COMMISSION REGULATION (EC) No 1547/1999

of 12 July 1999

determining the control procedures under Council Regulation (EEC) No 259/93 to apply to shipments of certain types of waste to certain countries to which OECD Decision C(92)39 final does not apply

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 259/93 of 1 February 1993 on supervision and control of application shipments of waste within, into and out of the European Community ([1]), as last amended by Commission Regulation (EC) No 2408/98 ([2]), and in particular Article 17(3) thereof,

After consultation of the countries of destination concerned,

(1) Whereas Article 1(3)(a) of Council Regulation (EEC) No 259/93 excludes from its scope of application shipments of waste destined for recovery only and listed in Annex II to the same Regulation, as that Annex has been amended by Commission Decision 98/368/EC ([3]), except as provided for by, *inter alia*, Articles 17(1), (2) and (3);

(2) Whereas in accordance with Article 17(1) of Regulation (EEC) No 259/93 the Commission has notified to every country to which OECD Council Decision C(92) 39 Final of 30 March 1992 concerning the control of transfrontier movements of waste destined for recovery operations does not apply the list of waste included in Annex II to the said Regulation; whereas the Commission has requested confirmed that such waste is not subject to control in the country of destination, or has asked that such countries indicate whether the waste should be subject to the control procedures which apply to Annex III or IV to the said Regulation, or to the procedure laid down in Article 15 thereof;

(3) Whereas certain countries indicated that such waste should be subject to one of these control procedures; whereas the Commission, acting pursuant to the provisions of Article 17(3) of Regulation (EEC) No 259/93, adopted Decision 94/575/EC of 20 July 1994 determining the control procedure under Council Regulation (EEC) No 259/93 as regards certain shipments of waste to certain non-OECD countries ([4]);

(4) Whereas some OECD countries still do not apply OECD Decision C(92) 39 Final, but may do so in the future;

(5) Whereas certain further third countries have also indicated that one of the control procedures provided for in Regulation (EEC) No 259/93 should be applied;

(6) Whereas the Commission has notified the requests of these third countries to the Committee established pursuant to Article 18 of Council Directive 75/442/EEC of 15 July 1975 on waste ([5]), as last amended by Commission Decision 96/350/EC ([6]);

(7) Whereas in accordance with Article 17(3) of Regulation (EEC) No 259/93 where such waste is subject to control in the country of destination, or upon request of such a country, exports of such waste to that country are to be subjected to control;

(8) Whereas it is appropriate to update and bring together all of these export arrangements in respect of the above countries in a single text, and, in the interests of clarity and legal certainty, to list those categories of waste which are not subject to control procedures; whereas Decision 94/575/EC should therefore be repealed;

(9) Whereas with regard to shipments to ACP States, Article 39 of the Fourth ACP-EC Convention, signed at Lomé on 15 December 1989 [1], prohibits export to those countries of Hazardous wastes listed in Annexes I and II to the Basel Convention on the Control of transboundary Movements of Hazardous Wastes and their Disposal, which was concluded on behalf of the Community by Council Decision 93/98/EEC [2]; whereas, furthermore, certain items of such waste may be found in Annex II to Regulation (EEC) No 259/93; whereas, in those circumstances and in order to comply with the Community's international obligations, it must be made clear that such shipments of such items to ACP countries are prohibited,

HAS ADOPTED THIS REGULATION:

Article 1

1. The control procedure applicable to wastes listed in Annex III to Regulation (EEC) No 259/93 shall apply to exports to the countries listed in Annex A to this Regulation in respect of those categories of waste listed in Annex II to Regulation (EEC) No 259/93 which are also set out in Annex A.

2. The control procedure applicable to wastes listed in Annex IV to Regulation (EEC) No 259/93 shall apply to exports to the countries listed in Annex B to this Regulation in respect of those categories of waste listed in Annex II to Regulation (EEC) No 259/93 which are also set out in Annex B.

3. The control procedure laid down in Article 15 to Regulation (EEC) No 259/93 shall apply to exports to the countries listed in Annex C to this Regulation in respect of those categories of waste listed in Annex II to Regulation (EEC) No 259/93 which are also set out in Annex C.

4. Without prejudice to points (b) to (e) of Article 1(3) of Regulation (EEC) No 259/93, or to Article 11 thereof, no control procedure shall apply to exports to the countries listed in Annex D to this Regulation in respect of those categories of waste listed in Annex II to Regulation (EEC) No 259/93 which are also set out in Annex D.

5. Once an OECD country which is listed in Annex A, B and/or C and to which OECD Decision C(92) 39 Final does not apply at the time of entry into force of this Regulation, implements that OECD Decision, this Regulation shall no longer apply to that country.

Article 2

The provisions of Article 1 shall be without prejudice to the prohibitions set out in the Fourth ACP-EC Convention as regards shipments of waste to ACP countries.

Article 3

Decision 94/575/EC is hereby repealed.

Article 4

This Regulation shall enter into force on the thirtieth day following that of its publication in the *Official Journal of the European Communities*.

ANNEX A

Countries to which shipments of certain categories of waste listed in Annex II (the 'green' list) of Regulation (EEC) No 259/93, should be carried out under the control procedure applying to waste listed in Annex III (the 'amber' list) to the same Regulation are set out below. The categories of waste listed in Annex II which are covered are also given.

1. All types in section GB ('Metal bearing wastes arising from melting, smelting and refining of metals').
2. All types in section GC ('Other wastes containing metals').
3. All types in section GD ('Wastes from mining operations: these wastes to be in non-dispersible form').
4. All types in section GF ('Ceramic wastes in non-dispersible form').
5. All types in section GG ('Other wastes containing principally inorganic constituents, which may contain metals and organic material').
6. In section GH ('Solid plastic wastes')

   Waste, parings and scrap of plastics of:

GH 012	ex 3915 20	— Polymers of styrene
GH 013	ex 3915 30	— Polymers of vinyl chloride
GH 014	ex 3915 90	— Acrylonitrile copolymer — Butadiene copolymer — Styrene copolymer — Polyamides — Polybutylene terephthalates — Polycarbonates — Polyphenylene sulphides — Acrylic polymers — Paraffins (C10-C13) (*) — Polyurethane (not containing chloro-fluorocarbons) — Polysiloxalanes (silicones) — Polymethyl methacrylate — Polyvinyl alcohol — Polyvinyl butyral — Polyvinyl acetate — Polymers of fluorinated ethylene (Teflon, PTFE)
GH 015	ex 3915 90	— Resins or condensation products, for example: — urea formaldehyde resins — phenol formaldehyde resins — melamine formaldehyde resins — epoxy resins — alkyd resins — polyamides.

(*) These cannot be polymerised and are used as plasticisers.

1. In section GA (Metal and metal-alloy wastes in mettallic, non-dispersible form):

GA 150	7802 00	Waste and scrap of lead
GA 240	ex 8107 10	Waste and scrap of cadmium.

2. In section GG (Other, wastes containing principally inorganic constituents, which may contain metals and organic material).

GG 010		Partially refined calcium sulphate produced from flue gas desulphurisation
GG 020		Waste gypsum wallboard or plasterboard arising from the demolition of buildings
GG 030	ex 2621	Bottom ash and slag tap from coal-fired power plants
GG 040	ex 2621	Fly ash from coal-fired power plants
GG 100		Limestone from the production of calcium cyanamide (having a pH less than 9)
GG 110	ex 2621 00	Neutralised red mud from alumina production
GG 140		Broken concrete.

3. All types included in section GH (Solid plastic waste).

4. All types included in section GJ (Textile wastes).

5. All types included in section GK (Rubber waste).

6. All types included in section GM (Waste arising from agro-food industries).

7. All types included in section GN (Wastes arising from tanning and fellmongery operations and leather use).

8. In section GO (Other wastes containing principally organic constituents, which may contain metals and inorganic materials):

GO 010	ex 0501 00	Waste of human hair
GO 020		Waste straw
GO 030		Deactivated fungus mycelium from penicillin production to be used as animal feed
GO 050		Single-use cameras without batteries.

SINGAPORE

1. In section GA (‘Metal and metal-alloy wastes in metallic, non-dispersible ([1]) form’)

(a) The following waste and scrap of precious metals and their alloys:

GA 010	ex 7112 10	— Of gold
GA 020	ex 7112 20	— Of platinum (the expression ‘platinum’ includes platinum, iridium, osmium, palladium, rhodium and ruthenium)
GA 030	ex 7112 90	— Other precious metals, e.g. silver

NB. Mercury is specifically excluded as a contaminant of these metals or their alloys or amalgams.

(b) The following waste and scrap of non-ferrous metals and their alloys:

GA 120	7404 00	Copper waste and scrap
GA 130	7503 00	Nickel waste and scrap
GA 140	7602 00	Aluminium waste and scrap
GA 170	8002 00	Tin waste and scrap
GA 190	ex 8102 91	Molybdenum waste and scrap
GA 250	ex 8108 10	Titanium waste and scrap
GA 260	ex 8109 10	Zirconium waste and scrap
GA 280	ex 8111 00	Manganese waste and scrap
GA 300	ex 8112 20	Chromium waste and scrap
GA 320	ex 8112 40	Vanadium waste and scrap
	ex 8112 91	Wastes and scrap of:
GA 350		Niobium

2. In section GC (‘Other wastes containing metals’)

▼M7

GC 020	Electronic scrap (e.g. printed circuit boards, electronic components, wire, etc.) and reclaimed electronic components suitable for base and precious metal recovery

([1]) ‘Non-dispersible’ does not include any wastes in the form of powder, sludge, dust or solid items containing encased hazardous waste liquids.

▼B

GC 070	ex 2619 00	Slags arising from the manufacture of iron and carbon steel (including low alloy steel) excluding those slags which have been specifically produced to meet both national and relevant international requirements and standards (*).

(*) This entry covers the use of such slags as a source of titanium dioxide and vanadium.

3. In section GD (‘Wastes from mining operations: these wastes to be in non-dispersible form’)

GD 020	ex 2514 00	Slate waste, whether or not roughly trimmed or merely cut, by sawing or otherwise.

THAILAND:

1. In section GA (‘Metal and metal-alloy wastes in metallic, non-dispersible ([1]) form’)
