EXPLANATORY NOTE

(This Note is not part of the Order)

This Order—

(*a*) provides that there shall continue to be no drawback of import duty in respect of telemetering instruments and apparatus, notwithstanding the re-classification of those goods in a tariff heading (90.28) which would otherwise render them eligible for drawback;

(*b*) revokes the existing fixed rate of drawback of import duty in respect of bromvaletone manufactured from imported *iso*Valeric acid and provides for drawback to be related to the duty paid on the acid actually used in the manufacture of the exported goods; and

(*c*) revises the rates of drawback of import duty in respect of—

(i) hats, etc., manufactured from imported hatters' fur, and

(ii) photographic film, etc., manufactured from imported film base.
