of 28 October 1997

repealing Regulation (EC) No 414/97 adopting exceptional support measures for the market in pigmeat in Germany

Whereas, because of the outbreak of classical swine fever in certain production regions in Germany animal health measures were adopted by the German authorities pursuant to Article 9 of Council Directive 80/217/EEC of 22 January 1980 introducing Community measures for the control of classical swine fever [3], as last amended by Decision 93/384/EEC [4]; whereas exceptional support measures for the market in pigmeat were adopted for this Member State by Commission Regulation (EC) No 414/97 [5], as last amended by Regulation (EC) No 1500/97 [6];

Whereas, in view of the progress achieved on the animal health side, the exceptional market support measures can now be closed down; whereas, therefore, Regulation (EC) No 414/97 needs to be repealed;
