EXPLANATORY NOTE

(*This Note is not part of the Order, but is intended to indicate its general purport.*)

This Order varies the rates of import duty chargeable under the Import Duties Act, 1958, on certain goods, as shown in the third column of the Schedule to the Order. The only increase in duty is on glass barrelled hypodermic syringes. On the other goods, the changes made are reductions or removals of duty; (in the case of cellulose acetate scrap and waste, the reduction is made by substituting an ad valorem duty of lower incidence than the specific duty currently chargeable).
