BASIC PRICES OF COMPOUNDS(a)

Part A

1. The basic price per ton gross including sacks(b) of any compound other than National Calf Starter shall, subject to the provisions of paragraph 3 of this Part of this Schedule (relating to National Poultry Balancer Meal), be the sum of the following amounts:—

(*a*) The cost to the manufacturer (exclusive of any costs or charges incurred by him in respect of transport) of the raw materials used in the manufacture of the compound:

Provided that in calculating such costs:—

(i) the cost of any raw material (other than oats or barley) shall not exceed any maximum or fixed price prescribed under any Order made

(a) No compound may be manufactured except in accordance with the provisions of the Feeding Stuffs (Manufacture) Order, 1949 (S.I. 1949 No. 1067), Parts II and III, or the Feeding Stuffs (Control) (Northern Ireland) Order, 1944 (S.R. & O. 1944 (No. 114) II, p. 701).

(b) *See* Sixth Schedule, paragraph 3.

(ii) the cost of oats or barley shall be an amount not exceeding the maximum price thereof (as a feeding stuff) which would be applicable on a sale for delivery to the manufacturer at the time he sells the compound. (For the avoidance of doubt such maximum price means in the case of home grown oats or home grown barley the maximum price that would be applicable on such sale thereof (as a feeding stuff) to the manufacturer by an approved buyer.);

(iii) any charge paid or payable for credit shall be excluded;

(iv) where any raw material specified in Part B of this Schedule has been processed by the manufacturer by grinding, kibbling, crushing or rolling, he may include as part of the cost of that raw material an amount not exceeding the amount applicable in accordance with such Part, so however that no such amount may be included in respect of more than one of such processes;

(v) where any raw material specified in Part B of this Schedule has been purchased by the manufacturer ground, kibbled, crushed or rolled, the cost of that raw material so processed shall not exceed an amount calculated as follows, namely—the amount which the manufacturer would be entitled to include under proviso (iv) of this sub-paragraph if that raw material had been ground, kibbled, crushed or rolled by him, added to the prescribed maximum or fixed price applicable to that raw material (unprocessed) at the time of its sale to the manufacturer or, in the case of oats or barley, to the cost thereof (unprocessed) as allowed by proviso (ii) of this sub-paragraph;

(vi) where any damaged raw material is reconditioned by the manufacturer he may include as part of the cost of that raw material a charge for reconditioning it provided that the cost of the raw material, including such charge, shall not exceed the prescribed maximum or fixed price applicable to that raw material as a feeding stuff (undamaged) at the time of its sale to the manufacturer, unless a separate basic price for that feeding stuff when damaged or reconditioned is prescribed.

(*b*) The total cost reasonably incurred by the manufacturer in respect of the transport of the raw materials to his premises.

(*c*) The cost of providing the sacks containing the compound.

(*d*) An amount not exceeding 35s. 10d.

(i) 37s. 6d. if the compound is in the form of pellets of a maximum length of not more than ½ inch and a maximum diameter of not more than $\frac{3}{16}$ inch;

(ii) 25s. 0d. if the compound is in the form of pellets other than those mentioned above or in the form of cubes or nuts;

(iii) 22s. 6d. if the compound is not in the form of pellets, cubes or nuts.

The basic price per ton net weight(**a**) of National Poultry Balancer Meal(**b**) shall be £27 15s. 0d. or the price ascertained in accordance with the provisions of paragraph 1 of this Part of this Schedule (less the cost of providing the sacks allowed under sub-paragraph (*c*) of that paragraph), whichever price is the lesser.
