COUNCIL REGULATION (EC) No 1255/96

of 27 June 1996

temporarily suspending the autonomous Common Customs Tariff duties on certain industrial and agricultural products

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 28 thereof,

Having regard to the proposal from the Commission,

Whereas production in the Community of the products specified in this Regulation is currently inadequate or non-existent; whereas producers thus cannot meet the needs of user industries in the Community;

Whereas it is in the interest of the Community to suspend partially or totally the autonomous Common Customs Tariff duties for these products;

Whereas the decision to suspend such autonomous duties should be taken by the Community;

Whereas the Regulations temporarily suspending the autonomous Common Customs Tariff duties on certain industrial and agricultural products have largely renewed previous measures; whereas, therefore, in the interests of rationalizing implementation of the measures concerned, it would seem appropriate not to limit the period of validity of this Regulation as its scope can be adapted and products added to or removed from the list through a Council Regulation, if necessary;

Whereas the amendments to the combined nomenclature and the Taric codes do not give rise to any substantive amendment; whereas, for reasons of simplification, provision should be made to empower the Commission, following receipt of the opinion of the Customs Code Committee, to make the necessary amendments and technical adaptations of the Annex to this Regulation, including the publication of a consolidated version,

HAS ADOPTED THIS REGULATION:

Article 1

The autonomous Common Customs Tariff duties for the products listed in the Annex hereto shall be suspended at the level indicated against each of them.

Article 2

The technical adaptations, including publication of a consolidated version, arising from amendments of the combined nomenclature and Taric codes shall be adopted by the Commission in accordance with the procedure laid down in Article 3.

Article 3

1. The Commission shall be assisted by the Customs Code Committee set up by Article 247 of Regulation (EEC) No 2913/92 [1].

2. The representative of the Commission shall submit to the Committee a draft of the measures to be taken. The Committee shall deliver its opinion on the draft within a time limit which the chairman may lay down according to the urgency of the matter. The opinion shall be delivered by the majority laid down in Article 148 (2) of the Treaty in the case of decisions which the Council is required to adopt on a proposal from the Commission. The votes of the representatives of the

(1) OJ No L 302, 19. 10. 1992, p. 1. Regulation as amended by the 1994 Act of Accession.

▼B

Member States within the Committee shall be weighted in the manner set out in that Article. The chairman shall not vote.

3. The Commission shall adopt measures which apply immediately.

However, if these measures are not in accordance with the opinion of the Committee, they shall be communicated by the Commission to the Council forthwith. In that event, the Commission shall defer application of the measures which it has decided for three months from the date of such communication.

The Council, acting by a qualified majority, may take a different decision within the period referred to in the previous indent.

Article 4

This Regulation shall enter into force on the day following its publication in the *Official Journal of the European Communities*.

It shall apply from 1 July 1996.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

CN code	TARIC	Description	Rate of autonomous duty (%)
ex 9001 90 90	20	Rear projection screen, comprising a Fresnel lens of plastic and a polarising sheet of plastic, for use in the manufacture of products falling within heading No 8528 (a)	0
ex 9001 90 90	30	Lens of plastic, unmounted, having a focal length of 3,86 mm (± 0,1 mm) and with a diameter not exceeding 8 mm, for use in the manufacture of compact disc players (a)	0
ex 9001 90 90	40	Optical fibre plate, for use in the manufacture of screens and photocathodes for image intensifiers (a)	0
ex 9001 90 90	50	Rear projection screen, comprising a lenticular plastic plate	0
ex 9001 90 90	60	Prism for the splitting of light, unmounted, for use in the manufacture of charged-coupled image (CCD) cameras (a)	0
ex 9001 90 90	70	Rod of neodymium-doped yttrium-aluminium garnet (YAG) material, polished at both ends	0
ex 9001 90 90	80	Lens of plastic, unmounted, for use in the manufacture of products falling within subheading 9006 40 00 (a)	0
ex 9002 11 00	10	Adjustable lens unit, having a focal length of 90 mm or more but not exceeding 180 mm and comprising a combination of between 4 and 8 glass or methacrylic lenses with a diameter of 120 mm or more but not exceeding 180 mm, each lens coated on at least one side with a magnesium fluoride layer, for use in the manufacture of video projectors (a)	0
ex 9002 11 00	50	Lens unit, having a focal length of 75 mm or more but not exceeding 94 mm, consisting of glass or plastic lenses, with a diameter of 60 mm or more but not exceeding 180 mm	0
ex 9002 11 00	60	Optical element, comprising one or more mounted lenses of plastic, for use in the manufacture of products falling within subheading 9006 40 00 (a)	0
ex 9002 19 00	10	Lens unit, having a focal length of 24,96 mm (± 0,1 mm), a diameter of 16 mm and a length of 16 mm, for use in the manufacture of products falling within subheading 8517 21 00 (a)	0
ex 9002 20 00	10	Filter, consisting of a plastic polarising membrane, a glass plate and a transparent protective film, mounted on a metal frame, for use in the manufacture of products falling within heading 8528 (a)	0
ex 9002 90 90	10	Optical element comprising an octagonal Fresnel lens, for use in the manufacture of overhead projectors (a)	0
ex 9002 90 90	20	Lens, mounted, having a fixed focal length of 3,8 mm (± 0,19 mm) or 8 mm (± 0,4 mm), with a relative aperture of F2.0 and a diameter not exceeding 33 mm, for use in the manufacture of charged-coupled (CCD) cameras (a)	0
ex 9002 90 90	30	Optical unit, comprising 1 or 2 rows of optical glass fibres in the form of lenses and with a diameter of 0,85 mm or more but not exceeding 1,15 mm, embedded between 2 plastic plates	0
ex 9002 90 90	50	Lens and image gate assembly, for a real-time film scanning system, comprising a lens consisting of 9 or 11 elements and having an illumination function	0
ex 9006 91 90	10	Parts, for use in the manufacture of products falling within subheading 9006 40 00 (a)	0
ex 9013 80 20	10	Monochrome liquid crystal display (LCD) with an active matrix, having a diagonal measurement of the screen not exceeding 3,4 cm, consisting of a layer of liquid crystals between two glass sheets or plates	0
ex 9013 80 30	10	Liquid crystal colour device, other than with an active matrix, having crystals encapsulated in polymer droplets, consisting of 4 plastic layers one of which having the function of an interactive switch panel	0
