SCHEDULE

In the scheme set out in the Schedule to the Import Duties (Drawback) (No. 4) Order, 1951, paragraph 3 and the Table therein referred to shall be omitted, and in place of that paragraph there shall be inserted the following paragraph:—

"3.—(1) The material shall be divided into categories based on value at importation, with a separate rate of drawback for each category, in such a way that for material of any category the drawback shall be at a rate per ton equal to £17 for the first £68 a ton of the value of that material at importation, with an additional £2 for any complete £8 a ton of that value above £68.

(2) In the case of fractions of a ton the amount of the drawback shall be calculated proportionately."

EXPLANATORY NOTE

*(This Note does not form part of the Order, but is intended to indicate its general purport.)*

This Order amends the Scheme approved by the No. 4 Order of 1951, which allowed drawback on the exportation, etc., of certain open-topped cans, and tops for them, in respect of imported sheets of tinned plate used in their manufacture.

The highest rate of drawback has hitherto been £25 per ton for sheets of which the value at importation was not less than £100 per ton. This Order introduces a sliding scale under which the rate increases by £2 per ton for every additional £8 per ton of the value at importation.
