STATUTORY INSTRUMENTS

1975 No. 2076

CUSTOMS AND EXCISE

The Import Duties (Temporary Reductions and Exemptions) (No. 23) Order 1975

Made - - - -	*8th December* 1975
Laid before the House of Commons - - -	*11th December* 1975
Coming into Operation	*1st January* 1976

The Lords Commissioners of Her Majesty's Treasury, by virtue of the powers conferred on them by sections 1, 2, 3(6) and 13 of the Import Duties Act 1958(**a**), as amended by section 5(5) of, and paragraph 1 of Schedule 4 to, the European Communities Act 1972(**b**), and of all other powers enabling them in that behalf, on the recommendation of the Secretary of State(**c**), hereby make the following Order:—

Citation, operation, interpretation

1.—(1) This Order may be cited as the Import Duties (Temporary Reductions and Exemptions) (No. 23) Order 1975 and shall come into operation on 1st January 1976.

(2) In this Order—

"certificated for the first time" before a particular date in relation to an aeroplane or helicopter means "where a type certificate has been made in respect of the aeroplane or helicopter by a competent authority of a member State of the European Communities before that date";

"type" in relation to an aeroplane or helicopter includes any version of an aeroplane or helicopter having an identical wing span and area, length of fuselage, maximum all-up weight and engine;

"unladen weight" has the same meaning as in subheading 88.02 B.

(3) In this Order unless the context otherwise requires a reference to a heading or subheading is a reference to a heading or subheading of the Customs Tariff 1959.

(4) The Interpretation Act 1889(**d**) shall apply for the interpretation of this Order as it applies for the interpretation of an Act of Parliament.

The full rate

2.—(1) Subject to Article 7, up to and including 31st December 1976, in the case of goods which fall within a heading specified in column 1 of Part I of Schedules 1 or 2 or column 1 of Schedules 4, 5 or 6 hereto and are of a description specified in column 2 thereof:

(*a*) if a rate of duty is shown in column 3 of Schedules 1, 2, 4 or 6 in relation to the goods and the description of aircraft specified in column 8 of Part I of Schedules 1 or 2 or in columns 8 or 9 of Schedule 4 or is shown in column 3 or 4 of Schedule 5 in relation to the goods and the description of aircraft specified in the heading to the said columns, import duty shall be charged at that rate instead of any higher rate which would otherwise apply; and

(*b*) if the entry "free" appears in any of the said columns in relation to the goods no import duty shall be charged.

(**a**) 1958 c. 6. (**b**) 1972 c. 68. (**c**) *See* S.I. 1970/1537 (1970 III, p. 5293).
(**d**) 1889 c. 63.

(2) Paragraph (1) above shall operate without prejudice to any exemptions or greater reductions provided for by the following Articles of this Order.

Cyprus, Egypt, Greece, Morocco and Tunisia

3.—(1) Subject to Article 7, up to and including 31st December 1976, any import duty for the time being chargeable on goods which fall within a heading specified in column 1 of Part I of Schedules 1 or 2 or column 1 of Schedule 4 hereto and are of a description specified in column 2 thereof shall be charged:

(*a*) at the rate, if any, shown in column 4 thereof in relation to the goods and the description of aircraft specified in column 8 of Part I of Schedules 1 or 2 or in columns 8 or 9 of Schedule 4 if the goods originate in Greece, Morocco or Tunisia;

(*b*) at the rate, if any, shown in column 5 thereof in relation to the goods and the description of aircraft specified in column 8 of Part I of Schedules 1 or 2 or in columns 8 or 9 of Schedule 4 if the goods originate in Egypt; or

(*c*) at the rate, if any, shown in column 7 thereof in relation to the goods and the description of aircraft specified in column 8 of Part I of Schedules 1 or 2 or in columns 8 or 9 of Schedule 4 if the goods originate in Cyprus.

(2) For the purposes of paragraph (1) above goods shall be regarded as originating:

(*a*) in Cyprus if they are to be so regarded under the Agreement, signed on 19th December 1972, between the European Economic Community and Cyprus(**a**);

(*b*) in Egypt if they are to be so regarded under the Agreement, signed on 18th December 1972, between the European Economic Community and Egypt(**b**);

(*c*) in Greece if they are to be regarded as being in free circulation in Greece under Article 7 of the Agreement, signed on 9th July 1961, establishing an association between the European Economic Community and Greece(**c**), as modified by the Additional Protocol, signed on 28th April 1975, between the European Economic Community and Greece(**d**);

(*d*) in Morocco if they are to be so regarded under the Agreement, signed on 31st March 1969, between the European Economic Community and Morocco(**e**);

(*e*) in Tunisia if they are to be so regarded under the Agreement, signed on 28th March 1969, between the European Economic Community and Tunisia(**f**).

The Commonwealth preference area

4. Subject to Article 7, up to and including 31st December 1976, in the case of goods which fall within a heading specified in column 1 of Part I of Schedules 1 or 2 or column 1 of Schedules 4, 5 or 6 hereto and are of a description specified in column 2 thereof if the goods qualify for Commonwealth preference and a rate of duty is shown in column 6 of Part I of Schedules 1 or 2, column 6 of Schedule 4, column 5 of Schedule 5 or column 4 of Schedule 6 in relation to the

(**a**) The Agreement is annexed to Regulation (EEC) 1246/73 (O.J. No. L133, p.1).
(**b**) The Agreement is annexed to Regulation (EEC) 2409/73 (O.J. No. L251, p.1).
(**c**) The Agreement is annexed to Regulation (EEC) 63/106 (O.J. No. 26, 18.2.1963, p. 293/63).
(**d**) *See* O.J. No. 123, 15.5.1975, p.1.
(**e**) The Agreement is annexed to Regulation (EEC) 2285/73 (O.J. No. L239, 27.8.1973, p. 1).
(**f**) The Protocol is annexed to Regulation (EEC) 2286/73 (O.J. No. L239, 27.8.1973, p. 105).

goods, import duty shall be charged at that rate instead of any higher rate which would otherwise apply and if the entry " free " appears in any of the said columns in relation to the goods, no import duty shall be charged.

Turkey

5.—(1) Up to and including 31st December 1976, no import duty shall be charged on goods which fall within a heading specified in column 1 of Part I of Schedules 1 or 2 or column 1 of Schedules 4, 5 or 6 and are of a description specified in column 2 thereof if the goods originate in Turkey.

(2) For the purposes of paragraph (1) above goods shall be regarded as originating in Turkey if they are to be so regarded, or are to be regarded as in free circulation in Turkey, under—

(i) the Additional Protocol to the Agreement establishing an Association between the European Economic Community and Turkey(**a**), or

(ii) the Decision of the Association Council No. 4/72 of 29th September 1972 annexed to Regulation (EEC) 428/73(**b**).

Miscellaneous exemptions

6.—(1) Subject to Article 7, up to and including 31st December 1976, no import duty shall be charged on goods which fall within a heading specified in column 1 of Part II of Schedules 1 or 2 hereto and are of a description specified in column 2 thereof.

(2) Up to and including 31st December 1976, no import duty shall be charged on goods which fall within a heading specified in column 1 of Schedule 3, are of a description specified in column 2 thereof and are imported for the purpose of being used for the maintenance or repair of aeroplanes built outside the United Kingdom of an unladen weight exceeding 15,000 kilogrammes other than the European Airbus, Mercure, Concorde and F28 provided that—

(*a*) in the case of goods which fall within headings 85.22, 90.14, 90.28 or 90.29, they are imported for the purpose of being used for the maintenance or repair of aeroplanes of a type certificated for the first time in a member State of the European Economic Community before 1st January 1973 and of a type of aeroplane first used before that date for the carriage of passengers or cargo, or

(*b*) in the case of goods which fall within heading 85.15 other than H.F. transmitter-receivers and parts and weather radar apparatus complying with specification ARINC 564 and parts, they are imported for the purpose of being used for the maintenance or repair of aeroplanes of a type certificated for the first time in a member State of the European Economic Community before 1st January 1973 and of a type of aeroplane first used before that date for the carriage of passengers or cargo.

(3) Up to and including 31st December 1976, no import duty shall be charged on goods which are imported for the purpose of being used for the construction, maintenance or repair of the Concorde aeroplane or of any part thereof, and of being incorporated in it, if they satisfy the requisite conditions to benefit from Regulation (EEC) 385/73(**c**) (relating to goods entitled to benefit from the eventual abolition of customs duties in trade between member States of the European Communities).

Miscellaneous

7.—(1) Articles 2, 3, 4 and 6(1) shall not apply to goods:

(*a*) which fall within a heading specified in column 1 of Part I or II of Schedule 1, unless they are imported for the purpose of being used for the construction of the description of aeroplanes of an unladen

(**a**) The Protocol is annexed to Regulation (EEC) 2760/72 (O.J. No. L293, 29.12.1972, p.1).
(**b**) O.J. No. L59, 5.3.1973, p.73. (**c**) O.J. No. L42, 14.2.1973, p.1.

weight exceeding 15,000 kilogrammes specified in column 8 or 3 thereof respectively in relation to the description of goods specified in column 2 thereof;

(*b*) which fall within a heading specified in column 1 of Part I or II of Schedule 2, unless they are imported for the purpose of being used for the maintenance or repair of the aeroplanes of an unladen weight exceeding 15,000 kilogrammes of the description specified in column 8 or 3 thereof respectively in relation to the description of goods specified in column 2 thereof;

(*c*) which fall within a heading specified in column 1 of Schedule 4, unless they are imported for the purpose of being used for the maintenance or repair of aeroplanes or helicopters of an unladen weight exceeding 2,000 kilogrammes but not exceeding 15,000 kilogrammes specified in columns 8 or 9 and unless, in the case of goods which fall within heading 85.15, or sub-headings 90.28A or 90.29A other than fuel gauges and parts and electronic timers used in de-icing systems and parts, they are imported for the purpose of being used for the maintenance or repair of aeroplanes or helicopters of a type certificated for the first time before 1st January 1973 and of a type of aeroplane or helicopter first used before that date for the carriage of passengers or cargo;

(*d*) which fall within a heading specified in column 1 of Schedule 5, unless they are imported for the purpose of being used for the construction in a member State of the European Economic Community of aeroplanes or helicopters or for the purpose of being used for the maintenance or repair of

(i) aeroplanes or helicopters built in a member State of the European Economic Community, or

(ii) other aeroplanes of an unladen weight exceeding 15,000 kilogrammes.

(2) Articles 3 and 4 above shall operate without prejudice to any reliefs from import duty to which any goods therein referred to may be entitled as goods of developing countries or otherwise.

(3) In the case of goods to which both Articles 3 and 4 above apply (as goods originating in Cyprus), each of those Articles shall operate without prejudice to any exemption from, or greater reduction in, duty which may be available by virtue of the other.

(4) Any description of goods in column 2 of any Schedule to this Order shall be taken to comprise all goods which would be classified under an entry in the same terms constituting a subheading in the relevant heading of the Customs Tariff 1959.

(5) For the purposes of classification under the Customs Tariff 1959, in so far as that depends on the rate of duty, any goods to which this Order applies shall be treated as chargeable with the same duty as if this Order had not been made.

(6) Where any import duty for the time being chargeable on any goods has been removed or reduced by a directly applicable Community provision the import duty shall, to the extent of that removal or reduction, not be regarded as removed or reduced by virtue of this Order and the reference to it in the Schedules hereto shall be treated as merely indicative of the rate of import duty payable in respect of the goods.

Donald R. Coleman,
James A. Dunn,
Two of the Lords Commissioners of
Her Majesty's Treasury.

8th December 1975.

SCHEDULE 1

Goods imported for use in the construction of certain aeroplanes of an unladen weight exceeding 15,000 kg.

Part I

Tariff Heading	Description	Rates of Duty					Aeroplanes
		Full	Greece; Morocco; and Tunisia	Egypt	Cl	Cyprus	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
39.07	Articles of materials of the kinds described in headings Nos. 39.01 to 39.06: E. of other materials: II Other: ex (g) Other: —flexible tubes and bellows of reinforced silicon	13·3%	2%	6%	10·6%	4%	European Airbus
73.20	Tube and pipe fittings (for example, joints, elbows, unions and flanges), of iron or steel	3·4% Free	3·4%	3·4%	Free	3·4%	British built Other
ex 76.03	Wrought plates, sheets and strip of aluminium, of a thickness exceeding 0·20 mm.: —pre-drawn plates and sheets of variable thickness, of a thickness of 8 mm. or more, and less than 180 mm.	9·3%	1·6%	5·5%	7·4%	2·8%	European Airbus
83.07	Lamps and lighting fittings, of base metal, and parts thereof, of base metal (excluding switches, electric lamp holders, electric lamps for vehicles, electric battery or magneto lamps and other articles falling within Chapter 85 except heading No. 85.22)	1·6% Free	1·6%	1·6%	Free	1·6%	British built Other
ex 83.09	Clasps, frames with clasps for handbags and the like, buckles, buckle-clasps, hooks, eyes, eyelets, and the like, of base metal of a kind commonly used for clothing, travel goods, handbags, or other textile or leather goods; tubular rivets and bifurcated rivets, of base metal: —bifurcated rivets —tubular rivets	6·7% 5·8%	2·5% 1·6%	3% 2·6%	4·2% 4·2%	2·5% 1·7%	F.28 F.28

		Full	Greece; Morocco; and Tunisia	Egypt	C1	Cyprus	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
85.15	Radiotelegraphic and radiotelephonic transmission and reception apparatus; radio broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras; radio navigational aid apparatus, radar apparatus and radio remote control apparatus:						
	Ex B. Other apparatus:						
	—VOR and ILS navigation equipment complying with standard ARINC 547	8%	3%	3·6%	6·4%	3%	F.28

SCHEDULE 1

Part II

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
38.19	Chemical products and preparations of the chemical or allied industries (including those consisting of mixtures of natural products), not elsewhere specified or included; residual products of the chemical or allied industries, not elsewhere specified or included:	
	ex P. Preparations known as "liquids for hydraulic transmission" (for example, hydraulic brake fluids) not containing or containing less than 70% by weight of petroleum oils or oils obtained from bituminous minerals:	
	—hydraulic fluids with a phosphoric ester or silicate ester base	All aeroplanes
39.02	Polymerization and copolymerization products (for example, polyethylene, polytetrahaloethylenes, polyisobutylene, polystyrene, polyvinyl chloride, polyvinyl acetate, polyvinyl chloroacetate and other polyvinyl derivatives, polyacrylic and polymethacrylic derivatives, coumarone-indene resins):	
	C. Other:	
	VI. Polystyrene and its copolymers:	
	ex (b) In other forms:	
	—acrylonitrile butadiene styrene, in sheets specially designed for lining the internal walls of aeroplanes	European Airbus; F.28
	VII. Polyvinyl chloride:	
	ex (a) in one of the forms mentioned in Note 3 (a) and (b) to this Chapter:	
	—approved for aircraft construction, and in the form of granules	European Airbus
	ex (b) in other forms:	
	—in sheets specially designed for lining the internal walls of aeroplanes	European Airbus
	ex VIII. Polyvinylidene chloride, copolymers of vinylidene chloride with vinyl chloride:	
	—in sheets specially designed for lining the internal walls of aeroplanes	European Airbus
	XIV. Other polymerization or copolymerization products:	
	ex (a) in one of the forms mentioned in Note 3(a) and (b) to this Chapter:	
	for cavity filling	European Airbus
39.07	Articles of materials of the kinds described in heading Nos. 39.01 to 39.06:	
	E. of other materials:	
	II. Other:	
	ex (g) Other:	
	—flexible polytetrafluoroethylene pipes for the hydraulic or fuel systems	European Airbus; Concorde; Mercure

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
62.05	Other made-up textile articles (including dress patterns): ex C. Other: —passenger escape chutes	 European Airbus
ex 70.08	Safety glass consisting of toughened or laminated glass, shaped or not: —Laminated glass panels of high temperature resistance, used for the cockpit visor	 Concorde
70.20	Glass fibre (including wool), yarns, fabrics, and articles made therefrom: ex A. Non-textile fibre and articles made therefrom: —superfine glass fibre of low moisture absorption capacity	 European Airbus; Mercure; F.28; Concorde
73.18	Tubes and pipes and blanks therefor, of iron (other than of cast iron) or steel, excluding high-pressure hydro-electric conduits: ex C. Other: —Tubes for the hydraulic system, of steel 21.6.9 complying with Deutsche Airbus Standard DAN 41/BMS 7185	 European Airbus
73.40	Other articles of iron or steel: B. Other: ex III. Other: —devices for stowing and clamping freight —ball races used in freight loading systems	 European Airbus European Airbus
ex 76.02	Wrought bars, rods, angles, shapes and sections, of aluminium; aluminium wire: —Square angles —Conical shapes for reinforcing lateral rudders	 F.28 European Airbus
ex 76.03	Wrought plates, sheets and strip of aluminium, of a thickness exceeding 0·20 mm: —alloy plates, and sheets of variable thickness formed by lamination for widths of 1,200 mm or more	 F.28
ex 76.16	Other articles of aluminium: ex D. Other: —quick-change apparatus for converting passenger aeroplanes into freight aeroplanes and vice versa	 F.28
81.04	Other base metals, unwrought or wrought, and articles thereof; cermets, unwrought or wrought, and articles thereof: K. Titanium: ex II. Other: —thin-walled tubes ready for use in ventilation and air-conditioning systems	 European Airbus; Mercure

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
84.08	Other engines and motors: B. Gas turbines: ex II. Other: —of a power exceeding 360 KW	European Airbus; Mercure; F.28
84.10	Pumps (including motor pumps and turbo pumps) for liquids, whether or not fitted with measuring devices; liquid elevators of bucket, chain, screw, band and similar kinds: B. Other pumps: ex I. Pumps having a pressure capacity of 20 bars or more: —having a pressure capacity of 200 bars or more	European Airbus; Mercure; F.28
	ex III. Parts: —of pumps referred to in B. ex I. above	European Airbus; Mercure; F.28
ex 84.12	Air-conditioning machines, self-contained, comprising a motor-driven fan and elements for changing the temperature and humidity of air: —Air-conditioning machines, with or without refrigerating apparatus, exceeding 5,000,000 calories per hour	European Airbus; Mercure
84.15	Refrigerators and refrigerating equipment (electrical and other): ex B. Other: —refrigerating equipment for incorporation in the air-conditioning system	F.28
84.17	Machinery, plant and similar laboratory equipment, whether or not electrically heated, for the treatment of materials by a process involving a change of temperature such as heating, cooking, roasting, distilling, rectifying, sterilizing, pasteurizing, steaming, drying, evaporating, vapourizing, condensing or cooling, not being machinery or plant of a kind used for domestic purposes; instantaneous or storage water heaters, non-electrical: ex C. Heat exchange units: —of the constant speed drive system and of the air-conditioning system	European Airbus; Mercure
ex 84.21	Mechanical appliances (whether or not hand operated) for projecting, dispersing or spraying liquids or powders; fire extinguishers (charged or not); spray guns and similar appliances; steam or sand blasting machines and similar jet projecting machines: —built-in fire extinguishers for jet engines and auxiliary power units, and their parts	European Airbus; Mercure; F.28
	– built-in fire extinguishers for the cargohold	European Airbus

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
84.22	Lifting, handling, loading or unloading machinery, telphers and conveyors (for example, lifts, hoists, winches, cranes, transporter cranes, jacks, pulley tackle, belt conveyors and teleferics), not being machinery falling within heading No. 84.23:	
	ex D. Other:	
	—Clamp jacks	European Airbus; Mercure
	—Built-in apparatus used for loading, unloading and stowing freight	European Airbus; Mercure
84.59	Machines and mechanical appliances, having individual functions, not falling within any other heading of this Chapter:	
	ex E. Other:	
	—Air humidifiers and dehumidifiers and their parts	European Airbus; Mercure; F.28
	—Windscreen wipers and their parts	F.28
	—Toilet units specially designed for aeroplanes	European Airbus; Concorde; Mercure; F.28
	—Hydraulic servo motors	F.28
	—Hydro pneumatic spherical batteries	European Airbus; Mercure; F.28
	—Pneumatic starters for jet engines	European Airbus
84.61	Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats and the like, including pressure reducing valves and thermostatically controlled valves:	
	A. Pressure reducing valves	F.28
	ex B. Other:	
	—valves used in air-conditioning and cabin pressurization systems	European Airbus; Mercure; F.28
	—valves used in the fire protection system	European Airbus; Mercure; F.28
	—valves used in the fresh water circulation and effluent disposal systems	European Airbus; Mercure; F.28
ex 84.62	Ball, roller or needle roller bearings:	
	—bearings used in freight loading systems	European Airbus
ex 84.63	Transmission shafts, cranks, bearing housings, plain shaft bearings, gears and gearing (including friction gears and gear-boxes and other variable speed gears), flywheels, pulleys and pulley blocks, clutches and shaft couplings:	
	—constant speed drive apparatus	European Airbus; Mercure; F.28
85.01	Electrical goods of the following descriptions: generators, motors, converters (rotary or static), transformers, rectifiers and rectifying apparatus, inductors:	
	A. Generators, motors (whether or not equipped with speed reducing, changing or step-up gear) and rotary converters:	

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
85.01 —*contd.*	ex II. Other:	
	—high speed alternators (exceeding 3,600 r.p.m.)	European Airbus; Mercure; F.28
	—electric motors with speed reducers for freight loading systems	European Airbus
	—500 watt, 28 volt D.C. electric motor for operating the freight door	F.28
	—generator for the anti-skid device incorporated in the undercarriage	F.28; Concorde; European Airbus; Mercure
	ex B. Transformers, static converters, rectifiers and rectifying apparatus; inductors:	
	—static converter of a power of 250 watts converting a direct current of 28 volts to an alternating current of 115 volts	F.28
	—transformer-rectifier with a direct current output of 100 amperes at 28 volts D.C.	F.28
	ex C. Parts:	
	—of high speed alternators (exceeding 3,600 r.p.m.)	European Airbus; Mercure; F.28
	—of electric motors with speed reducers for freight loading systems	European Airbus
	—of generators of the anti-skid device incorporated in the undercarriage	Concorde; F.28; European Airbus; Mercure
	—of the other apparatus referred to in A and B above	F.28
85.15	Radiotelegraphic and radiotelephonic transmission and reception apparatus; radio broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras; radio navigational aid apparatus, radar apparatus and radio remote control apparatus:	
	A. Radiotelegraphic and radiotelephonic transmission and reception apparatus; radio-broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras:	
	ex II. Transmitter-receivers:	
	—H.F. transmitter-receiver apparatus	European Airbus; Mercure; F.28; Concorde
	ex B. Other apparatus:	
	—Meteorological all weather radar complying with standard ARINC 564	European Airbus; Concorde; F.28; Mercure
	C. Parts of the goods of subheadings A and B above:	

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
85.15 —*contd.*	ex III. Other:	
	—VOR LOK aerials for apparatus complying with specification ARINC 547	F.28
	—Aerial couplers for H.F. transmitter-receiver apparatus	European Airbus; Concorde; F.28; Mercure
ex 85.17	Electric sound or visual signalling apparatus (such as bells, sirens, indicator panels, burglar and fire alarms), other than those of heading No. 85.09 or 85.16:	
	—warning apparatus for protection against fire	European Airbus; F.28
	—smoke detectors	Mercure; Concorde; F.28
	—anti-collision flash lights	All aeroplanes
85.19	Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits, or for making connections to or in electrical circuits (for example, switches, relays, fuses, lightning arresters, surge suppressors, plugs, lampholders and junction boxes); resistors, fixed or variable (including potentiometers), other than heating resistors; printed circuits; switchboards (other than telephone switchboards) and control panels:	
	ex A. Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits, or for making connections to or in electrical circuits:	
	—switches used in the freight-loading auxiliary power unit and emergency lighting systems	European Airbus; Mercure; F.28
90.24	Instruments and apparatus for measuring, checking or automatically controlling the flow, depth, pressure or other variables of liquids or gases, or for automatically controlling temperature (for example, pressure gauges, thermostats, level gauges, flow meters, heat meters, automatic ovendraught regulators), not being articles falling within heading No. 90.14:	
	ex C. Other:	
	—Pneumatic regulators used in air-conditioning and cabin pressurization systems	European Airbus; Mercure
90.28	Electrical measuring, checking, analyzing, or automatically controlling instruments and apparatus:	
	ex A. Electronic instruments and apparatus:	
	—terrestrial magnetic-field detector apparatus, by saturation of magnetic circuits (flux valve)	European Airbus; Mercure; F.28; Concorde
	—air-speed indicators and associated instruments	European Airbus; Mercure; F.28
	—stall warning devices	European Airbus; Mercure; F.28
	—apparatus for fuel consumption flow control	European Airbus; Mercure; F.28

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
90.28 —*contd.*	—electronic regulators for the air-conditioning system	European Airbus; Mercure; F.28
	—inertial navigation system	Concorde
	ex B. Other:	
	—indicator apparatus for fuel pressure and engine oil	European Airbus; Mercure; F.28
	—oil contents gauge for jet-engine control	European Airbus; Mercure; F.28
	—speed indicator apparatus for the central air-speed and engine control	European Airbus; Mercure; F.28
	—temperature indicator apparatus for the central air-speed and engine control	European Airbus; Mercure; F.28
	—electro-magnetic pressure indicators and associated modules, intended for control of the engine air intake system	Concorde
90.29	Parts or accessories suitable for use solely or principally with one or more of the articles falling within heading No. 90.23, 90.24, 90.26, 90.27 or 90.28:	
	ex A. Parts or accessories suitable for use solely or principally with the electronic instruments or apparatus falling within subheading 90.28A:	
	—of terrestrial magnetic-field detector apparatus, by saturation of magnetic circuits (flux valve)	European Airbus; F.28; Mercure; Concorde
	—of inertial navigation system	Concorde
	—of other instruments or apparatus falling within subheading 90.28 A. included in this list	European Airbus; Mercure; F.28
	B. Other:	
	ex II. Other:	
	—of pneumatic regulators used in air-conditioning and cabin pressurization systems referred to in subheading 90.24 C above	European Airbus; Mercure
	—of electro-magnetic pressure indicators and associated modules intended for control of the engine air intake system	Concorde
	—of instruments and apparatus referred to in subheading 90.28 B. above	European Airbus; Mercure; F.28
92.11	Gramophones, dictating machines and other sound recorders and reproducers, including record-players and tape-decks, with or without soundheads; television image and sound recorders and reproducers, magnetic:	
	A. Sound recorders and reproducers:	
	ex II. Sound reproducers:	
	—Reproducers of music and automatic announcers	European Airbus; Concorde; Mercure; F.28

SCHEDULE 2

Goods imported for the maintenance or repair of the European Airbus, Mercure, Concorde, F.28 and British built aeroplanes of an unladen weight exceeding 15,000 kg.

Part I

Tariff Heading	Description	Rates of Duty					Aeroplanes
		Full	Greece; Morocco; and Tunisia	Egypt	C1	Cyprus	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
ex 38.17	Preparations and charges for fire-extinguishers for permanent fixing in aeroplanes	1·6% Free	1·6%	1·6%	Free	1·6%	British built Other
39.07	Articles of materials of the kinds described in heading Nos. 39.01 to 39.06 E. Of other materials: II Other: ex (g) Other: —Flexible tubes and bellows of reinforced silicon	13·3%	2%	6%	10·6%	4%	European Airbus
73.20	Tube and pipe fittings (for example, joints, elbows, unions and flanges), of iron or steel	3·4% Free	3·4%	3·4%	Free	3·4%	British built Other
ex 76.03	Wrought plates, sheets and strip of aluminium of a thickness exceeding 0·20 mm.: —pre-drawn plates of variable thickness, of a thickness of 8 mm. or more, and less than 180 mm.	9·3%	1·6%	5·5%	7·4%	2·8%	European Airbus
83.07	Lamps and lighting fittings of base metal, and parts thereof, of base metal (excluding switches, electric lamp holders, electric lamps for vehicles, electric battery or magneto lamps and other articles falling within Chapter 85 except heading No. 85.22)	1·6% Free	1·6%	1·6%	Free	1·6%	British built Other

ex 83.09	Clasps, frames with clasps for handbags and the like, buckles, buckle-clasps, hooks, eyes, eyelets and the like of base metal of a kind commonly used for clothing, travel goods, handbags or other textile or leather goods; tubular rivets and bifurcated rivets, of base metal:						
	—bifurcated rivets	6·7%	2·5%	3%	4·2%	2·5%	F.28
	—tubular rivets	5·8%	1·6%	2·6%	4·2%	1·7%	F.28

SCHEDULE 2

Part II

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
38.19	Chemical products and preparations of the chemical or allied industries (including those consisting of mixtures of natural products), not elsewhere specified or included; residual products of the chemical or allied industries, not elsewhere specified or included:	
	ex P. Preparations known as "liquids for hydraulic transmission" (for example, hydraulic brake fluids) not containing or containing less than 70% by weight of petroleum oils or oils obtained from bituminous minerals:	
	—hydraulic fluids with a phosphoric ester or silicate ester base	All aeroplanes
ex 39.02	Polymerization and copolymerization products (for example, polyethylene, polytetrahaloethylenes, polyisobutylene, polystyrene, polyvinyl chloride, polyvinyl acetate, polyvinyl chloroacetate and other polyvinyl derivatives, polyacrylic and polymethacrylic derivatives, coumarone-indene resins, etc.):	
	C. Other:	
	VI. Polystyrene and its copolymers:	
	ex (b) in other forms:	
	—acrylonitrilebutadiene styrene, in sheets specially designed for lining the internal walls of aeroplanes	European Airbus; F.28
	VII. Polyvinyl chloride:	
	ex (a) in one of the forms mentioned in Note 3 (a) and (b) to this Chapter:	
	—approved for aircraft construction, and in the form of granules	European Airbus
	ex (b) in other forms:	
	—in sheets specially designed for lining the internal walls of aeroplanes	European Airbus
	ex VIII. Polyvinylidene chloride, copolymers of vinylidene chloride with vinyl chloride:	
	—sheets specially designed for lining the internal walls of aeroplanes	European Airbus
	XIV. Other polymerization or copolymerization products:	
	ex (a) in one of the forms mentioned in Note 3 (a) and (b) to this Chapter:	
	—for cavity filling	European Airbus
39.07	Articles of materials of the kinds described in headings Nos. 39.01 to 39.06:	
	E. Of other materials:	
	II. Other:	
	ex (g) Other:	
	—flexible polytetrafluoroethylene pipes for the hydraulic and fuel systems	European Airbus; Concorde; Mercure

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
62.05	Other made up textile articles (including dress patterns): ex C. Other: —passenger escape chutes	 European Airbus
ex 70.08	Safety glass consisting of toughened or laminated glass, shaped or not: —laminated glass panels of high temperature resistance, used for the cockpit visor	 Concorde
70.20	Glass fibre (including wool), yarns, fabrics, and articles made therefrom: ex A. Non-textile fibre and articles made therefrom: —superfine glass fibre of low moisture absorption capacity	 European Airbus; Mercure; F.28; Concorde
ex 73.18	Tubes and pipes and blanks therefor of iron (other than of cast iron), or steel, excluding high-pressure hydro-electric conduits: ex C. Other: —tubes for the hydraulic system, of steel 21.6.9 complying with Deutsche Airbus Standard DAN 41/BMS 7185	 European Airbus
73.40	Other articles of iron or steel: B. Other: ex III. Other: —devices for stowing and clamping freight —ball races used in freight loading systems	 European Airbus European Airbus
ex 76.02	Wrought bars, rods, angles, shapes and sections of aluminium wire: —square angles —conical shapes for reinforcing lateral rudders	 F.28 European Airbus
ex 76.03	Wrought plates, sheets and strip of aluminium of a thickness exceeding 0·20 mm: —alloy plates, and sheets of variable thickness, formed by lamination for widths of 1,200 mm or more	 F.28
76.16	Other articles of aluminium: ex D. Other: —quick-change apparatus for converting passenger aeroplanes into freight aeroplanes and vice versa	 F.28
81.04	Other base metals, unwrought or wrought, and articles thereof; cermets, unwrought or wrought, and articles thereof: K. Titanium: ex II. Other: —thin-walled tubes ready for use in ventilation and air-conditioning systems	 European Airbus; Mercure

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
84.08	Other engines and motors: B. Gas turbines: ex II. Other: —of a power exceeding 360 KW	European Airbus; Mercure; F.28
	ex D. Parts: —of gas turbines of a power exceeding 360 KW	European Airbus; Mercure; F.28
84.10	Pumps (including motor pumps and turbo pumps) for liquids, whether or not fitted with measuring devices; liquid elevators of bucket, chain, screw, band and similar kinds: B. Other pumps: ex I. Pumps having a pressure capacity of 20 bars or more: —having a pressure capacity of 200 bars or more	European Airbus; Mercure; F.28
	ex III. Parts: —of pumps referred to in B. ex I. above	European Airbus; Mercure; F.28
84.11	Air pumps, vacuum pumps and air or gas compressors (including motor and turbo-pumps and compressors and free-piston generators for gas turbines); fans, blowers and the like: C. Fans, blowers and the like	F.28
ex 84.12	Air-conditioning machines, self-contained, comprising a motor-driven fan and elements for changing the temperature and humidity of air: —air-conditioning machines, with or without refrigerating apparatus exceeding 5,000,000 calories per hour	European Airbus; Mercure
84.15	Refrigerators and refrigerating equipment (electrical and other): ex B. Other: —Refrigerating equipment for incorporation in the air-conditioning system	F.28
84.17	Machinery, plant and similar laboratory equipment, whether or not electrically heated, for the treatment of materials by a process involving a change of temperature such as heating, cooking, roasting, distilling, rectifying, sterilizing, pasteurizing, steaming, drying, evaporating, vapourizing, condensing or cooling; not being machinery or plant of a kind used for domestic purposes; instantaneous or storage water heaters, non-electrical: ex C. Heat or exchange units: —of the constant speed drive system and of the air-conditioning system	European Airbus; Mercure; F.28

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
84.18	Centrifuges, filtering and purifying machinery and apparatus (other than filter funnels, milk strainers and the like), for liquids or gases:	
	C. II. Machinery and apparatus (other than centrifuges) for filtering or purifying liquids or gases	F.28
ex 84.21	Mechanical appliances (whether or not hand operated) for projecting, dispersing or spraying liquids or powders, fire extinguishers (charged or not), spray guns and similar appliances; steam or sand blasting machines and similar jet projecting machines:	
	—Built-in fire extinguishers for jet engines and auxiliary power units and their parts	European Airbus; Mercure; F.28
	—Built-in fire extinguishers for the cargo hold	European Airbus
84.22	Lifting, handling, loading or unloading machinery, telphers and conveyors (for example, lifts, hoists, winches, cranes, transporter cranes, jacks, pulley tackle, belt conveyors and telepherics), not being machinery falling within heading No. 84.23:	
	ex D. Other:	
	—clamp jacks	European Airbus; Mercure
	—built-in apparatus for loading, unloading, and stowing freight	European Airbus; Mercure
84.59	Machines and mechanical appliances having individual functions, not falling within any other heading of this Chapter:	
	ex E. other:	
	—Air humidifiers and dehumidifiers, and their parts	European Airbus; Mercure; F.28
	—windscreen wipers and their parts	F.28
	—toilet units specially designed for aeroplanes	European Airbus; Concorde; Mercure; F.28
	—hydraulic servo-motors	F.28
	—hydropneumatic spherical batteries	European Airbus; Mercure; F.28
	—pneumatic starters for jet engines	European Airbus
84.61	Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats and the like, including pressure reducing valves and thermostatically controlled valves:	
	A. Pressure reducing valves	F.28
	ex B. Other:	
	—valves used in air-conditioning and cabin pressurization systems	European Airbus; Mercure; F.28
	—valves used in the fire protection system	European Airbus; Mercure; F.28
	—valves used in the fresh water circulation and effluent disposal systems	European Airbus; Mercure; F.28

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
ex 84.62	Ball, roller or needle roller bearings: —bearings and ball races used in freight loading systems	European Airbus
84.63	Transmission shafts, cranks, bearing housings, plain shaft bearings, gears and gearing (including friction gears and gear boxes and other variable speed gears), flywheels, pulleys and pulley blocks, clutches and shaft couplings: —constant speed drive apparatus	European Airbus; Mercure; F.28
85.01	Electrical goods of the following descriptions: generators, motors, converters (rotary or static), transformers, rectifiers and rectifying apparatus, inductors: A. Generators, motors (whether or not equipped with speed reducing, changing or step-up gear) and rotary converters: ex II. Other: —high speed alternators (exceeding 3,600 r.p.m.)	European Airbus; Mercure; F.28
	—electric motors with speed reducers for freight loading systems	European Airbus
	—500 watt, 28 volt D.C. electric motor for operating the freight door	F.28
	—generator for the anti-skid device incorporated in the undercarriage	F.28; Concorde; European Airbus; Mercure
	ex B. Transformers, static converters, rectifiers and rectifying apparatus; inductors: —static converter of a power of 250 watts converting a direct current of 28 volts to an alternating current of 115 volts	F.28
	—transformer-rectifier with an output of 100 amperes at 28 volts for the D.C. electric generating system	F.28
	ex C. Parts: —of high speed alternators (exceeding 3,600 r.p.m.)	European Airbus; Mercure; F.28
	—of electrical motors with speed reducers for freight loading systems	European Airbus
	—of generators for the anti-skid device incorporated in the undercarriage	Concorde; F.28; European Airbus; Mercure
	—of the other apparatus referred to in A and B above	F.28
85.15	Radiotelegraphic and radiotelephonic transmission and reception apparatus; radio-broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers)	

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
85.15 —*contd.*	and television cameras; radio navigational aid apparatus, radar apparatus and radio remote control apparatus:	
	A. Radiotelegraphic and radiotelephonic transmission and reception apparatus; radiobroadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras:	
	ex II. Transmitter-receivers: —H.F. transmitter-receiver apparatus	European Airbus; Mercure; F.28; Concorde
	ex B. Other apparatus: —Meteorological all-weather radar complying with standard ARINC 564	European Airbus; Concorde; F.28; Mercure
	—VOR and ILS navigation equipment complying with standard ARINC 547	F.28
	ex C. Parts of the goods of subheadings A and B above:	
	—VOR LOK aerials for apparatus complying with specification ARINC 547	F.28
	—Aerial couplers for H.F. transmitter-receiver apparatus	European Airbus; Concorde; F.28; Mercure
	—VOR and ILS navigation equipment complying with standard ARINC 547	F.28
	—other apparatus referred to in subheadings A and B above	European Airbus; Concorde; F.28; Mercure
85.17	Electric sound or visual signalling apparatus (such as bells, sirens, indicator panels, burglar and fire alarms), other than those of heading No. 85.09 or 85.16:	
	—warning apparatus for protection against fire	European Airbus; F.28
	—smoke detectors	Mercure; Concorde; F.28
	—anti-collision flashlights	All aeroplanes
	—other sound or visual electrical indicators	F.28
85.19	Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits, or for making connections to or in electrical circuits (for example, switches, relays, fuses, lightning arresters, surge suppressors, plugs, lampholders and junction boxes); resistors, fixed or variable (including potentiometers), other than heating resistors; printed circuits; switchboards (other than telephone switchboards) and control panels:	
	ex A. Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits, or for making connections to or in electrical circuits: —switches used in the freight loading auxiliary power unit and emergency lighting systems	European Airbus; Mercure F.28

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
90.24	Instruments and apparatus for measuring, checking or automatically controlling the flow, depth, pressure or other variables of liquids or gases, or for automatically controlling temperature (for example, pressure gauges, thermostats, level gauges, flow meters, heat meters, automatic ovendraught regulators), not being articles falling within heading No. 90.14:	
	ex C. Other:	
	—pneumatic regulators used in the air-conditioning and cabin pressurization systems	European Airbus; Mercure; F.28
90.28	Electrical measuring, checking, analyzing, or automatically controlling instruments and apparatus:	
	ex A. Electronic instruments and apparatus:	
	—terrestrial magnetic field detector apparatus, by saturation of magnetic circuits (flux valve)	European Airbus; Mercure; F.28; Concorde
	—air-speed indicators and associated instruments	European Airbus; Mercure; F.28
	—stall warning devices	European Airbus; Mercure; F.28
	—apparatus for fuel consumption flow control	European Airbus; Mercure; F.28
	—electronic regulators for the air-conditioning system	European Airbus; Mercure; F.28
	—inertial navigation system	Concorde
	ex B. Other:	
	—indicator apparatus for fuel pressure and engine oil	European Airbus; Mercure; F.28
	—oil contents gauge for jet-engine control	European Airbus; Mercure; F.28
	—speed indicator apparatus for the central airspeed and engine control	European Airbus; Mercure; F.28
	—temperature indicator apparatus for the central air speed and engine control	European Airbus; Mercure; F.28
	—electro magnetic pressure indicators and associated modules, intended for control of the engine air intake system	Concorde
90.29	Parts or accessories suitable for use solely or principally with one or more of the articles falling within heading No. 90.23, 90.24, 90.26, 90.27 or 90.28:	
	ex A. Parts or accessories suitable for use solely or principally with the electronic instruments or apparatus falling within subheading 90.28 A:	
	—terrestrial magnetic field detector apparatus, by saturation of magnetic circuits (flux valve)	European Airbus; Mercure; F.28; Concorde
	—of inertial navigation system	Concorde

Tariff Heading (1)	*Description* (2)	*Aeroplanes* (3)
90.29 —*contd.*	—of other instruments or apparatus falling within subheading 90.28 A. included in this list	European Airbus; Mercure; F.28
	B. Other:	
	ex II. Other:	
	—of pneumatic regulators used in air-conditioning and cabin pressurization systems referred to in subheading 90.24 C. above	European Airbus; Mercure; F.28
	—of electro magnetic pressure indicators and associated modules, intended for control of the engine air intake system	Concorde
	—of instruments and apparatus referred to in subheading 90.28 B. above	European Airbus; Mercure; F.28
92.11	Gramophones, dictating machines and other sound recorders and reproducers, including record-players and tape decks, with or without soundheads; television image and sound recorders and reproducers, magnetic:	
	A. Sound recorders and reproducers:	
	ex II. Sound reproducers:	
	—reproducers of music and automatic announcers	European Airbus; Concorde; Mercure; F.28
ex 92.13	Other parts and accessories of apparatus falling within heading No. 92.11:	
	—parts of cockpit voice recorders	European Airbus; Concorde; Mercure; F.28
	—parts of reproducers of music and automatic announcers referred to in subheading 92.11 ex A. II. above	European Airbus; Concorde; Mercure; F.28

SCHEDULE 3

Goods imported for the maintenance and repair of aeroplanes built outside the United Kingdom of an unladen weight exceeding 15,000 kg. except the European Airbus, Mercure, Concorde, and F.28

Tariff Heading (1)	*Description* (2)
ex 38.17	Preparations and charges for fire-extinguishers for permanent fixing in aeroplanes.
38.19	Chemical products and preparations of the chemical or allied industries (including those consisting of mixtures of natural products), not elsewhere specified or included; residual products of the chemical or allied industries, not elsewhere specified or included: ex P. Preparations known as "liquids for hydraulic transmission" (for example, hydraulic brake fluids) not containing or containing less than 70% by weight of petroleum oils or oils obtained from bituminous minerals: —hydraulic fluids with a phosphoric ester or silicate ester base
ex 39.02	Polymerization and copolymerization products (for example, polyethylene, polytetrahaloethylenes, polyisobutylene, polystyrene, polyvinyl chloride, polyvinyl acetate, polyvinyl chloroacetate and other polyvinyl derivatives, polyacrylic and polymethacrylic derivatives, coumarone-indene resins, etc.): C. Other: I. Polyethylene: (b) In other forms ex IV. Polypropylene, in one of the forms mentioned in notes 3(c) and 3(d) of Chapter 39 VII. Polyvinyl chloride: (b) in other forms XIV. Other polymerization or copolymerization products: (b) in other forms
39.07	Articles of materials of the kinds described in heading Nos. 39.01 to 39.06 inclusive: E. Of other materials: II. Other: ex (g) Other: —Articles for technical use and structural components
40.11	Rubber tyres, tyre cases, inter-changeable tyre treads, inner tubes and tyre flaps, for wheels of all kinds: B. Other: ex II. Other: —Tyres, for aircraft, of the following types: 15·00 x 16 — 14 ply 56·00 x 16 — 7 – 32 ply
40.14	Other articles of unhardened vulcanized rubber: B. Other: ex II. Other: —Articles for technical use
62.05	Other made-up textile articles (including dress patterns): ex C. Other: —Life jackets —Passenger escape chutes

Tariff Heading (1)	*Description* (2)
68.13	Fabricated asbestos and articles thereof (for example, asbestos board, thread and fabric, asbestos clothing, asbestos jointing), reinforced or not, other than goods falling within heading No. 68.14; mixtures with a basis of asbestos and mixtures with a basis of asbestos and magnesium carbonate, and articles of such mixtures: B. Articles of asbestos: III. Other
68.14	Friction material (segments, discs, washers, strips, sheets, plates, rolls and the like) of a kind suitable for brakes, for clutches or the like, with a basis of asbestos, other mineral substances or of cellulose, whether or not combined with textile or other materials
68.16	Articles of stone or of other mineral substances (including articles of peat), not elsewhere specified or included: ex B. Other: —Filters, washers and other articles of agglomerated coal or of graphite
ex 73.18	Tubes and pipes and blanks therefor, of iron (other than of cast iron), or steel excluding high-pressure hydro-electric conduits: ex C. Other: —Tubes and pipes, ready for fitting, usable as hydraulic conduits for fuel-oil or lubricants
73.20	Tube and pipe fittings (for example, joints, elbows, unions and flanges), of iron or steel
ex 73.24	Containers, of iron or steel, for compressed or liquefied gas: —Containers intended for pressurization
ex 73.25	Stranded wire, cables, cordage, ropes, plaited bands, slings and the like, of iron or steel wire, but excluding insulated electric cables: —Steel cables for flight controls, ready for fitting
73.32	Bolts and nuts (including bolt ends and screw studs), whether or not threaded or tapped, and screws (including screw hooks and screw rings), of iron or steel; rivets, cotters, cotter-pins, washers and spring washers, of iron or steel A. Not threaded or tapped B. Threaded or tapped ex II. Other: —other than point drive fastenings having a hexagonal recess in the threaded end and associated nuts and washers
73.35	Springs and leaves for springs, of iron or steel
73.40	Other articles of iron or steel: ex B. Other: —Collars, flanges and other devices for fixing, jointing, clamping or spacing —Devices for cargo stowage and clamping
ex 76.02	Wrought bars, rods, angles, shapes and sections, of aluminium; aluminium wire: —Shapes bearing a specific manufacture number
ex 76.03	Wrought plates, sheets and strip, of aluminium of a thickness exceeding 0·20 mm: —Plates bearing a specific manufacture number

Tariff Heading (1)	*Description* (2)
ex 76.06	Tubes and pipes and blanks therefor, of aluminium; hollow bars of aluminium: —Tubes and pipes, ready for fitting, usable as hydraulic conduits or as conduits for fuel-oil or lubricants
76.07	Tube and pipe fittings (for example, joints, elbows, sockets and flanges), of aluminium
76.16	Other articles of aluminium: C. Nails, tacks, staples, hook-nails, spiked cramps, spikes and the like; bolts, nuts, screws and similar articles; washers and spring washers: ex II. Other: —other than point drive fastenings having a hexagonal recess in the threaded end and associated nuts and washers ex D. Other: —Collars, flanges, and other devices for fixing, jointing, clamping or spacing
81.04	Other base metals, unwrought or wrought, and articles thereof; cermets, unwrought or wrought, and articles thereof: K. Titanium: ex II. Other: —Bolts, nuts, screws, rivets and similar articles, complying with US standards, other than point drive fastenings having a hexagonal recess in the threaded end and associated nuts and washers
ex 83.02	Base metal fittings and mountings of a kind suitable for furniture, doors, staircases, windows, blinds, coachwork, saddlery, trunks, caskets and the like (including automatic door closers); base metal hat-racks, hat-pegs, brackets and the like: —Automatic door-closing devices and fittings and hinges of all kinds
83.07	Lamps and lighting fittings, of base metal, and parts thereof, of base metal (excluding switches, electric lamp holders, electric lamps for vehicles, electric battery or magneto lamps, and other articles falling within Chapter 85 except heading No. 85.22)
ex 83.09	Clasps, frames with clasps for handbags and the like, buckles, buckle-clasps, hooks, eyes, eyelets, and the like, of base metal, of a kind commonly used for clothing, travel goods, handbags, or other textile or leather goods; tubular rivets and bifurcated rivets, of base metal: —Tubular rivets and bifurcated rivets
ex 84.07	Hydraulic engines and motors (including water wheels and turbines): —Hydraulic engines and motors, excluding water wheels and water turbines
84.08	Other engines and motors: B. Gas turbines: II. Other: C. Other engines and motors D. Parts: —of the gas turbines and other engines and motors in subheadings B. II and C.
84.10	Pumps (including motor pumps and turbo-pumps) for liquids, whether or not fitted with measuring devices; liquid elevators of bucket, chain, screws, band and similar kinds: B. Other pumps

Tariff Heading (1)	*Description* (2)
84.11	Air pumps, vacuum pumps and air or gas compressors (including motor and turbo-pumps and compressors, and free-piston generators for gas turbines); fans, blowers and the like: A. Pumps and compressors: II. Vacuum pumps creating a vacuum better than 10-2 mbar; centrifugal or axial compressors giving a compression ratio of not less than 2 and a flow of more than 3,000 m^3 per minute; stationary reciprocating compressors of a weight exceeding 2,000 kg III. Other pumps and compressors IV. Parts: ex b) Other: —Of pumps and compressors referred to in A.II —Of pumps and compressors referred to in A.III C. Fans, blowers and the like
84.15	Refrigerators and refrigerating equipment (electrical and other): A. Evaporators and condensers, excluding those for domestic refrigerators ex B. Other: —Refrigerating equipment, for incorporation in the air-conditioning system
84.17	Machinery, plant and similar laboratory equipment, whether or not electrically heated, for the treatment of materials by a process involving a change of temperature such as heating, cooking, roasting, distilling, rectifying, sterilizing, pasteurizing, steaming, drying, evaporating, vapourizing, condensing or cooling, not being machinery or plant of a kind used for domestic purposes; instantaneous or storage water heaters, non-electrical: C. Heat exchange units
84.18	Centrifuges, filtering and purifying machinery and apparatus (other than filter funnels, milk strainers and the like), for liquids or gases: C. Other: II. Machinery and apparatus (other than centrifuges) for filtering or purifying liquids or gases
ex 84.21	Mechanical appliances (whether or not hand operated), for projecting, dispersing or spraying liquids or powders; fire extinguishers (charged or not); spray guns and similar appliances; steam or sand blasting machines and similar jet projecting machines: —Built-in fire extinguishers for jet engine and auxiliary power units and for cargo hold —Their parts
84.22	Lifting, handling, loading or unloading machinery, telphers and conveyors (for example, lifts, hoists, winches, cranes, transporter cranes, jacks, pulley tackle, belt conveyors and telepherics), not being machinery falling within heading No. 84.23: ex D. Other: —Jacks —Parts of jacks —Built-in apparatus for loading, unloading and stowing freight
ex 84.53	Automatic data processing machinery and units thereof; magnetic or optical readers, machines for transcribing data on to data media in coded form and machines for processing such data, not elsewhere specified or included: —Computers forming part of the navigation instruments or apparatus of heading No. 90.28 used exclusively to carry out the calculations appropriate to those instruments or apparatus

Tariff Heading (1)	*Description* (2)
84.55	Parts and accessories (other than covers, carrying cases and the like) suitable for use solely or principally with machines of a kind falling within heading No. 84.51, 84.52, 84.53 or 84.54: C. Other: ex III. c) Other: —Parts and accessories for computers falling within heading No. ex 84.53 of this list
84.59	Machines and mechanical appliances, having individual functions, not falling within any other heading of this Chapter: ex E.II. Other: —Air humidifiers and dehumidifiers —Starter motors, propellor regulators (valves) and servo-mechanisms —Windscreen wipers —Hydraulic servo-motors —Hydropneumatic spherical batteries —Parts: —of the other apparatus referred to above
84.61	Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats and the like, including pressure reducing valves and thermostatically controlled valves
84.62	Ball, roller or needle roller bearings
84.63	Transmission shafts, cranks, bearing housings, plain shaft bearings, gears and gearing (including friction gears and gearboxes and other variable speed gears), flywheels, pulleys and pulley blocks, clutches and shaft couplings
84.64	Gaskets and similar joints of metal sheeting combined with other materials (for example, asbestos, felt and paperboard) or of laminated metal foil; sets or assortments of gaskets and similar joints, dissimilar in composition, for engines, pipes, tubes and the like, put up in pouches, envelopes or similar packings
84.65	Machinery parts, not containing electrical connectors, insulators, coils, contacts or other electrical features and not falling within any other heading in this Chapter
85.01	Electrical goods of the following descriptions: generators, motors, converters (rotary or static), transformers, rectifiers and rectifying apparatus, inductors: A. Generators, motors (whether or not equipped with speed reducing, changing or step-up gear) and rotary converters B. Transformers, static converters, rectifiers and rectifying apparatus; inductors C. Parts
85.02	Electro-magnets: permanent magnets and articles of special materials for permanent magnets, being blanks of such magnets; electro-magnetic and permanent magnet chucks, clamps, vices and similar work holders; electro-magnetic clutches and couplings; electro-magnetic brakes; electro-magnetic lifting heads
85.08	Electrical starting and ignition equipment for internal combustion engines (including ignition magnetos, magneto-dynamos, ignition coils, starter motors, sparking plugs and glow plugs); generators (dynamos and alternators) and cut-outs for use in conjunction with such engines

Tariff Heading (1)	*Description* (2)
85.12	Electric instantaneous or storage water heaters and immersion heaters; electric soil heating apparatus and electric space heating apparatus; electric hair dressing appliances (for example, hair dryers, hair curlers, curling tong heaters) and electric smoothing irons; electro-thermic domestic appliances; electric heating resistors, other than those of carbon: ex B. Electric soil-heating apparatus and electric space-heating apparatus: —Electrical apparatus for heating aeroplanes and wing surfaces, mounted on propellor aeroplanes
85.14	Microphones and stands therefor, loudspeakers; audio frequency electrical amplifiers
85.15	Radiotelegraphic and radiotelephonic transmission and reception apparatus; radio-broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras; radio navigational aid apparatus, radar apparatus and radio remote control apparatus: A. Radiotelegraphic and radiotelephonic transmission and reception apparatus; radio-broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras: I. Tramsmitters II. Transmitter-receivers: —HF transmitter-receivers —other transmitter-receivers ex III. Receivers, whether or not combined with a sound recorder or reproducer: —receivers, other than radio-broadcasting or television apparatus B. Other apparatus: —Weather radar apparatus complying with standard ARINC 564 —Other apparatus ex C. Parts of the goods of subheadings A and B above: —of HF transmitter-receivers —of weather radar apparatus complying with standard ARINC 564 —VOR LOK aerials complying with standard ARINC 547 —aerial couplers for HF transmitter-receivers —of other apparatus listed under subheadings A and B above
85.17	Electric sound or visual signalling apparatus (such as bells, sirens, indicator panels, burglar and fire alarms), other than those of heading No. 85.09 or 85.16
85.18	Electrical capacitators, fixed or variable
85.19	Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits, or for making connections to or in electrical circuits (for example, switches, relays, fuses, lightning arresters, surge suppressors, plugs, lampholders and junction boxes); resistors, fixed or variable (including potentiometers), other than heating resistors; printed circuits; switchboards (other than telephone switchboards) and control panels
85.20	Electric filament lamps and electric discharge lamps (including infra-red and ultra-violet lamps); arc-lamps; electrically ignited photographic flashbulbs: A. Filament lamps for lighting ex B. Other: —Discharge lamps and tubes for lighting including combined filament and discharge lamps and tubes

Tariff Heading (1)	*Description* (2)
85.21	Thermionic, cold cathode and photo-cathode valves and tubes (including vapour or gas filled valves and tubes, cathode-ray tubes, television camera tubes and mercury arc rectifying valves and tubes); photocells; mounted piezo-electric crystals; diodes, transistors and similar semi-conductor devices; electronic microcircuits: A. Valves and tubes B. Photocells, including phototransistors C. Mounted piezo-electric crystals
85.22	Electric appliances and apparatus, having individual functions, not falling within any other heading of this Chapter: ex C. Other: —Engine pressure indicators
ex 85.23	Insulated (including enamelled or anodised) electric wire, cable, bars, strip and the like (including co-axial cable), whether or not fitted with connectors: ex B. Other: —Electric cables in the form of a harness ready for fitting
85.28	Electrical parts of machinery and apparatus, not being goods falling within any of the preceding headings of this Chapter
90.08	Cinematographic cameras, projectors, sound recorders and sound reproducers; but not including re-recorders or film editing apparatus; any combination of these articles: B. Projectors and sound reproducers, combined or not
90.14	Surveying (including photo-grammetrical surveying) hydrographic, navigational, meteorological, hydrological and geophysical instruments; compasses; rangefinders: A. Compasses ex B. Other: —Instruments and apparatus for air navigation —Meteorological instruments and rangefinders
ex 90.18	Mechano-therapy appliances; massage apparatus; psychological aptitude-testing apparatus; artificial respiration; ozone therapy, oxygen therapy, aerosol therapy or similar apparatus; breathing appliances (including gas masks and similar respirators): —oxygen masks; respiratory apparatus for the crew and passengers of aeroplanes
90.24	Instruments and apparatus for measuring, checking or automatically controlling the flow, depth, pressure or other variables of liquids or gases, or for automatically controlling temperature (for example, pressure gauges, thermostats, level gauges, flow meters, heat meters, automatic ovendraught regulators), not being articles falling within heading No. 90.14
90.28	Electrical measuring, checking, analyzing, or automatically controlling instruments and apparatus: ex A. Electronic instruments and apparatus: —other than ground proximity warning systems B. Other
ex 90.29	Parts or accessories suitable for use solely or principally with one or more of the articles falling within heading No. 90.23, 90.24, 90.26, 90.27 or 90.28: —Parts or accessories suitable for use solely or principally with the instruments or apparatus falling within subheading 90.24 C. and heading 90.28

Tariff Heading (1)	*Description* (2)
ex 91.06	Time switches with clock or watch movement (including secondary movement) or with synchronous motor: —Clock movements used in automatic systems
91.11	Other clock and watch parts: ex F. Other: —Of apparatus included in No. ex 91.06 of this list
92.11	Gramophones, dictating machines and other sound recorders and reproducers including record players and tape decks, with or without sound-heads; television image and sound recorders and reproducers, magnetic: A. Sound recorders and reproducers: ex II. Reproducers: —Reproducers of music and automatic announcers
92.13	Other parts and accessories of apparatus falling within heading No. 92.11: —Parts of cockpit voice recorders —Parts of reproducers of music and automatic announcers referred to in subheading 92.11 A. ex II above
94.01	Chairs and other seats (other than those falling within heading No. 94.02), whether or not convertible into beds, and parts thereof: ex A. Specially designed for aircraft —Specially designed seats for the air-crew —Parts of seats specially designed for the air-crew

SCHEDULE 4

Goods imported for the maintenance and repair of aeroplanes or helicopters of an unladen weight exceeding 2,000 kg. but not exceeding 15,000 kg.

Tariff Heading	Description of Goods	Rates of Duty					Aircraft Concerned	
		Full	Greece, Morocco, Tunisia	Egypt	C1	Cyprus	Aeroplanes	Helicopters
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
38.19	Chemical products and preparations of the chemical or allied industries (including those consisting of mixtures of natural products), not elsewhere specified or included; residual products of the chemical or allied industries, not elsewhere specified or included: Ex P. Preparations known as "liquids for hydraulic transmission" (for example, hydraulic brake fluids) not containing or containing less than 70% by weight of petroleum oils or oils obtained from bituminous minerals —Hydraulic fluids with a phosphoric ester or silicate ester base	Free					All aeroplanes	All helicopters
73.20	Tube and pipe fittings (for example, joints, elbows, unions and flanges), of iron or steel	3·4% Free	3·4%	3·4%	Free	3·4%	British built Other	British built Other
83.07	Lamps and lighting fittings, of base metal, and parts thereof, of base metal (excluding switches, electric lamp holders, electric lamps for vehicles, electric battery or magneto lamps, and other articles falling within Chapter 85 except heading No. 85.22)	1·6% Free	1·6%	1·6%	Free	1·6%	British built Other	British built Other
84.10	Pumps (including motor pumps and turbo pumps) for liquids, whether or not fitted with measuring devices; liquid elevators of bucket, chain, screw, band and similar kinds: B. Other pumps:

(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
	II. Other pumps	Free					F.27	—
	Ex III. Parts of pumps referred to under heading B. II	Free					F.27	—
84.61	Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats and the like, including pressure reducing valves and thermostatically controlled valves:							
	A. Pressure reducing valves	1·6% Free	1·6%	1·6%	Free	1·6%	British built Other	British built Other
	Ex B. Other:							
	—Valves used in air-conditioning and cabin pressurization systems	Free					F.27	—
84.63	Transmission shafts, cranks, bearing housings, plain shaft bearings, gears and gearing (including friction gears and gear-boxes and other variable speed gears), flywheels, pulleys and pulley blocks, clutches and shaft couplings:							
	—Constant speed drive apparatus	Free					VFW 614	—
85·01	Electrical goods of the following descriptions: generators, motors, converters (rotary or static), transformers, rectifiers and rectifying apparatus, inductors:							
	Ex B. Transformers, static converters, rectifiers, and rectifying apparatus; inductors							
	—rectifying transformers with an output of 100 amperes at 28 volts for the DC electric generating system	Free					VFW 614	—
	Ex C. Parts:							
	—Of DC generators of a power of 10·5 KVA	Free					F.27	—
	—Of rotary converters of AC 115V, 400 Hz, of a power of 250 VA or 1,800 VA	Free					F.27	—

	—Of AC generators, 120/208 V, of a power of 15 KVA	Free					F.27	—
	—Of electric actuators for control of auxiliary flaps and ailerons	Free					F.27	—
	—Of static converters of AC 115 V, 400 Hz, of a power of 250 VA and and 700 VA	Free					F.27	—
85·15	Radiotelegraphic and radiotelephonic transmission and reception apparatus; radio-broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras; radio navigational aid apparatus, radar apparatus and radio remote control apparatus:							
	A. Radiotelegraphic and radiotelephonic transmission and reception apparatus; radio-broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras:							
	II. Transmitter-receivers:							
	Ex B. Other:							
	—very high frequency communication apparatus (VHF/COM) being transmitter-receivers covering a frequency band of at least 118 to 135·95 MHz, with not less than 180 channels and capable of operating in areas where 50 KHz channel spacing is in force	6·4%*	1·9%*	2·8%*	6·4%*	1·9%*	All aeroplanes	All helicopters
	—other transmitter-receivers	9·4%	3·0%	4·2%	6·4%	3·0%	British built	British built
		8·0%	3·0%	3·6%	6·4%	3·0%	Other	Other
	III. Receivers, whether or not combined with a sound recorder or reproducer, excluding radio-broadcasting or television apparatus:							
	(b) Other:							
	1. Receivers combined with a sound recorder or reproducer:							
	Ex bb) Other:

Ex 88.02	Flying machines of an unladen weight exceeding 15,000 Kg.	1·4%	Free

EXPLANATORY NOTE

(This Note is not part of the Order.)

This Order provides for exemption from or reductions in import duty in the case of goods specified in the Schedules to the Order as from 1st January 1976 to 31st December 1976.

Where a rate of import duty is specified in column 3 of Part I of Schedules 1 or 2, or column 3 of Schedules 4, 5 or 6 or in column 4 of Schedule 5 the duty is reduced to that rate instead of any higher rate which would otherwise apply and where "free" appears in the said columns in relation to the goods, they are exempt from import duty whatever their origin.

In the case of specified goods originating in Cyprus, Egypt, Greece, Morocco or Tunisia or goods qualifying for Commonwealth preference, exemptions from and greater reductions in duty are available than those referred to above under the Agreements between the European Economic Community (EEC) and the said countries such exemptions and reductions being shown respectively in column 7 of Part I of Schedules 1 and 2 and column 7 of Schedule 4 (Cyprus), column 5 of Part I of Schedules 1 and 2 and column 5 of Schedule 4 (Egypt), column 4 of Part I of Schedules 1 and 2 and column 4 of Schedule 4 (Greece, Morocco and Tunisia) and column 6 of Part I of Schedules 1 or 2 or column 6 of Schedule 4, column 5 of Schedule 5 and column 4 of Schedule 6 (Commonwealth preference).

In the case of all goods specified in Part I of Schedules 1 and 2, and Schedules 4, 5 and 6 originating in Turkey there is exemption from import duty as from 1st January 1976 to 31st December 1976 under the Agreement between the EEC and Turkey.

In the case of goods specified in Part II of Schedules 1 and 2 there is exemption from import duty as from 1st January 1976 to 31st December 1976 whatever their origin.

The Order also provides for exemption from import duty as from 1st January 1976 to 31st December 1976 in the case of goods imported for the construction, maintenance or repair of and for incorporation in the Concorde aeroplane if they satisfy the requisite conditions to benefit from the eventual abolition of customs duties between member States of the EEC.

In the case of goods specified in Schedule 3 there is exemption from import duty whatever their origin if they are imported for the purpose of being used for the maintenance or repair of certain classes of aeroplanes.

Goods specified in the Schedules to this Order are subject to whole or partial suspension of duty in the Common Customs Tariff of the EEC and the exemptions and reductions in this Order are made in accordance with the United Kingdom's Community obligations.

The exemptions and reductions in Schedules 1–6 are restricted to goods imported in some cases for the construction, or in other cases for the maintenance or repair, of certain classes of aeroplanes or helicopters.

As regards the exemption for equipment for use in aircraft under heading 85.15, apparatus of a type approved by the Civil Aviation Authority is listed in Civil Aviation Publication CAP 208, Airborne Radio Apparatus Volume 2, published by Her Majesty's Stationery Office. This publication is subject to amendment, and confirmation that apparatus is of a type approved at the date of this Order should be obtained from the Civil Aviation Authority, Controllerate of National Air Traffic Services, Tels N2s(c), 19/29 Woburn Place, London WC1H 0LX.
