ANNEX

Description of the goods	Classification (CN code)	Reasons
(1)	(2)	(3)
Infant feeding bottle made of plastic (polypropylene) and graduated. The product has a height of around 20 cm and a capacity of 300 ml. The infant feeding bottle has a silicone nipple and a protector. (See photo) (*)	3924 10 00	Classification is determined by General Rules 1 and 6 for the interpretation of the Combined Nomenclature and the wording of CN codes 3924 and 3924 10 00. As the product is used to feed babies, it cannot be considered as an article for the conveyance or packing of goods. Therefore, heading 3923 is excluded. Infants' feeding bottles, regardless of the material, are generally considered as 'tableware and kitchenware' (see also Harmonised System Explanatory Notes to heading 7013, point (1)). Consequently, subheading 3924 90 00 is excluded. The product is therefore to be classified under CN code 3924 10 00.
