# The Export of Goods (Control) Order, 1951 (Amendment No. 2) Order, 1951

## 1951 No. 1353

| | |
|---|---|
| *Made* - - - - | *24th July*, 1951 |
| *Coming into Operation* | *1st August*, 1951 |

The Board of Trade, in exercise of the powers conferred upon them by Section I of the Import, Export and Customs Powers (Defence) Act, 1939(a), and of all other powers enabling them in that behalf, do hereby order as follows:—

**1.** The Export of Goods (Control) Order, 1951(b), as amended(c) shall have effect as if:—

(1) The First Schedule were amended in the manner specified in the First Schedule to this Order:

(2) The Second Schedule were amended in the manner specified in the Second Schedule to this Order; and

(3) The Third Schedule were amended in the manner specified in the Third Schedule to this Order.

**2.**—(1) The Interpretation Act, 1889(d), applies to the interpretation of this Order as it applies to the interpretation of an Act of Parliament.

(2) This Order may be cited as the Export of Goods (Control) Order, 1951 (Amendment No. 2) Order, 1951 and shall come into operation on the First day of August, 1951.

Dated this 24th day of July, 1951.

*Kenneth McGregor.*
An Under-Secretary of the Board of Trade.

### FIRST SCHEDULE

In Group 4, under the heading "Abrasives of the following descriptions:—", after the item "Aluminium oxide, fused", insert:—

"Boron carbide.".

In Group 5, delete the item relating to carbon derived from petroleum coke, and substitute therefor:—

"Carbon derived from petroleum coke in the form of rods and electrodes (whether baked or not) of which the cross-section is 2 inches or more in any direction; blocks, bricks, plates and powder; and scrap of such carbon.".

In Group 6 (1), delete the heading relating to aluminium and alloys, and substitute therefor:—

"Aluminium and alloys containing 50 per cent. or more by weight of aluminium in the form of angles, billets, blocks, blooms, cakes, castings, circles, extrusions, foil, forgings, grains, granules, ingots, lumps, notch bars, paste, pellets, pigs, pipes and tubes, plates, powder, pressings and stampings, rods, sheets, shot, slabs, sticks, wire including steel cored wire and wire bars.":

(a) 2 & 3 Geo. 6. c. 69.
(b) S.I. 1951 No. 1053, p. 369 above.
(c) S.I. 1951 No. 1060, p. 407 above.
(d) 52 & 53 Vict. c. 63.

under the heading relating to iron and steel (including alloys containing by weight more than 55 per cent. of iron), delete the following items:—

"Pipes and tubes, other than of cast iron.

Pipe and tube fittings, other than of non-malleable cast iron, or electric conduit fittings.

Structures fabricated of iron and steel (other than pre-fabricated buildings and machinery parts), and parts prepared ready for assembly into structures.":

after the item "Pig iron" insert:—

"Pipes and tubes.":

after the item "Rails and rail crops, bridge and crane." insert:—

"Scaffolding tubes.":

under the heading relating to metals and alloys (wrought or unwrought) etc., after the item "Cadmium", insert:—

"Calcium.":

after the item "Germanium." insert:—

"Indium.":

under the heading "Used material of iron or steel of the following descriptions:—", delete the item "Steel scaffolding and fittings therefor." and substitute:—

"Steel scaffolding fittings.".

In Group 6 (3), in the Note at the begininng thereof, delete "(3) rubber (natural or synthetic); plastics" and substitute therefor:—

"(3) rubber (natural or synthetic); plastics; or synthetic resins.":

after the item "Cables and wires, insulated with polytetrafluoroethylene," insert:—

"Chemical process vessels (with or without stirring gear and with or without jackets) made of, or lined with, any corrosion resistant material.":

after the item relating to drums and barrels of metal, insert:—

"Pumps and parts of pumps of the following descriptions:—

"Pumps (other than vacuum pumps) capable of delivering liquids separately or in combination with solids, gases, or solids and gases, and possessing any of the following characteristics:—

(*a*) designed to produce pressures of 300 p.s.i.g. and over; or

(*b*) designed to operate at temperatures of 220 degrees Fahrenheit and over: or

(*c*) with all pressure parts made of, or lined with, any corrosion resistant material.

Vacuum pumps (mechanical, diffusion or ejector), other than such pumps specified in Group 15 of this Schedule, possessing either of the following characteristics:—

(*a*) designed to produce a vacuum of 50 millimetres of mercury pressure absolute or less; or

(*b*) made of, or lined with, any corrosion resistant material.

Parts of the foregoing pumps.".

In Group 6 (4), after the heading "Machines, metal working, the following:—" and the items thereunder, insert:—

"Machine tool parts and accessories, other than hand operated, of the following descriptions:—

Chucks, expanding arbors and collets.".

In Group 12 (2), after the item relating to densitometers-measuring directly by photo-multiplier valves, insert:—

" Dynamometers of all types capable of absorbing more than 300 B.H.P.

Furnaces, industrial, metallurgical and chemical, of the following descriptions, other than those specified in Group 15 of this Schedule:—

Induction furnaces, vacuum metal melting, and component parts thereof.

Infra red and induction furnaces, metal annealing and heat treating, and component parts thereof.

High temperature, controlled atmosphere furnaces, and component parts thereof, for the sintering of hard metals.

Melting and refining furnaces, and component parts thereof, of the kinds used for the production of sodium, potassium, phosphorus, magnesium, calcium carbide and ferro-alloys.".

In Group 13 (1), after the item " Hydroquinone," insert:—

" Indium compounds.";

delete the item " Phthalic acid and its salts," and substitute therefor:—

" Phthalic acid and its salts and esters.":

after the item " Superphosphate of lime." insert:—

" Synthetic organic chemicals of the following descriptions, of the kinds used as flotation reagents:—

Acetates of amines derived from fatty acids of natural origin whether hydrogenated or not.

Acetates of dodecylamine and its higher homologues, and mixtures thereof.

Dialkyl and diaryl dithiophosphoric acids and their salts.

Potassium alkyl xanthates.

Quaternary trimethylammonium chloride from amines prepared from soya bean fatty acids.

Sodium alkyl xanthates.".

In Group 13 (2), after the item " o-Chloro-m-nitro-benzaldehyde." insert:—

" *p*-Chloronitrobenzene.".

## SECOND SCHEDULE

In the Second Schedule, after the item " Inks " insert:—

" Iron and steel (including alloys containing by weight more than 55 per cent. of iron) in the following forms:—

Electrical laminations.

Expanded metal.

Furniture, including office furniture, assembled and unassembled.

Guttering and fittings therefor.

Motor vehicle bodies unassembled (other than those specified in Group 17).

Perforated sheets having more than 33⅓ per cent. of the area perforated.

Pipes and tubes of cast iron.

Rainwater and soil pipes and fittings therefor.

Windows and frames, assembled or unassembled.

Wire, expanding curtain.".

## THIRD SCHEDULE

In the Third Schedule, Part I in Group 4, under the heading "Abrasives of the following descriptions:", at the beginning of the list of items thereunder, insert:—

"Boron carbide.".

In Group 5, delete the item relating to carbon derived from petroleum coke, and substitute therefor:—

"Carbon derived from petroleum coke in the form of rods and electrodes (whether baked or not) of which the cross-section is 2 inches or more in any direction; blocks, bricks, plates and powder; and scrap of such carbon.".

In Group 6 (1), at the beginning of the items thereof, insert:—

"Aluminium and alloys containing 50 per cent. or more by weight of aluminium in the form of angles, castings, circles, extrusions, foil, forgings, paste, pipes and tubes, plates, powder, pressings, and stampings, rods, sheets, and wire including steel cored wire.":

under the heading relating to metals and alloys (wrought or unwrought) etc., after the item "Bismuth," insert:—

"Calcium.".

In Group 6 (3), after the item "Cables and wires insulated with polytetrafluoroethylene", insert:—

"Chemical process vessels (with or without stirring gear and with or without jackets) made of, or lined with, any corrosion resistant material":

after the item relating to drums and barrels of metal, insert:—

"Pumps and parts of pumps of the following descriptions:—

Pumps (other than vacuum pumps) capable of delivering liquids separately or in combination with solids, gases, or solids and gases, and possessing any of the following characteristics:—

(*a*) designed to produce pressures of 300 p.s.i.g. and over; or

(*b*) designed to operate at temperatures of 220 degrees Fahrenheit and over; or

(*c*) with all pressure parts made of, or lined with, any corrosion resistant material.

Vacuum pumps (mechanical, diffusion or ejector), other than such pumps specified in Group 15 of the First Schedule to the Order, possessing either of the following characteristics:—

(*a*) designed to produce a vacuum of 50 millimetres of mercury pressure absolute or less; or

(*b*) made of, or lined with, any corrosion resistant material.

Parts of the foregoing pumps.".

In Group 6 (4), after the heading "Machines, metal working, the following:—" and the items thereunder, insert:—

"Machine tool parts and accessories, other than hand operated, of the following descriptions:—

Chucks, expanding arbors and collets.".

In Group 12 (2), after the item "Densitometers-measuring directly by photomultiplier valves", insert:—

"Dynamometers of all types capable of absorbing more than 300 B.H.P.

Furnaces, industrial, metallurgical and chemical, of the following descriptions, other than those specified in Group 15 of the First Schedule to the Order:—

Induction furnaces, vacuum metal melting, and component parts thereof.

Infra red and induction furnaces, metal annealing and heat treating, and component parts thereof.

High temperature, controlled atmosphere furnaces, and component parts thereof, for the sintering of hard metals.

Melting and refining furnaces, and component parts thereof, of the kinds used for the production of sodium, potassium, phosphorus, magnesium, calcium carbide and ferro-alloys.".

In Group 13 (1), after the item " Styrene " insert:—

" Synthetic organic chemicals of the following descriptions, of the kinds used as flotation reagents:—

Acetates of amines derived from fatty acids of natural origin whether hydrogenated or not.

Acetates of dodecylamine and its higher homologues, and mixtures thereof.

Dialkyl and diaryl dithiophosphoric acids and their salts.

Potassium alkyl xanthates.

Quaternary trimethylammonium chloride from amines prepared from soya bean fatty acids.

Sodium alkyl xanthates.".

EXPLANATORY NOTE

*(This Note is not part of the Order, but is intended to indicate its general purport.)*

This Order amends the Export of Goods (Control) Order, 1951. The principal amendments are as follows:—

(1) Licences are now required for all destinations for scaffolding tubes (new and used), indium and its compounds, phthalic acid esters and *p*-Chloronitrobenzene.

(2) Licences are now required for boron carbide, certain carbon powder, aluminium and its alloys in additional forms, calcium metal, certain types of chemical process vessels, specified pumps and parts, chucks, expanding arbors and collets, dynamometers, certain types of furnaces, and certain chemicals, for all destinations other than those specified in Part II of the Third Schedule excluding Hong Kong.

(3) Certain forms of fabricated iron and steel are now exempt from export licensing control.

## The Export of Goods (Control) Order, 1951 (Amendment No. 3) Order, 1951

### 1951 No. 1476

| | |
|---|---|
| *Made* - - - - | 11*th August*, 1951 |
| *Coming into Operation* | 20*th August*, 1951 |

The Board of Trade, in exercise of the powers conferred upon them by Section 1 of the Import, Export and Customs Powers (Defence) Act, 1939(**a**), and of all other powers enabling them in that behalf, do hereby order as follows:—

**1.** The Export of Goods (Control) Order, 1951(**b**), as amended(**c**), shall have effect as if the Third Schedule thereto were amended in the manner specified in the Schedule to this Order.

**2.**—(1) The Interpretation Act, 1889(**d**), applies to the interpretation of this Order as it applies to the interpretation of an Act of Parliament.

(a) 2 & 3 Geo. 6. c. 69.
(b) S.I. 1951 No. 1053, p. 369 above.
(c) S.I. 1951 Nos. 1060 and 1353, pp. 407–8 above.
(d) 52 & 53 Vict. c. 63.
