COMMISSION REGULATION (EC) No 2278/1999

of 21 October 1999

laying down certain detailed rules for the application of Council Regulation (EEC) No 3528/86 on the protection of the Community's forests against atmospheric pollution

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 3528/86 of 17 November 1986 on the protection of the Community's forests against atmospheric pollution ([1]), as last amended by Regulation (EC) No 307/97 ([2]), and in particular Articles 2 and 4 thereof,

Whereas:

(1) Regulation (EEC) No 3528/86 provides for a financial contribution from the Community to measures under the Community scheme for the protection of forests against atmospheric pollution.

(2) Article 12 of that Regulation stipulates that the Community's contribution is to cover the periodic inventory of damage caused to forests, in particular by atmospheric pollution, the network of observation points for intensive and continuous monitoring of the forest ecosystems, experiments, and pilot and demonstration projects to improve the protection of forests against atmospheric pollution.

(3) In the interests of effectiveness and in order to simplify and rationalise procedures at national and Community level, the various measures for which Community financial assistance is requested should be brought together in an annual national programme for each Member State.

(4) Detailed rules should be adopted on how aid applications under the national programmes should be presented and the information they must contain in order to expedite examination thereof.

(5) A system of advance payments of Community assistance should be introduced to assist Member States in the proper financial management of their national programmes.

(6) The applications submitted to the Commission by the competent authority for the payment of advances and balances under the national programme must contain certain information to help establish the regularity of expenditure.

(7) The Commission must be informed that the measures are being implemented in accordance with the conditions and within the time limit laid down in the decision granting aid.

(8) The Member States must adopt the provisions necessary to ensure that effective checks are carried out on the implementation of measures under the national programmes.

(9) Article 14 of Regulation (EEC) No 3528/86 and Council Regulation (EC, Euratom) No 2988/95 of 18 December 1995 on the protection of the European Communities' financial interests ([3]) require the Member States to ascertain the effective and regular nature of the operations financed by the Community and to recover sums lost as a result of irregularities or negligence. Such sums represent unjustified expenditure from the Community budget and must therefore be reimbursed to the Community.

(10) If the checks provided for in Article 14 of Regulation (EEC) No 3528/86 carried out by the Commission reveal an irregularity, the

([1]) OJ L 326, 21.11.1986, p. 2.
([2]) OJ L 51, 21.2.1997, p. 9.
([3]) OJ L 312, 23.12.1995, p. 1.

▼B

Member State must be able to express its opinion on the situation noted. Where the irregularity is confirmed and the sums concerned represent unjustified expenditure from the Community budget, they should be reimbursed to the Community.

(11) Commission Regulation (EEC) No 526/87 ([1]), Article 2 of Commission Regulation (EEC) No 1696/87 ([2]) as last amended by Regulation (EC) No 1398/95 ([3]) and Article 2 of Commission Regulation (EC) No 1091/94 ([4]), as last amended by Regulation (EC) No 1545/1999 ([5]) should be repealed.

(12) The Commission Regulation (EEC) No 1697/87 ([6]) of 10 June 1987 should also be repealed. That Regulation remains applicable to the payment of Community financial contributions under Regulation (EEC) No 3528/86 decided before 1 November 1999.

(13) The measures provided for in this Regulation are in accordance with the opinion of the Standing Forestry Committee,

HAS ADOPTED THIS REGULATION:

Article 1

1. The measures provided for in Articles 2 and 4 of Regulation (EEC) No 3528/86 shall be implemented under programmes to be drawn up each year by the Member States. National programmes must cover all the applications for assistance submitted under those Articles. They must contain the information and supporting documents indicated in Annex I to this Regulation and relate to the information specified in Article 2. Each year, before 1 November, the Member States shall send the Commission their programmes for the next year in duplicate.

2. National programmes as referred to in paragraph 1 must be completed not later than three years after the date of notification of the Commission Decision on financing and may not be extended.

Article 2

Programmes as referred to in Article 1 must also comprise:

— a schedule of the supporting documents to be provided by beneficiaries; ‘supporting documents’ means any document drawn up in accordance either with the laws or regulations of the Member State concerned, or with measures adopted by the competent authority, which afford evidence that the conditions attached to each individual application have been met. The schedule shall give the description of each document and the provisions or measures under which it is drawn up and a brief description of the content of such documents;

— specimens of the forms on which beneficiaries are to submit their applications for payment. Such forms must include at least a summary of the expenditure incurred and a comparative table giving a qualitative and quantitative description of the measures provided for and those implemented;

— a description of the checking and management methods put in place to ensure the effective implementation of measures under the programme, pursuant to Article 14 of Regulation (EEC) No 3528/86.

Member States shall also notify the Commission of subsequent updates of the documentation referred to in this Article.

▼**M1**

Article 2a

1. The competent bodies designated by the Member States under Article 14 of Regulation (EC) No 2152/2003 of the European Parliament and of the Council [1] in order to manage the activities included in the approved national programmes shall comply with the rules laid down in the Council Regulation (EC, Euratom) No 1605/2002 [2] and Commission Regulation (EC, Euratom) No 2342/2002 [3] as well as with the provisions laid down in the present Regulation.

2. In particular, the bodies referred to in paragraph 1, hereinafter referred to as the 'competent bodies', shall meet at least the following criteria:

(a) they shall be national public-sector bodies or private-law entities with a public-service mission, provided that they are governed by the law of one of the Member States;

(b) they shall offer adequate financial guarantees, issued preferably by a public authority, in particular as regards full recovery of amounts due to the Commission;

(c) they shall operate according to the requirements of sound financial management;

(d) they shall ensure the transparency of the operations carried out in accordance with Article 56(1)(a) to (e) of Regulation (EC, Euratom) No 1605/2002.

3. In addition to meeting the criteria set out in paragraph 2 the private-law entities referred to in point (a) of that paragraph shall provide proof of the following:

(a) their technical and professional capacity, on the basis of documentary evidence of the educational and professional qualifications of the members of their managerial staff;

(b) their economic and financial capacity, on the basis of appropriate statements from banks or evidence of relevant professional risk indemnity insurance or a state guarantee, or balance sheets, or extracts from balance sheets, covering at least the last two years for which accounts have been closed, where publication of the balance sheet is required under the company law of the country in which the entity is established;

(c) their competence under national law to perform the budget-implementation tasks, as attested by for example documentary evidence of their enrolment in a professional or trade register or a sworn declaration or certificate, membership of a specific organisation, express authorisation or entry in VAT register;

(d) that they are not in one of the situations listed in Articles 93 and 94 of Regulation (EC) No 1605/2002.

4. The Commission shall conclude an agreement with the competent bodies in conformity with Articles 56 of Regulation (EC, Euratom) No 1605/2002 and Articles 35 and 41 of Regulation (EC, Euratom) No 2342/2002.

5. The competent bodies shall conduct regular checks to ensure that the actions to be financed under Regulation (EC) No 2152/2003 have been implemented correctly. They shall take appropriate measures to prevent irregularities and fraud and if necessary bring prosecutions to recover funds lost, wrongly paid or incorrectly used.

6. The competent bodies shall provide the Commission with any information it requests. The Commission can carry out document and on-the-spot checks into their existence, relevance and proper operation, in accordance with the rules of sound financial management.

[2] OJ L 248, 16.9.2002, p. 1.
[3] OJ L 357, 31.12.2002, p. 1.

▼M1

7. The competent bodies shall be the intermediary to whom the Community contribution is paid, and where the accounts and records of the receipt and payment of that contribution in support of the national programme are held, including all invoices and documents of a similar probative value to support the direct and indirect costs of the programme.

▼B

Article 3

1. In accordance with Article 13 of Regulation (EEC) No 3528/86, the Member State shall designate the competent authority empowered to carry out the programme.

2. The competent authorities may apply for an advance of up to 50 % of the Community assistance to the national programme not earlier than 1 January of the year following the date of notification of the Commission Decision on the financing of the programme.

3. Competent authorities may apply for a second advance of not more than 30 % once they have furnished proof that 60 % of the first advance for the same programme has been utilised.

4. The balance shall be paid after the Commission has received and approved the final report, a definitive financial statement and the application for the final payment for the national programme.

Article 4

1. From 1 July of the year following the date of notification of the Commission Decision on the financing of the programme, the competent authorities shall forward six-monthly statements of the payments made to beneficiaries, in accordance with Annex II and accompanied by a statement describing the state of progress of the work.

2. The competent authorities must submit applications for the payment of advances and balances for the national programme to the Commission, in duplicate, in accordance with Annex III hereto.

Article 5

1. Any amounts lost through irregularities or negligence and recovered by a Member State shall be reimbursed to the Community.

2. Should the Commission, within four years following payment of the balance, note any irregularity in an operation financed by the Community where the amount concerned has not been reimbursed to the Community under paragraph 1, it shall inform the Member State thereof and give it an opportunity to comment.

3. If analysis of the situation and any comments by the Member State result in the Commission confirming the irregularity, the Member State shall reimburse the amounts concerned.

Article 6

Regulation (EEC) No 526/87, Article 2 of Regulation (EEC) No 1696/87 and Article 2 of Regulation (EC) No 1091/94 are repealed.

Article 7

Regulation (EEC) No 1697/87 is repealed. However, it shall continue to apply to the payment of Community financial contributions under Regulation (EEC) No 3528/86 decided before 1 November 1999.

Article 8

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

▼B

ANNEX I

PROTECTION OF THE COMMUNITY'S FORESTS AGAINST ATMOSPHERIC POLLUTION (REGULATION (EC) No 3528/86

Information on the national programme for 20..

MEMBER STATE:

1. Short description of the programme: Contact for the competent authority: (name, address, telephone and fax numbers, e-mail address of the contact person/body), starting and closing dates for implementation of the programme, total cost of the programme and aid applied for (percentage of total cost), breakdown of costs by measure, provisional scheduling of implementation and agency to which the Community financial assistance to the programme is to be paid (name, bank details), confirmation that work will not commence before the programme has been submited, confirmation that no applications under the programme will be submitted to other Community Funds, financial programming of the national programme: use forms 1 and 1b.

2. Individual aid applications under Article 2 of Regulation (EEC) No 3528/86 (intensive and continuous monitoring of forest ecosystems): use forms 2 and 2a and/or 2b and/or 2c and/or 2d.

3. Individual aid applications under Article 4 of Regulation (EEC) No 3528/86 (experiments, pilot and demonstration projects): use forms 3 and 3a.

Explanatory notes

Experiments and monitoring activities presented to the Commission with a view to their part-financing under Regulation (EEC) No 3528/86 on the protection of the Community's forests against atmospheric pollution are to be collected together each year in one programme per Member State, Community financial assistance will be paid per programme to the competent authorities designated by the Member States which will then reimburse the respective responsible bodies.

All activities to be realised under Articles 2 and 4 of Regulation (EEC) No 3528/86 and its amendments for which Community part-financing is requested are to be included in the programme as individual applications.

Types of activities:

Programmes cover two types and four sub-types of activity:

Type A:	Monitoring of forest ecosystems (Article 2 of Regulation (EEC) No 3528/86)
Sub-type A1:	Systematic grid (16 × 16 km) and annual observation of state of crowns, possible repeat of soil survey or survey of the chemical composition of leaves.
Sub-type A2:	Observations at intensive observation points.
Sub-type A3:	Any additional activity required for intensive or continuous monitoring (such as tests of methods, special studies, etc).
Sub-type A4:	Proposals for the evaluation of all data from the systematic grid or from intensive monitoring at European or regional level (including external evaluation).
Type B:	Experimental activities (Article 4 of Regulation (EEC) No 3528/86)

Priorities:

Activities are divided into three priorities:

Priority 1:	Compulsory observations and analyses with the required accuracy (QC/QA).
Priority 2:	Important observations or analyses which are not compulsory (e.g. the analysis of optional parameters). Additional and temporary efforts to guarantee quality are also included here.

▼B

Priority 3: All other measures not specified in the manual or implementing regulation. This includes observations and analyses carried out using methods not specified in the implementing regulation or manual and experimental activities (Article 4).

The financial assistance rerquested is indicated separately in the programme for each of the three priority categories.

Forms

The following forms must be used for the prersentation of the programmes:

— a short description of the programme (form 1);

— a financial plan for the programme (form 1b);

— general information (forms 2 and 3);

— specific information (forms 2a, 2b, 2c and 2d).

The programme description form contains administrative information on the competent national authority and summary information on the various individual applications in the programme, along with a timetable. The form must bear the stamp of the competent national authority and be duly signed and dated by it, with the name of the signatory indicated below the signature. The financial plan for the programme contains information on the planned use of the Community financial assistance. A general information form (containing general information on the individual applications) and a specific information form (containing technical information on the individual applications) must be completed for each individual application for assistance (form 2 for Article 2 activities, form 3 for Article 4; forms 2a and/or 2b, and/or 2c, and/or 2d for technical information). The general information forms must bear the seal of the competent national authority and be duly signed and dated by it, with the name of the signatory indicated below the signature.

Form 1:	Programme description form containing administrative information on the competent national authority and summary information on the various individual applications in the programme, along with a timetable
Form 1b:	Financial plan for national programme
Form 2:	All applications relating to monitoring activities (Article 2): General information form (A1/A2/A3/A4 activities)
Form 2a:	Applications for type A1 activities: Technical information on systematic grid (level I)
Form 2b:	Applications for type A2 activities: Technical information on observations at intensive observation points (level II)
Form 2c:	Applications for type A3 activities: Technical information on additional aspects relating to intensive monitoring (level II)
Form 2d:	Applications for type A4 activities: Technical information on evaluation activities relating to intensive monitoring (level II)
Form 3:	All applications for experimental activities (Art. 4): General information form (type B activities)
Form 3a:	All applications for experimental activities (Art. 4): Specific information form (technical summary)
