(Non-legislative acts)

REGULATIONS

COMMISSION IMPLEMENTING REGULATION (EU) 2018/700

of 8 May 2018

amending the lists of third country establishments from which imports of specified products of animal origin are permitted, regarding certain establishments from Brazil

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 854/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific rules for the organisation of official controls on products of animal origin intended for human consumption ([1]), and in particular Article 12(4)(c) thereof,

Whereas:

(1) Regulation (EC) No 854/2004 lays down specific rules for the organisation of official controls on products of animal origin. In particular, Article 12(1) of that Regulation provides that products of animal origin are to be imported into the Union only if they originate from third country establishments that appear on lists drawn up and updated in accordance with that Article. Those lists can be consulted on the website of the Directorate-General for Health and Food Safety ([2]).

(2) Article 12(2) of Regulation (EC) No 854/2004 requires that third country establishments are placed on these lists only if the competent authorities of the third country guarantee that these establishments comply with the conditions established in that Article. In addition, in accordance with Article 12(3) of Regulation (EC) No 854/2004, the competent authorities of the third country concerned should keep these lists of establishments updated and communicate them accordingly to the Commission.

(3) Article 12(4)(c) of Regulation (EC) No 854/2004 requires the Commission to take the necessary action leading to the amendment of the lists of establishments, whenever it considers that such amendments are necessary in the light of relevant information such as Union inspection reports or notifications from the Member States through the Rapid Alert System for Food and Feed (RASFF) set up by Regulation (EC) No 178/2002 of the European Parliament and of the Council ([3]).

(4) From March 2017, Member States notified the Commission, through the RASFF, of a significant number of serious and repeated cases of non-compliance due to the presence of *Salmonella* in poultry meat and poultry meat preparations, originating from several establishments in Brazil. The Brazilian competent authorities were informed about these cases of non-compliance with Union requirements and were requested to take the necessary corrective actions.

([1]) OJ L 139, 30.4.2004, p. 206.
([2]) https://ec.europa.eu/food/safety/international_affairs/trade/non-eu-countries_en
([3]) Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety (OJ L 31, 1.2.2002, p. 1).

(5) The information received from the Brazilian competent authorities and the results of official controls at the Union borders failed to demonstrate that the requisite corrective actions were taken to address the shortcomings identified. Consequently, there are no sufficient guarantees that those establishments comply to date with Union requirements and their products might therefore constitute a risk for public health. It is therefore necessary to remove them from the list of establishments from which imports of poultry products into the Union are authorised.

(6) In March 2018, according to information provided by the Brazilian competent authorities, cases of fraud have been found in Brazil concerning laboratory certification for meat and meat products exported to the Union. In this regard, ongoing investigations and recent action of the judiciary in Brazil indicate that there are no sufficient guarantees that the establishments of the companies BRF S.A. and SHB S.A., authorised to export meat and meat products to the Union, comply with the relevant Union requirements. Their products might therefore constitute a risk for public health and it is appropriate to remove them from the list of establishments from which imports into the Union of meat and meat products are permitted.

(7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

The lists of establishments referred to in Article 12 of Regulation (EC) No 854/2004 from which imports into the Union of specified products of animal origin are permitted shall be amended as indicated in the Annex.

Article 2

This Regulation shall enter into force on the second day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 8 May 2018.

For the Commission

The President

Jean-Claude JUNCKER

ANNEX

(1) In the list of establishments authorised to import meat of domestic ungulates from Brazil (section I), the following entry is removed:

Approval number	Name	City	Region	Activities	Remark
928	BRF S. A.	Ponta Grossa	Paraná	CS	2
