EXPLANATORY NOTE

(*This Note is not part of the Order.*)

This Order amends the Export of Goods (Control) Order 1981. It implements Commission Decision 82/2872/ECSC of 29th October 1982 and Council Regulation (EEC) No. 2870/82 of 29th October 1982 (on the restriction of exports of certain steel products to the United States of America) and Commission Decision 82/2873/ECSC of 29th October 1982 and Commission Regulation (EEC) No. 2874/82 of 29th October 1982 (on the monitoring by the Community of exports of certain steel products of Community origin to the United States of America) by prohibiting the export of certain steel products to any destination in the United States of America or the Commonwealth of Puerto Rico. The relevant products are listed in a new Group C of Part I of Schedule 1 which is added by the Order. However this prohibition does not apply to any exportation to the United States of America or the Commonwealth of Puerto Rico done in accordance with a European Community export licence issued by the competent authority of a member State in conformity with the provisions of Decision 82/2873/ECSC or Regulation (EEC) No. 2874/82. "Competent authority" means the competent authority in each member State of the Community for the purposes of that Decision or that Regulation. In the United Kingdom the competent authority is the Secretary of State for Trade.

This Order also extends Article 5 of the 1981 Order, which provides for offences in connection with applications for licences, to applications to the Secretary of State for European Community export licences.

The export to the United States of America or Puerto Rico of controlled steel products not produced in the Community may be authorised by a licence granted by the Secretary of State under Article 3(*a*) of the 1981 Order.
