COUNCIL REGULATION (EC) No 702/97

of 14 April 1997

opening and providing for the administration of autonomous Community tariff quotas for certain fishery products

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 28 thereof,

Having regard to the proposal from the Commission,

Whereas Community supplies of certain species of fish or fish fillets currently depend on imports from third countries; whereas it is in the Community's interest to suspend in part or in whole the customs duties for the products in question, within Community tariff quotas of an appropriate volume; whereas, in order not to jeopardize the development prospects of this production in the Community and to ensure an adequate supply to satisfy user industries, it is advisable to open those quotas, applying customs duties varied accordingly to sensitivity of the different products on the Community market;

Whereas it is necessary, in particular, to ensure for all Community importers equal and uninterrupted access to the said quotas and to ensure the uninterrupted application of the rates laid down for the quotas to all imports of the products concerned into all Member States until the quotas have been used up;

Whereas the decision for the opening of autonomous tariff quotas should be taken by the Community; whereas, to ensure the efficiency of a common administration of these quotas, there is no reasonable obstacle to authorizing the Member States to draw from the quota-volumes the necessary quantities corresponding to actual imports; whereas, however, this method of administration requires close cooperation between the Member States and the Commission and the latter must in particular be able to monitor the rate at which the quotas are used up and inform the Member States accordingly,

HAS ADOPTED THIS REGULATION:

Article 1

1. The import duties on the goods listed in the Annex shall be suspended at the indicated duty rate for the periods and up to the amounts indicated therein.

2. Imports of the products in question shall not be covered by the quotas referred to in paragraph 1 unless the free-at-frontier price, which is determined by the Member States in accordance with Article 22 of Council Regulation (EEC) No 3759/92 of 17 December 1992 on the common organization of the market in fishery and aquaculture products [1], is at least equal to the reference price fixed, or to be fixed, by the Community for the products or categories of products concerned.

Article 2

The tariff quotas referred to in Article 1 shall be managed by the Commission, which may take all appropriate administrative measures in order to ensure effective administration thereof.

Article 3

If an importer presents in a Member State an entry for release for free circulation, including a request for preferential benefit for a product covered by this Regulation and if this entry for release is accepted by the customs authorities, the Member States concerned shall inform the Commission and draw an amount corresponding to its requirements from the corresponding quota amount.

The drawing request, with indication of the date of acceptance of the said entries, must be transmitted to the Commission without delay.

The drawings are granted by the Commission by reference to the date of acceptance of the entries for release for free circulation by the customs authorities of the Member States concerned to the extent that the available balance so permits.

If a Member State does not use the quantities drawn, it shall return them as soon as possible to the corresponding quota amount.

If the quantities requested are greater than the available balance of the quota amount, allocation shall be made on a *pro rata* basis with respect to the requests. Member States shall be informed by the Commission of the drawings made.

Article 4

Each Member State shall ensure that importers of the products concerned have equal and uninterrupted access to the quotas for such time as the residual balance of the quota volumes so permits.

Article 5

Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 6

This Regulation shall enter into force on the seventh day following that of its publication in the *Official Journal of the European Communities.*

It shall apply from 1 March 1997.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

(a) Control of the use for this special purpose shall be carried out pursuant to the relevant Community provisions.

(b) This quota is available for products intended to undergo any operation, unless it is solely for one or more of the following operations:

— cleaning, gutting tailing, heading,
— cutting (excluding filleting, production of flaps or cutting of frozen blocks),
— sampling, sorting,
— labelling,
— packing,
— chilling,
— freezing,
— deep freezing,
— thawing, separation.

The quota is not available for products intended, in addition, to undergo treatment (or operations) which gives quota entitlement, where such treatment (or operations) is (are) carried out at retail or catering level. The reduction of customs duties shall apply only to fish intended for human consumption.

(c) The quota is available for products destined exclusively for salting and drying.
