6.—(1) Every seller of any scheduled feeding stuff shall, if so requested by the buyer in writing within 3 months of the delivery thereof, furnish to the buyer not later than 14 days after the receipt of such request such written particulars of any charges made by him in addition to the maximum price as the buyer shall have so requested.

(*d*) the amount by which the basic price is reduced by the seller under the Fifth Schedule to this Order, provided that, if more than one feeding stuff is specified on the invoice, the total of such amounts may be specified, and

(*e*) the basic price of the feeding stuff and each charge in addition to the maximum price made by the seller under the Sixth Schedule to this Order or, alternatively, the sum of the basic price and all or any such charges in addition to the maximum price, provided that in the latter case he shall specify as separate items each such charge made by him under the said Sixth Schedule for—

(i) credit (paragraph 2 of that Schedule),
(ii) sacks (paragraph 3 of that Schedule),
(iii) small lots (paragraph 8 (2) of that Schedule) and
(iv) handling (paragraph 9 of that Schedule).

(vi) any kitchen waste for which a maximum price is prescribed by the Kitchen Waste Order, 1949(b).

(*b*) to the purchase by or sale to a licensed mixer of any feeding stuff for the manufacture of National Pigeon Mixture.

10.—(1) In any proceedings in respect of an infringement of this Order, the production by one of the parties of (i) a document purporting to be a certificate of a public analyst or the Government Chemist or (ii) a document supplied to him by the other party as being a copy of such a certificate shall be sufficient evidence of the facts stated therein, unless in the case mentioned under head (i) above the other party requires that the person making the analysis shall be called as a witness.

(2) In any such proceedings—

(*a*) if the prosecution intends to produce a certificate of a public analyst or the Government Chemist a copy of that certificate shall be served with the summons; and

(*b*) if a defendant intends to produce a certificate of a public analyst or the Government Chemist, or to require that the person making the analysis shall be called as a witness, he shall give to the other party at least three clear days' notice of his intention;

and if any of these requirements is not complied with, the Court may, if it thinks fit, adjourn the hearing on such terms as it deems proper.

11. Infringements of this Order are offences against the Defence (General) Regulations, 1939.

12. For the avoidance of doubt it is hereby declared that nothing contained in this Order shall be construed as relieving any person from compliance with any other Order of the Minister for the time being in force.

13.—(1) The provisions of this Order are subject to any directions which may at any time be given by or on behalf of the Minister or to any authorisation or licence which may be granted by or on behalf of the Minister under this Order.

THE FIFTH SCHEDULE

(For new Fifth Schedule substit. by S.I. 1950 No. 2018 *see* p. 601 below.)

THE SIXTH SCHEDULE(*b*)

CHARGES WHICH MAY BE MADE BY THE SELLER IN ADDITION TO THE MAXIMUM PRICES

1. *Transport*

The maximum prices are fixed on the basis that the cost of transport after delivery at the quay, importer's warehouse, farm or manufacturer's premises, as the case may be, is for the account of the ultimate buyer and accordingly the seller may charge, in addition to the maximum price, a sum not exceeding the reasonable and actual cost paid or incurred by him in respect of such transport:

Provided that—

(*a*) instead of charging the reasonable and actual cost paid or incurred by him in respect of transport, the seller may charge an average or flat rate of such amount and subject to such conditions as may be specified in an authority given by the Minister or as the case may be the Ministry of Agriculture for Northern Ireland;

(*b*) the maximum price of any specified feeding stuff set out in Part G of the Second Schedule shall include all costs and charges of and incidental to delivery free on vehicle at the manufacturer's premises and no additional charge shall be made in respect of such delivery;

(*c*) in the case of screenings specified in Part A of the Second Schedule no charge in respect of transport shall be made except in respect of transport after delivery of the screenings at the premises where they were screened;

Note—(*a*) See Sixth Schedule, paragraph 3.

Note—(*b*) This Schedule does not apply to sales of National Poultry Balancer Meal to consumers. For the maximum price on such sales see the Ninth Schedule.

(*d*) no charge in respect of transport from his premises shall be made by the seller on a sale to a consumer, whose premises are less than 25 miles distant from the premises of the seller, of 1 cwt. or less of any scheduled feeding stuff, except that where such transport is provided by the seller at the request of the buyer, a charge may be made in accordance with the following scale:—

SCALE OF CHARGES

(*b*) Where in addition to mixing any grains or pulses or grains and pulses as aforesaid the seller at the request of the buyer cleans them before, during or after mixing a charge may be made at a rate not exceeding 5s. per ton of the mixture.

(*c*) Where at the request of the buyer the seller mixes any feeding stuffs in the form of a meal (including any flaked, rolled or ground feeding stuffs) a charge for such mixing may be made at a rate not exceeding 10s. per ton of the mixture (such rate not to be exceeded whether or not the mixture constitutes a compound).

APPENDIX

How to Calculate the Maximum Price per cwt.

Section A

If you bought the feeding stuff in non-returnable sacks

(*b*) deduct any charge (per ton) for handling made by your supplier;
(*c*) deduct any charges (per ton) made by your supplier for sales in small lots and for packing in quantities of less than 1 cwt.;
(*d*) add any transport charges (per ton) to your shop or store incurred by you over and above those made by your supplier;
(*e*) convert to a cwt. figure and to that figure add 1s. 3d. (the maximum permitted addition for 1 cwt. lots).

3. The maximum price on a sale of 1 cwt. of the feeding stuff shall be the amount arrived at in accordance with the above calculations.

Section B

If you bought the feeding stuff in returnable sacks

1. First ascertain the basic price plus all permitted additions (per ton) charged by your supplier (this figure you should be able to calculate from your supplier's invoice).

2. Next—

(*b*) deduct any charge (per ton) for handling made by your supplier;
(*c*) deduct any charges (per ton) made by your supplier for sales in small lots and for packing in quantities of less than 1 cwt.;
(*d*) deduct any sack deposit or hire charges (per ton) made by your supplier;
(*e*) add any transport charges (per ton) to your shop or store incurred by you over and above those made by your supplier;
(*f*) convert to a cwt. figure.
(*g*) to the cwt. figure add the maximum charge per cwt. for non-returnable sacks permitted in accordance with the Second or Sixth Schedule to this Order, as the case may be;
(*h*) add 1s. 3d. (the maximum permitted addition for 1 cwt. lots).

3. The maximum price on a sale of 1 cwt. of the feeding stuff shall be the amount arrived at in accordance with the above calculations.

Section C

If you manufactured or processed the feeding stuff

1. First ascertain the basic price per ton.

2. Next—

(*a*) add any charge (per ton) for transport permitted under the Sixth Schedule;
