COMMISSION REGULATION (EC) No 2080/1999

of 30 September 1999

fixing the intervention thresholds for oranges, satsumas, mandarins and clementines for the 1999/2000 marketing year

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 2200/96 of 28 October 1996 on the common organisation of the market in fruit and vegetables [1], as last amended by Regulation (EC) No 1257/1999 [2], and in particular Article 27(1) and (2) thereof,

(1) Whereas Article 27(1) of Regulation (EC) No 2200/96 provides for an intervention threshold to be fixed if the market in a product listed in Annex II thereto is suffering or at risk of suffering from imbalances giving or liable to give rise to too large a volume of withdrawals; whereas such a development might cause budget problems for the Community;

(2) Whereas the conditions laid down in Article 27 are met for certain products and intervention thresholds for oranges, satsumas, mandarins and clementines should therefore be fixed;

(3) Whereas this intervention threshold for each of those products should be fixed on the basis of a percentage of the average production intended for consumption in the fresh state over the last five marketing years for which data are available; whereas the period to be taken into account for assessing the overrun of the intervention threshold must also be established for each product in question;

(4) Whereas, under Article 27, an overrun of the intervention threshold gives rise to a reduction in the Community withdrawal compensation in the marketing year following the overrun; whereas the implications of this overrun for each of the products in question should be determined and a reduction proportional to the size of the overrun should be fixed, up to a certain percentage;

(5) Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fruit and Vegetables,

HAS ADOPTED THIS REGULATION:

Article 1

The following intervention thresholds are fixed for the 1999/2000 marketing year:

— oranges	414 200	tonnes
— satsumas	22 100	tonnes
— mandarins	37 900	tonnes
— clementines	132 800	tonnes.

Article 2

The overrun of the intervention threshold for the products listed in Article 1 shall be assessed on the basis of the withdrawals carried out between 1 August 1999 and 31 July 2000.

Article 3

If the quantity of one of the products listed in Article 1 withdrawn in the period laid down in Article 2 exceeds the threshold fixed in Article 1, the Community withdrawal compensation fixed in Annex V to Regulation (EC) No 2200/96 for the 2000/01 marketing year shall be reduced in proportion to the size of the overrun compared with the production used to calculate the threshold in question.

The Community withdrawal compensation shall not, however, be reduced by more than 30 %.

Article 4

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 30 September 1999.

For the Commission

Franz FISCHLER

Member of the Commission
