COMMISSION REGULATION (EC) No 637/2002

of 12 April 2002

redistributing unused portions of the 2001 quantitative quotas for certain products originating in the People's Republic of China

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 520/94 of 7 March 1994 establishing a Community procedure for administering quantitative quotas [1], as amended by Regulation (EC) No 138/96 [2], and in particular Article 2(5) and Articles 14 and 24 thereof,

Whereas:

(1) Council Regulation (EC) No 519/94 of 7 March 1994 on common rules for imports from certain third countries and repealing Regulations (EEC) No 1765/82, (EEC) No 1766/82 and (EEC) No 3420/83 [3], as last amended by Regulation (EC) No 1138/98 [4], introduced annual quantitative quotas for certain products originating in the People's Republic of China listed in Annex II to that Regulation. The provisions of Regulation (EC) No 520/94 are applicable to those quotas.

(2) The Commission accordingly adopted Regulation (EC) No 738/94 [5], as last amended by Regulation (EC) No 983/96 [6], laying down general rules for the implementation of Regulation (EC) No 520/94. These provisions apply to the administration of the above quotas subject to the provisions of this Regulation.

(3) In accordance with Article 20 of Regulation (EC) No 520/94, the competent authorities of the Member States notified the Commission of the quantities of quotas assigned in 2001 and not used.

(4) The unused quantities could not be redistributed in time to be used before the end of the 2001 quota year.

(5) Examination of the data received for each of the products in question indicates that the quantities not used in the 2001 quota year should be redistributed in 2002, up to a limit of the amounts set out in Annex I to this Regulation.

(6) The different administrative methods provided for by Regulation (EC) No 520/94 have been analysed and it is considered that the method based on traditional trade flows should be adopted. Under this method quota tranches are divided into two portions, one of which is reserved for traditional importers and the other for other applicants.

(7) This has proved to be the best way of ensuring the continuity of business for the Community importers concerned and avoiding any disturbance of trade flows.

(8) Quantities redistributed under this Regulation should be divided using the same criteria as for the allocation of the 2001 quotas except as regard the determination of the reference period for traditional importers and the introduction of new criteria to prevent multiple applications by non-traditional importers.

(9) The reference period used for redistributing the portion of the unused quantities set aside for traditional importers in the previous Regulation on the administration of these quotas should not be updated. The year 2000 was characterised by certain

▼B

distortions, in particular a more than twofold increase of applications from one Member State, which resulted in substantially reduced individual quota allocations to all non-traditional importers in all Member States. The years 1998 or 1999 are, thus, the most recent years representatives of the normal trend of trade flows in the products in question. Traditional importers must, therefore, prove that they have imported products originating in China and covered by the quotas in question in the years 1998 or 1999.

(10) It has been found that the unusual increase of applications lodged for the portion of the quota set aside for non-traditional importers is due to multiple licence applications from companies who do not effectively operate as separate importers, but which have been established as separate legal entities only for the purpose of being able to submit additional applications. Regulation (EC) No 520/94, in particular recital 5 and Article 5 thereof, requires the Commission to ensure fair access to quotas and that import licences be issued for economically significant quantities. To redistribute the non-traditional quota in line with these principles, the administrative procedures should be amended. The Commission considers it necessary that operators applying as non-traditional importers and falling under the definition of related persons within the meaning of Article 143 of Commission Regulation (EEC) No 2454/93 [1], as last amended by Regulation (EC) No 444/2002 [2], may only submit a single licence application for each line of the quota set aside for non-traditional importers. In order to exclude speculative applications, the amount that any non-traditional importer may request should be restricted to a set volume.

(11) It is necessary to simplify the formalities to be fulfilled by traditional importers who already hold import licences issued when the 2002 Community quotas were allocated. The competent administrative authorities already possess the requisite evidence of either 1998 or 1999 imports for all traditional importers. The latter need therefore only enclose a copy of their previous licences with their new licence applications.

(12) Measures should be taken to provide the best conditions for the allocation of that portion of the quota reserved for non-traditional importers with a view to optimum use of quotas. To this end, it is appropriate to provide for that portion to be allocated in proportion to the quantities requested, on the basis of a simultaneous examination of import licence applications actually lodged, and grant access only to importers who can prove that they obtained and made use of at least 80 % of an import licence for the product in question during the 2001 quota year. The amount that any non-traditional importer may request should also be restricted to a set volume or value.

(13) For the purposes of quota allocation, a time limit must be set for the submission of licence applications by traditional and other importers.

(14) With a view to optimum use of quotas, licence applications for imports of footwear under quotas which refer to several CN codes must specify the quantities required for each code.

(15) The Member States must inform the Commission of the import licence applications received, in accordance with the procedure laid down in Article 8 of Regulation (EC) No 520/94. The information about traditional importers' previous imports must be expressed in the same units as the quota in question.

(16) In the light of the experience gained in the management of the quotas, in order to facilitate import administration formalities to economic operators and in view of the fact that unused quantities

▼B

may not be carried over to the following year more than once, thus limiting the risk of excessive accumulation of imports, it is deemed appropriate, without prejudice to the results of a further analysis which may appear to be warranted in this respect in the future, to set the expiry date of the redistribution import licences as 31 December 2002.

(17) These measures are in accordance with the opinion of the Committee for the administration of quotas set up under Article 22 of Regulation (EC) No 520/94,

HAS ADOPTED THIS REGULATION:

Article 1

This Regulation lays down specific provisions for the redistribution in 2002 of portions of the quantitative quotas referred to in Annex II to Regulation (EC) No 519/94 which were not used in the 2001 quota year.

The quantities not used in the 2001 quota year shall be redistributed up to the limit of the volumes or values set out in Annex I to this Regulation.

Regulation (EC) No 738/94 shall apply subject to the specific provisions of this Regulation.

Article 2

1. The quantitative quotas referred to in Article 1 shall be allocated using the method based on traditional trade flows, referred to in Article 2(2)(a) of Regulation (EC) No 520/94.

2. The portions of each quantitative quota set aside for traditional importers and other importers are set out in Annex II to this Regulation.

3. (a) The portion set aside for non-traditional importers shall be apportioned using the method based on allocation in proportion to quantities requested; the volume requested by a single importer may not exceed that shown in Annex III. Only importers who can prove that they imported at least 80 % of the volume of the product for which they were granted an import licence pursuant to Commission Regulation (EC) No 2339/2000 [1] shall be entitled to apply for import licences.

(b) Operators that are deemed to be related persons as defined by Article 143 of Regulation (EEC) No 2454/93 may only submit single licence application for the portion of the quota set aside for non-traditional importers regarding the goods described in the application. In addition to the statement required by Article 3(2)(g) of Regulation (EC) No 738/94, the licence application for the non-traditional quota shall state that the applicant is not related to any other operator applying for the non-traditional quota line in question.

Article 3

Applications for import licences shall be lodged with the competent authorities listed in Annex IV to this Regulation from the day following the day of publication of this Regulation in the *Official Journal of the European Communities* until 3 p.m., Brussels time, on 13 May 2002.

Article 4

1. For the purposes of allocating the portion of each quota set aside for traditional importers, ‘traditional’ importers shall mean importers

[1] OJ L 269, 21.10.2000, p. 28.

▼B

who can show that they have imported goods in either the calendar year 1998 or 1999.

2. The evidence referred to in Article 7 of Regulation (EC) No 520/94 shall relate to the release into free circulation during either calendar year 1998 or 1999, as indicated by the importer, of products originating in the People's Republic of China which are covered by the quota in respect of which the application is made.

3. Instead of the evidence referred to in the first indent of Article 7 of Regulation (EC) No 520/94:

— applicants may enclose with their licence applications documents drawn up and certified by the competent national authorities on the basis of available customs information as evidence of the imports of the product in question during calendar year 1998 or 1999 carried out by themselves or, where applicable, by the operator whose activities they have taken over,

— applicants already holding import licences issued for 2002, under Commission Regulation (EC) No 1995/2001 [1], for products covered by the licence application may enclose a copy of their previous licences with their licence applications. In that case they shall indicate in their licence application the aggregate quantity of imports of the product in question during the chosen reference period.

Article 5

Member States shall inform the Commission no later than 27 May 2002 at 10 a.m. Brussels time of the number and aggregate quantity of import licence applications and, in the case of applications from traditional importers, of the volume of previous imports carried out by traditional importers during the chosen reference period referred to in Article 4(1) of this Regulation.

Article 6

No later than 20 days after having received all the information required under Article 5, the Commission shall adopt the quantitative criteria to be used by the competent national authorities for the purpose of meeting importers' applications.

Article 7

Import licences shall be valid up to 31 December 2002. The validity shall not be extendable.

Article 8

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

ANNEX I

Quantities to be redistributed

▼C1

▼B

Product description	HS/CN code	Quantities redistributed
Footwear falling within HS/CN codes	ex 6402 99 (1)	4 377 847 pairs
	6403 51 6403 59	1 276 668 pairs
	ex 6403 91 (1) ex 6403 99 (1)	1 320 489 pairs
	ex 6404 11 (2)	2 110 289 pairs
	6404 19 10	7 193 447 pairs
Tableware, kitchenware of porcelain or china falling within HS/CN code	6911 10	5 029 tonnes
Ceramic tableware, kitchenware, other household articles and toilet articles, other than of porcelain or china falling within HS/CN code	6912 00	6 086 tonnes

(1) Excluding footwear involving special technology: shoes which have a cif price per pair of not less than EUR 9 for use in sporting activities, with a single- or multi-layer moulded sole, not injected, manufactured from synthetic materials specially designed to absorb the impact of vertical or lateral movements and with technical features such as hermetic pads containing gas or fluid, mechanical components which absorb or neutralise impact or materials such as low density polymers.

(2) Excluding:

(a) footwear which is designed for a sporting activity and has, or has provision for the attachment of, spikes, sprigs, stops, clips, bats or the like, with a non-injected sole;

(b) footwear involving special technology: shoes which have a cif price per pair of not less than EUR 9 for use in sporting activities, with a single- or multi-layer moulded sole, not injected, manufactured from synthetic materials specially designed to absorb the impact of vertical or lateral movements and with technical features such as hermetic pads containing gas or fluid, mechanical components which absorb or neutralise impact or materials such as low density polymers.

ANNEX II

Allocation of the quotas

▼C1

▼B

Product description	HS/CN code	Portion reserved for traditional importers (70 %)	Portion reserved for other importers (30 %)
Footwear falling within HS/CN codes	ex 6402 99 ([1])	3 064 493 pairs	1 313 354 pairs
	6403 51 6403 59	893 668 pairs	383 000 pairs
	ex 6403 91 ([1]) ex 6403 99 ([1])	924 342 pairs	396 147 pairs
	ex 6404 11 ([2])	1 477 202 pairs	633 087 pairs
	6404 19 10	5 035 413 pairs	2 158 034 pairs
Tableware, kitchenware of porcelain or china falling within HS/CN code	6911 10	3 520 tonnes	1 509 tonnes
Ceramic tableware, kitchenware, other household articles and toilet articles, other than of porcelain or china falling within HS/CN code	6912 00	4 260 tonnes	1 826 tonnes

([1]) Excluding footwear involving special technology: shoes which have a cif price per pair of not less than EUR 9 for use in sporting activities, with a single- or multi-layer moulded sole, not injected, manufactured from synthetic materials specially designed to absorb the impact of vertical or lateral movements and with technical features such as hermetic pads containing gas or fluid, mechanical components which absorb or neutralise impact or materials such as low density polymers.

([2]) Excluding:

(a) footwear which is designed for a sporting activity and has, or has provision for the attachment of, spikes, sprigs, stops, clips, bats or the like, with a non-injected sole;

(b) footwear involving special technology: shoes which have a cif price per pair of not less than EUR 9 for use in sporting activities, with a single- or multi-layer moulded sole, not injected, manufactured from synthetic materials specially designed to absorb the impact of vertical or lateral movements and with technical features such as hermetic pads containing gas or fluid, mechanical components which absorb or neutralise impact or materials such as low density polymers.

▼B

ANNEX III

Maximum quantity which may be requested by each importer other than traditional

Product description	HS/CN code	Predetermined maximum quantity
Footwear falling within HS/CN codes	ex 6402 99 (1)	5 000 pairs
	6403 51 6403 59	5 000 pairs
	ex 6403 91 (1) ex 6403 99 (1)	5 000 pairs
	ex 6404 11 (2)	5 000 pairs
	6404 19 10	5 000 pairs
Tableware, kitchenware of porcelain or china falling within HS/CN code	6911 10	5 tonnes
Ceramic tableware, kitchenware, other household articles and toilet articles, other than of porcelain or china falling within HS/CN code	6912 00	5 tonnes

(1) Excluding footwear involving special technology: shoes which have a cif price per pair of not less than EUR 9 for use in sporting activities, with a single- or multi-layer moulded sole, not injected, manufactured from synthetic materials specially designed to absorb the impact of vertical or lateral movements and with technical features such as hermetic pads containing gas or fluid, mechanical components which absorb or neutralise impact or materials such as low density polymers.

(2) Excluding:

(a) footwear which is designed for a sporting activity and has, or has provision for the attachment of, spikes, sprigs, stops, clips, bats or the like, with a non-injected sole;

(b) footwear involving special technology: shoes which have a cif price per pair of not less than EUR 9 for use in sporting activities, with a single- or multi-layer moulded sole, not injected, manufactured from synthetic materials specially designed to absorb the impact of vertical or lateral movements and with technical features such as hermetic pads containing gas or fluid, mechanical components which absorb or neutralise impact or materials such as low density polymers.
