch quotas in Greenland waters

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 3760/92 of 20 December 1992 establishing a Community system for fisheries and aquaculture [1], and in particular Article 8 (4) thereof,

Having regard to the proposal from the Commission,

Whereas Council Regulation (EC) No 3363/94 [2], lays down, for 1995, Community catch quotas in Greenland waters, including the quantities allocated to third countries;

Whereas the quantities allocated to Norway were provisional quotas, pending the conclusion of the bilateral fisheries arrangement between the Community and Norway for 1995;

Whereas the Community and Norway have now concluded their bilateral arrangement for 1995, including definitive fishing possibilities for Norway in Greenland waters; whereas these quotas require the Community to purchase supplementary catch possibilities from Greenland, under the terms of the bilateral Fisheries Agreement between the Community and Greenland,

HAS ADOPTED THIS REGULATION:

Article 1

The Annex of Regulation (EC) No 3363/94 shall be replaced by the Annex to this Regulation.

Article 2

This Regulation shall enter into force on 1 April 1995.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 31 March 1995.

For the Council

The President

F. BAYROU

ANNEX

Allocation of Community catch quotas in Greenland waters for 1995

Species	Geographical area	Community catch quotas (in tonnes)	Quotas allocated to Member States		Quantities allocated to Norway (7)	Quantities allocated to Iceland (7)	Faroese quotas under EC/ Greenland Protocol (7)
Cod	All zones	31 000	Germany United Kingdom	25 360 5 640			
Redfish (1)	NAFO 1	5 500	Germany United Kingdom	5 395 105			
	ICES XIV/V	46 820	Germany France United Kingdom	46 270 330 220			500
Greenland halibut	NAFO 1	1 750	Germany	550	1 200 (8)		150
	ICES XIV/V	4 650	Germany United Kingdom	4 040 210	400		150
Deepwater prawns	ICES XIV/V (5)	4 525	France Denmark	1 012 1 012	2 500		1 150
Atlantic halibut (2)	NAFO 1	200			200		
	ICES XIV/V	200			200		
Catfish	NAFO 1	1 000	Germany	1 000			
	ICES XIV/V	1 000	Germany	1 000			
Blue whiting	ICES XIV/V	30 000	Denmark France Germany	3 000 3 000 24 000			
Capelin	ICES XIV/V	63 150 (6)	Community	8 150	25 000	30 000	10 000
Roundnose grenadier	NAFO 1	1 750	Germany	550	1 200		
	ICES XIV/V	4 650	Germany United Kingdom	4 400 250			
Roundnose grenadier (3)	All zones	2 000	Community	2 000			
Polar cod (4)	All zones	2 000	Community	2 000			

(1) A maximum of 20 000 tonnes may be fished by pelagic trawl. Catches from the bottom trawl fishery and the pelagic trawl fishery shall be reported separately.

(2) If by-catches of Atlantic halibut in trawl cod and redfish fisheries imply over-runs of this quota, the Greenland authorities will provide solutions to the effect that Community cod and redfish fisheries can nevertheless continue until the respective quotas have been exhausted.

(3) Experimental fishery, to be conducted at depths greater than 1 500 metres. The maximum by-catch of Greenland halibut will be 40 % and will be counted against this quota.

(4) To be fished only by pelagic trawl or longline. A by-catch of up to 10 %, excluding deepwater prawns and Greenland halibut, will be admitted. The by-catch will be counted against this quota.

(5) Up to 1 000 tonnes can be caught in NAFO areas 0/1 under agreement with Greenland licence holders.

(6) 70 % of the Greenland share of the TAC for capelin minus 10 000 tonnes to the Faroe Islands. Calculated on the basis of a provisional TAC of 950 000 tonnes. Upon revision of this TAC in the course of 1995, the Community quota shall be revised accordingly.

(7) Shown for information only.

(8) Trawl fishing is not allowed north of 64° 30′ N.
