THIRD SCHEDULE

MANUFACTURER'S BASIC COSTS

Matters to be regarded in ascertaining costs

1. Cost of the provision of materials.

2. Cost of labour being all wages directly incurred in the production of the article.

3. Cost of delivery of footwear and cost of cartons.

4. Machinery royalties (not including rent of machinery).

EXPLANATORY NOTE

(This Note is not part of the Order, but is intended to indicate its general purport.)

This Order supersedes the current Orders controlling the supply and marking of footwear by manufacturers and manufacturers' maximum prices for utility footwear.

The principal changes are as follows:—

(*a*) footwear supplied by or for export need no longer bear the manufacturer's identification number;

(*b*) manufacturers' maximum prices for utility footwear are now based solely on the prices specified in the First Schedule, hitherto they have been based on "cost plus" with an overriding maximum ("ceiling") price; and maximum prices are now provided for certain main groups of descriptions, each description within the same group being subject to the same maximum price irrespective of size, whereas, formerly, separate "ceiling" prices were provided for each description of footwear (and, in some cases, for different sizes);

(*c*) the new maximum prices for footwear of Grades 1 and 2 are higher than the former "ceiling" prices;

(*d*) the percentage additions for the wider fittings and larger sizes have been increased;

(*e*) manufacturers are no longer required to give discounts on sales to distributors.
