COMMISSION REGULATION (EC) No 274/2001

of 9 February 2001

laying down detailed rules for the implementation of the specific arrangements for the supply of sheepmeat and goatmeat to the Azores and Madeira for 2001

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 1600/92 of 15 June 1992 concerning specific measures for the Azores and Madeira relating to certain agricultural products [1], as last amended by Regulation (EC) No 2826/2000 [2], and in particular Article 10 thereof,

Whereas:

(1) Pursuant to Article 4 of Regulation (EEC) No 1600/92, the number of pure-bred breeding sheep and goats originating in the Communiy and qualifying for aid with a view to developing production potential in the Azores and Madeira should be determined for each annual period of application.

(2) The aid referred to above for the supply of pure-bred breeding sheep and goats originating in the rest of the Community to the Azores and Madeira should be fixed. That aid must be fixed in the light, in particular, of the costs of supply from the Community market and the conditions resulting from the geographical situation of the Azores and Madeira.

(3) Common detailed rules for the application of the arrangements for the supply of certain agricultural products to the Azores and Madeira are laid down in Commission Regulation (EEC) No 1696/92 [3], as last amended by Regulation (EC) No 2757/98 [4]. Additional detailed rules should be laid down in line with current commercial practice in the sheepmeat and goatmeat sector, in particular as regards the term of validity of aid certificates and the securities ensuring operators' compliance with their obligations.

(4) With a view to sound administration of the supply arrangements, a timetable should be laid down for the lodging of certificate applications and for a period of reflection for their issue.

(5) This Regulation will enter into force after the expiry of the time limit for submitting licence applications in January 2001. To avoid a break in supplies to the Azores and Madeira, provision should be made to derogate from Article 4(1) and (2) of this Regulation and to allow, for that month alone, the submission of licence applications in the five working days following the entry into force of this Regulation and to set the time limit for the issue of such licences at 10 working days following the entry into force of this Regulation.

(6) With a view to bringing the administration of the aid more closely into line with the requirements of the Azores and Madeira, the aid and the quantities to which the latter may apply should be fixed annually per calendar year.

(7) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Sheep and Goats,

HAS ADOPTED THIS REGULATION:
