EXPLANATORY NOTE

(This note is not part of these regulations, but is intended to indicate their general purport.)

The Gas (Meter) Regulations, 1949, prescribed (inter alia) the fees to be paid to the Minister of Fuel and Power for the examination of meters.

These regulations substitute a simpler scale of fees for the fees there prescribed. None of the new fees can exceed £20, and, accordingly, the Gas (Meter) (Amendment) Regulations, 1949 (by which such fees were limited to a maximum of £20) are revoked.

The Gas (Quality) (Amendment) Regulations, 1951

1951 No. 2287

Made - - - -	21*st December,* 1951
Laid before Parliament	21*st December,* 1951
Coming into Operation	1*st January,* 1952

The Minister of Fuel and Power, after consultation with the Gas Council, in exercise of the powers conferred upon him by section fifty-five of the Gas Act, 1948(**a**), and of all other powers him enabling, hereby makes the following regulations:—

1. In the Gas (Quality) Regulations, 1949(**b**), the following regulation shall be substituted for regulation three:—

"3. Subject as aforesaid, no area board shall supply any gas which does not possess a distinctive smell."

(a) 11 & 12 Geo. 6. c. 67. (b) S.I. 1949 (No. 792) I, p. 1989.

2. These regulations shall come into operation on the first day of January, nineteen hundred and fifty-two, and may be cited as the Gas (Quality) (Amendment) Regulations, 1951.

Dated this twenty-first day of December, nineteen hundred and fifty-one.

Geoffrey Lloyd,
Minister of Fuel and Power.

EXPLANATORY NOTE

(This note is not part of these regulations, but is intended to indicate their general purport.)

The Gas (Quality) Regulations, 1949, which prescribed standards of pressure and purity to be complied with by gas boards, re-enacted a requirement made by the Gas (Carbon Monoxide) Order, 1922, that gas which contained carbon monoxide should have the distinctive pungent smell of coal gas which gave early warning of escapes and leakages.

Certain other types of gas are now being supplied which do not contain carbon monoxide. These regulations amend the Gas (Quality) Regulations, 1949, so as to require all gas supplied by gas boards to have a distinctive smell.
