EXPLANATORY NOTE

(This Note is not part of the Scheme, but is intended to indicate its general purport.)

The White Fish and Herring Industries Act, 1953, as amended by the White Fish and Herring Industries Act, 1957, provides that a Scheme may be made for the payment by the White Fish Authority or the Herring Industry Board, as appropriate, of grants to persons engaged or proposing to become engaged in the white fish or herring industries in respect of expenditure incurred in the conversion from coal-firing to oil-firing of the boilers of fishing vessels and the replacement of coal-consuming engines on fishing vessels by engines which do not consume coal.

In order to qualify for grant the fishing vessel concerned must not exceed 140 feet in registered length, and the contract for the supply of the engine or the execution of the work of conversion must have been made after 17th April, 1957, and the application approved before 31st March, 1961.

This Scheme, made by the Minister of Agriculture, Fisheries and Food, and the Secretary of State for Scotland, with the approval of the Treasury, relates to Great Britain. It provides for the payment of a grant of 25 per cent. of the cost of conversion, subject to a maximum grant of £7,500 for the conversion of the engine-boilers of a vessel from coal to oil-firing, and of £10,000 for the replacement of a coal-burning engine by one which does not burn coal. The Scheme provides that applications for grant shall be made not later than 30th November, 1960, or such later date up to 31st January, 1961, as the White Fish Authority or the Herring Industry Board may allow. It also contains provisions about the manner in which applications may be made and the conditions under which the grants will be paid.

As required by Section 5 of the White Fish and Herring Industries Act, 1957, this Scheme was approved by a resolution of the House of Lords on 27th June, 1957, and a resolution of the House of Commons on 3rd July, 1957.

(*b*) days spent during a voyage in any port shall be excluded in calculating the number of days at sea in that voyage.

(2) The calculation made by the appropriate Minister for the purposes of this scheme of the number of days at sea in any voyage and the length of such voyage, shall be final.

(3) For the purpose of computing the amount of grant payable in respect of herring landed from vessels in Category A, the weight of the fish shall be the weight determined at the time of the first-hand sale.

10. Notwithstanding the provisions of Article 8 of this scheme, if any structural alteration is made to any vessel which will increase its length, grant may be paid at the rate appropriate to the length of the vessel before the alteration was carried out, unless the appropriate Minister has previously agreed in writing to pay at the rate appropriate to the length of the vessel after the alteration was carried out.
