COMMISSION REGULATION (EC) No 1093/2001

of 1 June 2001

amending Regulation (EC) No 245/2001 laying down detailed rules for the application of Council Regulation (EC) No 1673/2000 on the common organisation of the markets in flax and hemp grown for fibre

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1673/2000 of 27 July 2000 on the common organisation of the markets in flax and hemp grown for fibre [1], and in particular Articles 9 and 14 thereof,

Whereas:

(1) With a view to clarifying certain provisions of Commission Regulation (EC) No 245/2001 [2] laying down detailed rules for the application of Council Regulation (EC) No 1673/2000, a number of amendments need to be made to the text of the Regulation.

(2) Article 5 of Regulation (EC) No 1673/2000 lays down certain provisions in order to prevent illicit hemp crops from disturbing the market in hemp for fibre. The Article thus provides for the issue of a licence for imported hemp and the establishment of a system of checks on imported raw hemp and hemp seed and restricts the import of hemp seed other than for sowing to authorised importers. A standard licence establishing the compliance of imported hemp with the conditions laid down should therefore be provided for. The establishment by the Member States concerned of a system of checks on imported hemp and arrangements for the authorisation of importers of hemp seed other than for sowing should also be provided for. Provisions should also be laid down to cover trade between the Member States in such seed.

(3) To allow Member States and operators to adjust to the new provisions relating to imports of hemp, provision should be made for them to apply from 1 November 2001. The control measures in force before that date must therefore remain applicable until 31 October 2001.

(4) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Flax and Hemp,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EC) No 245/2001 is amended as follows:

1. In Article 6(2)(e), the words ‘and processing contracts’ are inserted after the word ‘straw’.

2. Article 15(1)(c) is replaced by the following text:

‘(c) for each marketing year, a summary statement of the quantities of long flax fibre, short flax fibre and hemp fibre obtained from straw of Community origin in storage at the end of the period concerned.’

3. The following Article 17a is added:

'Article 17a

Imported hemp

1. The licence referred to in the first subparagraph of Article 5(2) of Regulation (EC) No 1673/2000 shall be drawn up in accordance with the model given in the Annex hereto. The licence shall be issued only where it has been proven to the satisfaction of the importer Member State that all the conditions laid down have been fulfilled.

Without prejudice to paragraph 2, the Member States concerned shall lay down the conditions to be fulfilled by the licence application and the issue and use of the licence. However, boxes 1, 2, 4, 14, 15, 16, 17, 18, 20, 24 and 25 of the licence form must be filled in.

The system of checks referred to in the second subparagraph of Article 5(2) of Regulation (EC) No 1673/2000 shall be established by each Member State concerned.

2. For the purposes of the third indent of Article 5(2) of Regulation (EC) No 1673/2000, the Member States concerned shall establish arrangements for the authorisation of importers of hemp seed other than for sowing. Those arrangements shall include the definition of the conditions for authorisation, checks and the penalties to be applied in cases of irregularity.

In the case of imports of hemp seed as referred to in the first subparagraph, the licence referred to in paragraph 1 shall be issued only where the authorised importer undertakes that the competent authorities will be presented, within the time limits and under the conditions defined by the Member State, with documents attesting that the hemp seed covered by the licence has undergone, within a period of less than 12 months from the date on which the licence is issued, one of the following operations:

— rendering unusable for sowing,

— mixing with seed other than hemp seed for the purposes of animal nutrition, with hemp seed accounting for a maximum of 15 % of the total mixture and, in exceptional cases, a maximum of 25 % at the request of the authorised importer accompanied by justification,

— re-export to a non-Community country.

However, if part of the hemp seed covered by the licence has not undergone one of the operations referred to in the previous subparagraph within the time limit of 12 months, the Member State may, at the request of the authorised importer accompanied by justification, extend that time limit by one or two periods of six months.

The attestations referred to in the second subparagraph shall be drawn up by the operators who have carried out the operations and shall comprise at least the following information:

— the name, full address, Member State and signature of the operator,

— a description of the operation carried out meeting the conditions laid down in the second subparagraph and the date on which it was carried out,

— the quantity in kilograms of hemp seed to which the operation related.

3. On the basis of a risk analysis, each Member State concerned shall carry out checks on the accuracy of the attestations relating to the operations referred to in the second subparagraph of paragraph 2 carried out on their territory.

Where appropriate, the importer Member State shall send the Member State concerned copies of the attestations concerning the operations carried out on the latter's territory and submitted by authorised importers. Where irregularities are discovered during the checks referred to in the first subparagraph, the Member State

▼B

concerned shall inform the competent authority of the importer Member State.

4. Member States shall notify the Commission of the provisions adopted for the application of paragraphs 1 and 2.

No later than 31 January each year the Member States shall notify the Commission of the penalties imposed or steps taken as a result of irregularities discovered during the preceding marketing year.

The Member States shall send the Commission, which shall forward them to the other Member States, the names and addresses of the authorities responsible for issuing licences and for the checks referred to in this Article.'

4. The third paragraph of Article 19 is replaced by the following text:

'Regulations (EEC) No 1523/71, (EEC) No 1164/89, (EEC) No 1784/93 and (EC) No 452/1999 shall continue to apply for the 1998/99, 1999/2000 and 2000/01 marketing years.'

Article 2

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Communities*.

It shall apply from the 2001/02 marketing year. However, Article 1(3) shall apply only with effect from ►**M1** 1 May 2002 ◄ and the national control measures in force on 30 June 2001 shall apply to imports of hemp effected up to ►**M1** 30 April 2002 ◄.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

ANNEX

LICENCE FOR THE IMPORT OF HEMP (conformity of hemp with Article 5 of Regulation (EC) No 1673/2000)

1 **Holder's copy** **1**

1. Agency issuing the licence (name and address)

2. Issuing agency's embossment and perforation (1) — No

3.

4. Issued to (name, full address and Member State)

5.

6.

7. Exporting country

8. Country of origin

10.

11.

12. LAST DAY OF VALIDITY

13. PRODUCT TO BE IMPORTED

14. Trade denomination

15. Description in accordance with the Combined Nomenclature (CN) (Tick the relevant box)

- ☐ Hemp seeds for sowing
- ☐ Hemp seeds other than for sowing
- ☐ True hemp, raw or retted

16. CN code (Tick the relevant box)

- ☐ ex 1207 99 10
- ☐ 1207 99 91
- ☐ 5302 10 00

17. Quantity (2) in figures

18. Quantity (2) in words

19. Tolerance % more

20. Variety of hemp (in the case of seeds for sowing)

24. Special conditions (Tick the relevant box)

- ☐ Hemp seeds for sowing falling within CN code 1207 99 10 are accompanied by proof that the tetrahydrocannabinol content of the variety concerned does not exceed that laid down in accordance with Article 5a of Regulation (EC) No 1251/1999
- ☐ Hemp seeds other than for sowing falling within CN code 1207 99 91 are imported by an importer approved by the authorities of the Member State
- ☐ Raw hemp falling within CN code 5302 10 00 fulfils the conditions laid down in Article 5a of Regulation (EC) No 1251/1999

25. Issued at:

on ____ under No

Signature and stamp of issuing agency:

26. Term of validity extended until ____ inclusive

for (2):

At , on ____

Signature and stamp of agency issuing the licence:

(1) To be completed if the signature and the stamp do not appear in box 25.
(2) Net mass or other measurement, indicating unit.
