COUNCIL REGULATION (EC) No 1595/97

of 24 July 1997

amending Regulation (EC) No 3066/95 establishing certain concessions in the form of Community tariff quotas for certain agricultural products and providing for the adjustment, as an autonomous and transitional measure, of certain agricultural concessions provided for in the Europe Agreements to take account of the Agreement on agriculture concluded during the Uruguay Round Multilateral Trade Negotiations, and repealing Regulation (EEC) No 1988/93

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas the measures provided for by Regulation (EC) No 3066/95 [1] providing for the adjustment, as an autonomous and transitional measure, of certain agricultural concessions provided for in the Europe Agreements to take account of the Agreement on agriculture concluded during the Uruguay Round Multilateral Trade Negotiations were extended until 31 December 1996 by Regulation (EC) No 1194/96 [2] and until 31 December 1997 by Regulation (EC) No 2490/96 [3];

Whereas, in accordance with the directives adopted by the Council on 6 March 1995, the Commission and the associated countries concerned concluded negotiations on Additional Protocols to the Europe Agreements;

Whereas, because of the shortage of time, the Additional Protocols to the Europe Agreements cannot enter into force on 1 July 1997; whereas, consequently, the adjustments to certain concessions provided for in the Protocols concerned in the agricultural sector for the period beginning on 1 July 1997 cannot be implemented under the arrangements for the entry into force of those Protocols;

Whereas, however, the implementation of the adjustments is an essential part of the results of the negotiations for the conclusion of Additional Protocols to the Europe Agreements; whereas, moreover, steps must be taken to ensure a smooth transition from the autonomous and transitional preferential agricultural arrangements provided for under Regulation (EC) No 3066/95, applicable until 31 December 1997, to the new preferential agricultural arrangements set out in the Additional Protocols to the Europe Agreements;

Whereas the measures provided for in Regulation (EC) No 3066/95 should therefore be amended in order to allow the early implementation, from 1 July 1997, of the results of the negotiations on the conclusion of Additional Protocols to the Europe Agreements as regards the agricultural sector;

Whereas, in order to permit, for the sake of simplification, the implementation of the concessions referred to in this Regulation on a multiannual basis, the limitation of its application to 31 December 1997 should be deleted; whereas, moreover, certain provisions should be laid down, including the repeal of Regulation (EEC) No 1988/93 [4], to ensure a smooth transition from the autonomous arrangements provided for in this Regulation to the agreed arrangements provided for in the Additional Protocols,

HAS ADOPTED THIS REGULATION:

(1) Notwithstanding the rules for the interpretation of the combined nomenclature, the wording for the description of the products is to be considered as having no more than indicative value, the preferential scheme being determined, within the context of this Annex, by the coverage of the CN codes. Where ex CN codes are indicated, the preferential scheme is to be determined by application to the CN code and corresponding description taken together.

(2) In cases where an MFN minimum duty exists, the applicable minimum duty is equal to the MFN minimum duty multiplied by the percentage indicated in this column.

(3) The quota for this product is opened for Poland, Hungary, the Czech Republic, Slovakia, Bulgaria, Romania, Estonia, Latvia and Lithuania. Where it appears likely that total Community imports of live bovine animals, wherever they originate, will exceed 500 000 heads in a given marketing year the Community may adopt the management measures needed to protect the Community market, without prejudice to any other rights conferred upon it by the agreement.

(4) The quota for this product is opened for the Czech Republic, Slovakia, Bulgaria, Romania, Hungary, Poland, Estonia, Latvia and Lithuania.

(5) The Community may take into account, in the framework of its legislation and when appropriate, the supply needs of its market and the need to maintain its market balance.

(6) Excluding tenderloin presented alone.

(7) Subject to minimum import price arrangements contained in the Annex to this Annex.

(8) The reduction applies to the *ad valorem* part of the duty.

(9) The European Union commits itself to opening this tariff quota with the corresponding preferential in-quota duty rate if the applied MFN duty rate exceeds the preferential in-quota rate stated here.

(1) Notwithstanding the rules for the interpretation of the combined nomenclature, the wording of the description of products should be regarded as indicative; the applicability of the preferential arrangements is determined, in the context of this annex, by the coverage of the CN codes. Where ex CN codes are mentioned, the applicability of preferential arrangements is determined on the basis of the CN code and the corresponding description considered together.

(2) In cases where an MFN minimum duty exists, the applicable minimum duty is equal to the MFN minimum duty multiplied by the percentage indicated in this column.

(3) The quota for this product is opened for Poland, Hungary, the Czech Republic, Slovakia, Bulgaria, Romania, Estonia, Latvia and Lithuania. Where it appears likely that total Community imports of live bovine animals, wherever they originate, will exceed 500 000 heads in a given marketing year, the Community may adopt the management measures needed to protect the Community market, without prejudice to any other rights conferred upon it by the agreement.

(4) The quota for this product is opened for Poland, Hungary, the Czech Republic, Slovakia, Romania, Estonia, Latvia and Lithuania.

(5) The Community may take into account, in the framework of its legislation and when appropriate, the supply needs of the Community market and the need to maintain its market balance.

(7) As liquid egg-yolk equivalent: 1 kg dried egg yolks = 2,12 kg liquid eggs.

(8) As liquid equivalent: 1 kg dried eggs = 3,19 kg liquid eggs.

(9) The reduction applies only to the *ad valorem* part of the duty.

(10) Subject to minimum import price arrangements contained in the Annex to this Annex.
