# COMMISSION REGULATION (EC) No 1890/2002

## of 23 October 2002

## amending Regulation (EC) No 21/2002 as regards the forecast supply balance for the French overseas departments in the cereals sector

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1452/2001 of 28 June 2001 introducing specific measures for certain agricultural products for the French overseas departments, amending Directive 72/462/EEC and repealing Regulations (EEC) No 525/77 and (EEC) No 3763/91 (Poseidom) [1], and in particular Article 3(6) thereof,

Whereas:

(1) Part 1 of Annex I to Commission Regulation (EC) No 21/2002 of 28 December 2001 establishing the supply balances and Community aid for the outermost regions under Council Regulations (EC) No 1452/2001, (EC) No 1453/2001 and (EC) No 1454/2001 [2], as last amended by Regulation (EC) No 1365/2002 [3], establishes a forecast supply balance and fixes the Community aid for cereals and cereal products for the French overseas departments in accordance with Regulation (EC) No 1452/2001.

(2) The forecast supply balance provides for an annual quantity of 44 200 tonnes of cereals for Guadeloupe and 32 700 tonnes of cereals for Martinique. Given that two new mills have come into operation in Martinique, the current level of implementation of the specific supply arrangements shows that the quantities laid down for the supply of the two departments are below requirements.

(3) By letter dated 6 September 2002, therefore, the French authorities submitted a request for adjustment of the balance for Guadeloupe and for Martinique in order to meet the legitimate supply needs of these departments.

(4) As a result, as regards the supply of cereals, the quantity originally laid down in the supply balance should be increased and the distribution of the quantities fixed for these two islands should be amended.

(5) Regulation (EC) No 21/2002 should therefore be amended accordingly.

(6) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Cereals,
