COMMISSION REGULATION (EC) No 606/2001

of 23 March 2001

on implementing Council Regulation (EC) No 1165/98 concerning short-term statistics as regards derogations of Member States

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1165/98 of 19 May 1998 concerning short-term statistics [1], and in particular Articles 13 and 17(h) thereof,

Whereas:

(1) Regulation (EC) No 1165/98 established a common framework for the production of short-term Community statistics on the business cycle.

(2) In accordance with Articles 13 and 17(h) of Regulation (EC) No 1165/98, implementing measures are necessary concerning derogations to be provided.

(3) The measures provided for in this Regulation are in accordance with the opinion delivered by the Statistical Programme Committee, established by Council Decision 89/382/EEC, Euratom [2],

HAS ADOPTED THIS REGULATION:

Article 1

Derogations

The derogations referred to in Article 13 and 17(h) of the Regulation (EC) No 1165/98 are specified in the Annex to the present Regulation.

Article 2

Entry into force

This Regulation shall enter into force on the 20th day following its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 23 March 2001.

For the Commission

Pedro SOLBES MIRA

Member of the Commission

ANNEX

DEROGATIONS

The following tables indicate the derogations required for each indicator in each annex of Regulation (EC) No 1165/98.

The first column contains a reference to the indicators listed in the Regulation. The letter given in the code for the indicators refers to the relevant annex of Regulation (EC) No 1165/98.

The second column indicates whether a derogation is needed. If one is not needed, 'none' is recorded; if one is needed, it is indicated as 'complete' or 'partial'. If a complete derogation is needed for a particular indicator, this indicates that no data is available for that indicator. If a partial derogation is needed, some information will be available, although this will not be in accordance with all of the provisions of the Regulation. The remaining columns in the table indicate for the partial derogations which particular aspect of the requirements for that indicator can not be met. These may be that the indicator will be (i) late (extra time needed), (ii) calculated less frequently than required (frequency), (iii) incomplete in its activity coverage (activities not covered), (iv) not available for all levels of activity breakdowns required (lack of activity detail), (v) not available for all construction breakdowns (lack of CC detail — only relevant for Annex B indicators) or (vi) other reasons.

With respect to deadlines, the Regulation provides for an extra 15 calendar days in the transmission deadline for countries with value added below a certain threshold. Derogations for extended deadlines in the tables below refer to extensions beyond this 15-day extension.

One final column is provided in the tables to indicate the expected ending date of the derogations. The dates given in this column normally refer to the first reference period for which data will be sent without the derogation. As such, the first transmission of such data may be several months thereafter.

1.1. **General derogation — relevant for all countries**

For indicators B 411 and B 412, the indexes may be calculated directly from the number of permits rather than from kind-of-activity units.

The requested country derogations are presented in the following sequence: Belgium, Denmark, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, The Netherlands, Austria, Portugal, Finland, Sweden, the United Kingdom.

1. BELGIUM

	Type of derogation	Extra delay for transmission	Frequency	Activities not covered	Lack of activity detail	Lack of CC detail	End date for the derogation	Other derogations
A 110	None							
A 120	None
