establishing the supply balances and Community aid for the outermost regions under Council Regulations (EC) No 1452/2001, (EC) No 1453/2001 and (EC) No 1454/2001

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1452/2001 of 28 June 2001 introducing specific measures for certain agricultural products for the French overseas departments, amending Directive 72/462/EEC and repealing Regulations (EEC) No 525/77 and (EEC) No 3763/91 (Poseidom) ([1]), and in particular Article 3(6) thereof,

Having regard to Council Regulation (EC) No 1453/2001 of 28 June 2001 introducing specific measures for certain agricultural products for the Azores and Madeira and repealing Regulation (EEC) No 1600/92 (Poseima) ([2]), and in particular Article 3(6) thereof,

Having regard to Council Regulation (EC) No 1454/2001 of 28 June 2001 introducing specific measures for certain agricultural products for the Canary Islands and repealing Regulation (EEC) No 1601/92 (Poseican) ([3]), and in particular Article 3(6) thereof,

Whereas:

(1) Detailed rules for the application of Regulations (EC) Nos 1452/2001, 1453/2001 and 1454/2001 as regards the specific arrangements for the supply to the French overseas departments, Madeira, the Azores and the Canary Islands (hereinafter called the outermost regions) of certain agricultural products have been laid down in Commission Regulation (EC) No 20/2002 ([4]).

(2) For the purposes of applying Article 2 of Regulations (EC) Nos 1452/2001, 1453/2001 and 1454/2001, supply balances must be drawn up for the products covered by specific supply arrangements. These balances must allow interchangeability of the quantities provided for certain of the products concerned.

(3) To take account of the special features of the various products in each sector, detailed arrangements for granting aid and establishing quantities for the supply of Community products to the outermost regions, as provided for in Article 3 of Regulations (EC) Nos 1452/2001, 1453/2001 and 1454/2001 respectively, should be laid down as required.

(4) In order to clarify the specific supply arrangements for the outermost regions, the provisions on the supply balances and on aid for all these regions, which until now have been split among various Commission regulations, should be combined in a single regulation and the regulations in question should be repealed.

(5) The measures provided for in this Regulation are in accordance with the opinion of the joint meeting of the Management Committees for cereals, pigmeat, poultrymeat and eggs, milk and milk products, beef and veal, sheepmeat and goatmeat, oils and fats, sugar, processed fruit and vegetables, hops, seeds and dried fodder,

([1]) For white sugar the amount of aid is equal to the most recent maximum export refund fixed for white sugar under the standing invitations to tender for the export of white sugar. Where two standing invitations to tender are issued simultaneously, the maximum to take into consideration is that most recently fixed for the standing invitation to tender for export in the forthcoming marketing year.

The aid for raw sugar is equal to 92 % of that applicable to white sugar. If the raw sugar dispatched produces a yield different from 92 %, the amount of aid shall be adjusted by applying Annex I to Council Regulation (EC) No 1260/2001.

For sucrose syrups and sugar falling within CN codes 1701 91 00 and 1701 99 90, the amount of aid is equal to one hundredth of the amount applicable to white sugar for each percentage point of sucrose content per 100 kilograms net of the product concerned.

Article 7(3) of Regulation (EC) No 1260/2001 shall not apply.
