This Order alters the rates of duty chargeable under the Import Duties Act, 1932, on importations of fresh plums and strawberries, and of nurserymen's stock (viz., trees, bushes, shrubs and plants) and cut flowers and foliage. The duties on certain goods have been increased and in some cases adjustments have been made in the periods during which the duties are operative; for other goods the specific duties hitherto in operation have been allowed to lapse, and the ordinary 10 per cent. general ad valorem duty restored. The new rates are those set out in the Schedules to the Order.
