Removal of existing duty (16⅔%) *on reed organs qualifying for preference*

8. In heading No. 92.03 the rates of duty in the second and third columns shall be omitted, and there shall be added in the first column the following sub-headings—

"(A) Reed organs, including harmoniums
(B) Other"

with, in each of those sub-headings, a rate of duty in the second column of 25% and, in sub-heading (B), a rate of duty in the third column of 16⅔%.

EXPLANATORY NOTE

(This Note is not part of the Order, but is intended to indicate its general purport.)

This Order varies the rates of import duty chargeable under the Import Duties Act, 1958, on certain goods and also provides for a change in classification of certain additives for mineral oils, as shown in the Schedule to this Order. The only increase in duty is on pencil slats of coniferous wood. On the other goods the changes made are reductions or removals of duty: in the case of platinum catalysts the reduction is made by substituting a specific duty of lower incidence than the ad valorem duty currently chargeable, and in the case of reed organs the duty removed is the preferential duty.
