COMMISSION REGULATION (EC) No 346/2003

of 24 February 2003

on the opening of a standing invitation to tender for the resale on the Community market of rice held by the French intervention agency for use in animal feed

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 3072/95 of 22 December 1995 on the common organisation of the market in rice ([1]), as last amended by Regulation (EC) No 411/2002 ([2]), and in particular Article 8(b) thereof,

Whereas:

(1) Commission Regulation (EEC) No 75/91 of 11 January 1991 laying down the procedures and conditions for the disposal of paddy rice held by intervention agencies ([3]) provides among other things that rice held by intervention agencies is to be sold by tendering procedure at prices preventing market disturbance.

(2) France has intervention stocks of paddy rice from harvests earlier than 1999 the quality of which is in danger of deteriorating if kept in prolonged storage.

(3) Disposing of this rice on traditional markets inside the Community would inevitably trigger off — in the present production situation where concessions for rice imports are being granted under international agreements — the placing of an equivalent quantity in intervention, which must be avoided.

(4) This rice could be disposed of in the animal feed sector, on special conditions.

(5) In order to ensure that the rice is used for the purpose specified, provision should be made for special monitoring and for the successful tenderer to provide a security, the conditions for the release of which should be laid down.

(6) The undertakings given by tenderers must be regarded as primary requirements within the meaning of Commission Regulation (EEC) No 2220/85 of 22 July 1985 laying down common detailed rules for the application of the system of securities for agricultural products ([4]), as last amended by Regulation (EC) No 1932/1999 ([5]).

(7) Commission Regulation (EEC) No 3002/92 ([6]), as last amended by Regulation (EC) No 770/96 ([7]), lays down common detailed rules for verifying the use of products from intervention. Procedures should also be laid down to ensure the traceability of the products used for animal feed.

(8) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Cereals,

HAS ADOPTED THIS REGULATION:

Article 1
