of 7 March 1996

amending Regulation (EC) No 1623/95 establishing a forecast supply balance for supply to the Canary Islands of milk and milk products

Whereas Commission Regulation (EC) No 2790/94 [3], as amended by Regulation (EC) No 2883/94 [4], lays down the detailed rules for the implementation of the special arrangements for the supply of certain agricultural products to the Canary Islands;

Whereas Commission Regulation (EC) No 1623/95 [5] establishes the forecast balance for the supply of milk products to the Canary Islands for the period from 1 July 1995 to 30 June 1996; whereas that balance may be revised if necessary by providing for an increase in the overall quantity fixed during the course of the year in accordance with the needs of the region; whereas, to satisfy the Canary Islands' requirements of milk products, and in particular liquid milk, it is necessary to increase the quantity laid down for milk and cream, not concentrated nor containing added sugar or other sweetening matter; whereas, therefore, the Annex to Regulation (EC) No 1623/95 should be amended;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Milk and Milk Products,
