1973. No. 257 **[C]**

INDUSTRIAL TRAINING

Engineering Industry Training Board

ORDER, DATED 30TH JULY 1973, MADE BY THE MINISTRY OF HEALTH AND SOCIAL SERVICES UNDER THE INDUSTRIAL TRAINING ACT (NORTHERN IRELAND) 1964.

The Ministry of Health and Social Services, on behalf of the Secretary of State, after consultation with the Engineering Industry Training Board and with organisations and associations of organisations appearing to it to be representative respectively of substantial numbers of employers engaging in the activities hereinafter mentioned and of substantial numbers of persons employed in those activities and in exercise of the powers conferred by section 10 of the Industrial Training Act (Northern Ireland) 1964(**a**) and of all other powers enabling it in that behalf, hereby makes the following Order:

Citation, commencement and interpretation

1.—(1) This Order may be cited as the Industrial Training (Engineering Board) Order (Northern Ireland) 1973 and shall come into operation on 1st August 1973.

(2) In this Order—

"the Act" means the Industrial Training Act (Northern Ireland) 1964;

"the Board" means the Engineering Industry Training Board;

"levy Order" includes the Industrial Training Levy (Engineering Industry) Order (Northern Ireland) 1965(**b**), the Industrial Training Levy (Engineering Industry) Order (Northern Ireland) 1966(**c**), the Industrial Training Levy (Engineering Industry) Order (Northern Ireland) 1967(**d**), the Industrial Training Levy (Engineering Industry) Order (Northern Ireland) 1968(**e**), the Industrial Training Levy (Engineering Industry) Order (Northern Ireland) 1969(**f**), the Industrial Training Levy (Engineering Industry) Order (Northern Ireland) 1970(**g**), the Industrial Training Levy (Engineering Industry) Order (Northern Ireland) 1971(**h**) and the Industrial Training Levy (Engineering Industry) Order (Northern Ireland) 1972(**i**);

"the 1967 Order" means the Industrial Training (Engineering Board) (Amendment) Order (Northern Ireland) 1967(**j**);

"the principal Order" means the Industrial Training (Engineering Board) Order (Northern Ireland) 1964(**k**);

(**a**) 1964. c. 18 (N.I.).
(**b**) S.R. & O. (N.I.) 1965, No. 114
(**c**) S.R. & O. (N.I.) 1966, No. 154.
(**d**) S.R. & O. (N.I.) 1967, No. 153.
(**e**) S.R. & O. (N.I.) 1968, No. 158.
(**f**) S.R. & O. (N.I.) 1969, No. 239.
(**g**) S.R. & O. (N.I.) 1970, No. 94.
(**h**) S.R. & O. (N.I.) 1971, No. 220.
(**i**) S.R. & O. (N.I.) 1972, No. 139.
(**j**) S.R. & O. (N.I.) 1967, No. 152.
(**k**) S.R. & O. (N.I.) 1964, No. 146, as amended by S.R. & O. (N.I.) 1967, No. 236.

Revocation

2. The 1967 Order is hereby revoked.

Activities of the Board

3. The activities in relation to which the Board exercises the functions conferred by the Act upon industrial training boards shall, in lieu of the activities specified in Schedule 1 to the principal Order (as amended by the 1967 Order) be the activities specified in the Schedule to this Order, and accordingly in the principal Order the latter Schedule shall be substituted for the former Schedule.

Transitional provisions

4.—(1) The Chairman and other members of the Board on the day upon which this Order comes into operation shall continue to be members of the Board and to hold and vacate their offices in accordance with the terms of the instruments appointing them to be members.

(2) The provisions of this Order shall not—

(*a*) extend the operation of a levy Order;

(*b*) affect the operation of a levy Order in relation to the assessment of an employer within the meaning of that Order in respect of an establishment that was engaged in the relevant levy period wholly or mainly in activities included in the Schedule to this Order;

(*c*) affect the operation of any assessment notice served by the Board under the provisions of a levy Order before the day upon which this Order comes into operation or any appeal or other proceedings arising out of any such notice.

Sealed with the Official Seal of the Ministry of Health and Social Services for Northern Ireland this 30th day of July 1973.

(L.S.)

W. Bell,
Assistant Secretary.

SCHEDULE

The Engineering Industry

1. Subject to the provisions of this Schedule, the activities of the engineering industry are the following activities in so far as they are carried out in Northern Ireland:—

(*a*) the quarrying or mining of iron ore or the treatment or preparation of iron ore for smelting;

(*b*) the smelting of iron ore in a blast furnace with or without other metalliferous materials, or the production of iron by any other process;

(*c*) the production of steel by any process;

(*d*) when carried out in association with any of the foregoing activities—

(i) the quarrying of limestone;

(ii) the production of coke;

(iii) the casting of iron or steel by any process;

(iv) the production with or without heat of any iron or steel forgings;

(v) the annealing or heat treatment of steel;

(*e*) the rolling, with or without heat, of iron or steel products for the purpose of reducing the cross-sectional area thereof;

(*f*) the production from iron or steel of bright bars, hot finished tubes or hot finished pipes;

(*g*) when carried out by an employer (or an associated company of the employer, being a company) mainly engaged in the production of iron or steel and in the production from iron or steel of hot finished tubes or hot finished pipes—

(i) the production of cold finished tubes or cold finished pipes;

(ii) the manipulation or fabrication of any tubes or pipes;

(*h*) the production of tinplate, terneplate, iron or steel wire, or steel wire ropes;

(*i*) when carried out in association with any of the foregoing activities the production of galvanised or other coated steel sheets;

(*j*) the manufacture of—

(i) articles wholly or mainly from metal or a metal carbide;

(ii) articles wholly or mainly from any combination of either metal and plastics material or of metal and a metal carbide;

(iii) aircraft or hovercraft;

(iv) articles embodying a lens or prism;

(v) primary cells, batteries or electric accumulators;

(vi) electric cables, electric filament lamps, electric discharge lamps or photographic flashbulbs;

(vii) thermionic, cold cathode or photo-cathode valves or tubes, cathode-ray tubes or electric capacitors or resistors;

(viii) printed or micro-electronic circuits, devices using ferrite or quartz crystals for electrical purposes or semi-conductor or piezo-electric devices;

(ix) patterns or models constructed for engineering or metal casting purposes;

(*k*) the manufacture or fitting out of vehicle bodies where the employer is engaged in the manufacture of motor vehicles or where the vehicle bodies are manufactured or fitted out to the order of an employer engaged in the manufacture of motor vehicles;

(*l*) the installation, testing, inspection or, except in the case of vehicle bodies, the repair of any articles or other products specified in sub-paragraph (*j*);

(*m*) the painting or paint spraying of any articles specified in sub-paragraph (*j*)(i), (ii), (iii) or (ix);

(*n*) the casting in non-ferrous metal (other than gold, silver or platinum) of sculptured figures;

(*o*) the following operations or processes, that is to say—

(i) the reduction of virgin aluminum, the production of secondary-based aluminium or of aluminium alloys or the manufacture of aluminium powder or paste and, when carried out by an employer engaged substantially in any of the said operations, the production or processing of any other non-ferrous metal;

(ii) the smelting or refining of copper or copper alloys;

(iii) the rolling, drawing, extruding or forging of non-ferrous metal and, when carried out by an employer engaged substantially in any such operation, any refining of metal incidental thereto;

(*p*) the following operations or processes that is to say—

(i) any process of metal preparation including mechanical or chemical cleaning;

(ii) tempering, case-hardening and annealing or other process of metal treatment;

(iii) electro-plating, anodising, polishing, burnishing, vitreous or stove enamelling or other metal finishing process;

(*q*) the machining of carbon articles;

(*r*) the preparation of engineering drawings;

(*s*) the hiring out by an employer of individuals in his employment to persons engaging in any of the foregoing activities, where the said individuals are to be employed in such activities;

(*t*) any activities being—

(i) related activities incidental or ancillary to principal activities of the engineering industry; or

(ii) activities undertaken in the administration, control or direction of one or more establishments, being establishments engaged wholly or mainly in principal activities of that industry, in related activities incidental or ancillary thereto, or in the administraton, control or direction of one or more other establishments engaged in such principal or related activities;

and carried out, in either case, by the employer engaged in those principal activities or, where that employer is a company, by the company or by an associated company of the company;

(*u*) any activities of industry or commerce (other than engineering activities) carried out at or from an establishment mainly engaged—

(i) in engineering activities; or

(ii) in engineering activities and in activities described in the Appendix but to a greater extent in engineering activities than in activities described in that Appendix in relation to any one industry.

2. Notwithstanding anything contained in this Schedule, there shall not be included in the activities of the engineering industry:—

(*a*) the activities of any establishment engaged—

(i) mainly in activities not being engineering activities or activities described in the Appendix; or

(ii) to a less extent in engineering activities than in activities described in that Appendix in relation to any one industry;

(*b*) the activities of any establishment engaged wholly or mainly in related activities, being activities—

(i) incidental or ancillary to the activities of one or more establishments (hereafter referred to as "the principal establishment") engaged wholly or mainly in any activities not being principal activities of the engineering industry; and

(ii) carried out by the employer carrying on the principal establishment or, where that employer is a company, by the company or by an associated company of the company;

(*c*) the activities of any establishment engaged wholly or mainly in one or more activities of a kind specified in an entry in the second column of the next following Table (being activities undertaken in relation to all or any of the products comprised in the group specified in the corresponding entry in the third column of that Table) or in two or more of such entries;

TABLE

Item No.	*Activities*	*Group of products*
1.	Erection.	Steel or other metal framework of buildings, or of structures made wholly or mainly of steel or other metal.
2.	Cutting and bending for the purposes of any operations in building work or civil engineering work.	Reinforcing steel.
3.	Erection, repair or dismantling.	Walls, fencing, hoardings and scaffolding.
4.	Manufacture.	Industrialised building components or sections and prefabricated buildings or sections of buildings, being components, sections, and buildings framed in wood.
5.	Construction on the premises in which they are to be installed and prefabrication elsewhere by the employer engaged in their installation.	Shop, office or similar fittings.
6.	Erection or dismantling.	Exhibition stands.
7.	Installation, testing, inspection, maintenance or repair.	Contractors' plant.
8.	Hiring out.	Contractors' plant or scaffolding.
9.	Preparation.	Drawings for the purpose of the construction of the hull of a ship.
10.	Dealing by a merchant or factor.	Building, plumbing, decorating, heating, ventilating or air-conditioning materials or equipment, in architectural and builders' ironmongery or in cloakroom fittings, where such products are supplied to persons engaging in any activities specified in paragraph 2(*d*).
11.	The operations following when carried out at or from a yard, a dry dock (including the precincts thereof), a harbour or a wet dock—	
	(*a*) construction, fitting out, reconstruction, repair, refitting, painting or finishing.	Ships and floating constructions.
	(*b*) scaling, scurfing or cleaning.	Ships' boilers.
	(*c*) scaling, chipping or shot blasting.	Ships' hulls.
	(*d*) shot blasting.	Ships' tanks.

Item No.	*Activities*	*Group of products*
12.	Construction (including any fitting out) elsewhere than at a place mentioned in item 11.	Ships.
13.	Not being mainly by an engineering process, manufacture or repair.	Furniture.
14.	Manufacture, repair or tuning.	Pianofortes and other stringed keyboard instruments, organs and organ pipes.
15.	Manufacture.	Springs and spring units being products for use in beds, divans, divan bases, mattresses, or furniture or in seating of any kind.
16.	Manufacture.	Brushes (not being carbon brushes), brooms and painters' rollers.
17.	Manufacture.	Fishing rods and golf clubs.
18.	Assembly, installation, cleaning or repair.	Venetian blinds.
19.	Repair.	Motor vehicles and trailers drawn by motor vehicles.
20.	Maintenance or repair.	Agricultural machinery and equipment.
21.	Inspection, maintenance, repair or overhaul (not being operations carried out by the manufacturer of the product).	Aircraft, parts of aircraft and such of the equipment of aircraft as is necessary for the airworthiness thereof.
22.	Processing (not being an activity mentioned in any of the heads (iii) to (ix) of paragraph 1(*j*) or in paragraph 1(*k*).	Plastics material.
23.	Manufacture or re-covering.	Printers' rollers.
24.	Manufacture.	Rubber stamps.
25.	Manufacture.	Ball point pens, fountain pens and propelling pencils.
26.	Production or refining (not being activities specified in paragraph 1(*o*)).	Non-ferrous metal.
27.	Any activities in printing.	Metal products not being either metal plates for use in the manufacture of metal containers or electrical circuits.
28.	Assembly.	Creasing, cutting or scoring formes or forming tools for use in the manufacture from paper of either folding cartons or (for use in connection with the display of goods) showcards or other printed products.

Item No.	*Activities*	*Group of products*
29.	Selling.	Hearing aids.
30.	Installation, testing, inspection or repair, being operations carried out in furtherance of an agreement made between a person carrying on the business of selling or hiring out audio or video receiving apparatus or of operating a broadcast relay station and a person to whom such apparatus has been sold or hired or who is a subscriber to the service provided from such a station.	Audio or video receiving apparatus and transmission lines connected with such apparatus.
31.	Manufacture or repair.	Footwear.
32.	Manufacture or repair.	Components for footwear not being components consisting wholly or mainly of metal.
33.	Manufacture or repair.	Attaché, brief, despatch, executive or picnic cases, suitcases, trunks and any similar receptacles of a kind used for personal or domestic purposes, not being cases, trunks or other receptacles consisting wholly or mainly of metal.
34.	Manufacture or repair.	Holdalls, rucksacks, satchels, cycle, shopping or sports bags, handbags, wallets, purses, and (not being products mentioned in item 33 of this Table) any similar receptacles of a kind used for personal or domestic purposes.
35.	Manufacture or repair.	The following products, not being products consisting wholly or mainly of metal, that is to say, cases and other containers for glasses or for optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments or apparatus and jewel, toilet or similar cases.
36.	Manufacture.	The following products, not being products consisting wholly or mainly of metal, that is to say, baby harnesses, straps of any kind, trouser, costume or dress belts and cases for travellers' samples.
37.	Manufacture.	Collars, harnesses and leashes (not being products consisting wholly or mainly of metal) for dogs or cats.
38.	Manufacture or repair.	Wearing apparel other than headgear.
39.	Manufacture or repair.	Jewellery.

Item No.	*Activities*	*Group of products.*
40.	Manufacture (not being an activity specified in paragraph 1(*o*)(iii) of this Schedule), or assaying.	Any products wholly or mainly of gold, silver or platinum or of an alloy that includes any such metal.
41.	Plating with gold, silver or platinum.	Articles.
42.	Diesinking, stamping or pressing, from nickel silver, copper or brass blanks, for supply to an employer engaged in the activities (other than assaying) mentioned in items 40 or 41 in relation to the products mentioned in those items	Articles.
43.	Cutting or polishing.	Diamonds.
44.	Manufacture or repair.	Artificial teeth, crowns, dentures and orthodontic appliances.
45.	Manufacture or repair.	Glasses and the frames thereof.
46.	Manufacture or repair.	Artificial flowers, folding push-cars, lampshades, pencils, perambulators, and toys and games.
47.	Repair.	Any barrels, kegs or drums designed for packaging.
48.	Manufacture.	Copper alloy ingots.
49.	Manufacture.	Washers.
50.	Manufacture.	Paint.
51.	Preparation for printing.	Electro-typing, stereo-type, type-setting, type-casting, preparing lithographic plates or engraving.

(*d*) the activities of any establishment engaged wholly or mainly in building work or civil engineering work, or (being operations undertaken in, upon, above or under a building, or the close, curtilage or precincts thereof, or a civil engineering work or the site of a building or such a work) in the provision or continued provision for the building, civil engineering work or site of water, gas, electricity, lighting, heating, ventilation or air-conditioning;

(*e*) the activities of—

(i) any body or person authorised by or under any enactment to construct, work, maintain or carry on any undertaking for the supply of electricity, gas or water, or any dock or harbour;

(ii) a local authority; or

(iii) the Post Office;

(*f*) the activities of a charity;

(*g*) the activities of any company, association or body that is required by its constitution to apply its profits, if any, or other income in promoting its objects and is prohibited thereby from paying any dividend to its members, and that has for its sole or principal object or among its principal objects the provision of facilities for any of the purposes mentioned in section 15(1) of the Disabled Persons (Employment) Act (Northern Ireland) 1945(**l**) (which relates to the provision for registered persons who are seriously disabled of work or training);

(**l**) 1945. c. 6.

(*h*) any work, occupation or training that is provided in accordance with arrangements made by a local authority under the Disabled Persons (Employment) Act (Northern Ireland) 1960(**m**) or any other enactment that authorises or requires the provision of arrangements for persons suffering from illness, severe physical defect or disability or from mental disorder, or for persons who have been suffering from illness or whose care is undertaken with a view to preventing them from becoming ill, or for old people;

(*i*) any activities in agriculture;

(*j*) any operations carried out by a person undergoing a course of training as a seagoing officer or rating under an agreement in writing with an employer in the shipping industry or with any organisation of employers in that industry or with any association of such organisations; or

(*k*) the supply of food or drink for immediate consumption.

3. In this Schedule:—

"agriculture" has the same meaning as in section 43(1) of the Agriculture Act (Northern Ireland) 1949(**n**);

"agricultural machinery and equipment" means any machinery, plant, equipment or appliance designed primarily or adapted for use in agriculture;

"aircraft" means any heavier than air aircraft;

"architectural and builders' ironmongery" means fittings or attachments to doors or windows or the frames thereof, being fittings or attachments constructed wholly or mainly of metal or of metal and plastics material;

"articles" includes any parts or components of articles, being parts or components made wholly or mainly from metal or a metal carbide or from any combination of either metal and plastics material or of metal and a metal carbide;

"audio or video receiving apparatus" does not include apparatus used or intended for use on a ship;

"broadcast relay station" means a station for the re-transmission by cable or wire, to the customers of the persons operating the station, of broadcast radio or television programmes which those persons receive either by cable or wire or by wireless from the persons who broadcast the programmes;

"building work" means the construction, alteration, repair or demolition of a building or part of a building or of any erection in the nature of a building, but does not include the installation, testing, inspection or repair of machinery or plant, not being contractors' plant;

"charity" has the same meaning as in section 360 of the Income and Corporation Taxes Act 1970(**o**);

"civil engineering work" means the construction or demolition of a railway line, siding or monorail, the construction, structural alteration, repair or demolition of any aerodrome, airport, bridge, road, viaduct, dock, harbour, pier, quay, wharf, coast protection, river or drainage work, aqueduct, canal, inland navigation, reservoir, waterworks, bore-hole, well (other than an oil well), filter bed, sewage works, sewer, cooling tower or pond, tunnel, heading, adit, chimney, furnace, carbonising or gas-making plant, nuclear or thermal power station, hydro-electric station, electric line or any structure designed for its support, cable trench or duct, oil refinery, pipeline or defence installation, the sinking of a shaft or bore-hole in a mine of coal, stratified ironstone, shale or fire-clay, the construction of a road below ground in such a mine, the construction of a swimming pool or other bathing place or of a playing field or ground for sporting or recreational purposes, the laying out of a cemetery or the preparation of a site, or the laying down of a foundation or sub-structure, in connection with any of the said operations or with the erection of structural metalwork, but does not include the installation, testing, inspection or repair of machinery or plant, not being contractors' plant;

(**m**) 1960. c. 4. (**n**) 1949. c. 2. (**o**) 1970. c. 10.

"company" includes any body corporate, and "subsidiary" has the same meaning as by virtue of section 148 of the Companies Act (Northern Ireland) 1960(p) it has for the purposes of that Act;

"contractors' plant" means machinery, plant or equipment of a kind used or intended for use in operations on the site of any building work or civil engineering work, but does not include lorries, ready-mixed concrete vehicles or other mechanically propelled vehicles mainly used for the carriage of goods on roads;

"electric line" means a wire or wires, conductor or other means used for the purpose of conveying, transmitting, or distributing electricity, or any apparatus connected therewith;

"engineering activities" means any one or more of the principal activities of the engineering industry and the activities included in that industry by virtue of paragraph 1(*t*);

"engineering process" means any one or more of the following and any similar processes when applied to metal, that is to say—

(i) machining, grinding or bevelling;

(ii) casting, forging, stamping, pressing, piercing or bending;

(iii) sheet metal working, blacksmithing, welding or soldering;

(iv) stove enamelling;

"floating construction" does not include hovercraft;

"furniture" means furniture of a type commonly used for bank, church, domestic, educational, garden, hospital, laboratory or office purposes, whether or not supplied for those purposes and whether designed to be free-standing or to be fixed to a building, but does not include—

(*a*) awnings or inside or outside window blinds;

(*b*) clocks or any instruments for recording atmospheric pressure or temperature;

(*c*) household textiles whether or not containing filling;

(*d*) pictures;

(*e*) netting;

(*f*) tapestries;

"glasses" means any appliances designed to correct, remedy or relieve any defect of sight, and includes spectacles of the kind known as sunglasses;

"hearing aids" means any appliances designed to correct, remedy or relieve any defect of hearing;

"hovercraft" means a vehicle which is designed to be supported when in motion wholly or partly by air expelled therefrom to form a cushion of which the boundaries include the ground, water or other surface beneath the vehicle;

"iron" and "steel" include respectively alloy iron and alloy steel containing in each case more than 55 per cent of pure iron by weight;

"jewellery" includes any article of personal adornment (whether or not containing stones) but does not include clock or watch movements;

"local authority" means a district council or a borough within the meaning of the Local Government Act (Northern Ireland) 1972(q);

"manufacture" includes assembly and any process or operation incidental or appertaining to manufacture or assembly;

"motor vehicles" means mechanically propelled vehicles intended or adapted for use on roads and includes tramcars and trolley vehicles but does not include implements for cutting grass that are not capable of being used or adapted for any other purposes or contractors' plant;

"non-ferrous metal" means any metal not being iron or steel, and includes an alloy of any such metal;

(p) 1960. c. 22.

(q) 1972. c. 9 (N.I.).

"office premises" has the same meaning as in section 1(2) of the Office and Shop Premises Act (Northern Ireland) 1966(r);

"organs" means musical instruments consisting of a number of pipes supplied with wind or compressed air by means of bellows and sounded by means of keys;

"pipe-line" means a pipe or system of pipes (together with any apparatus or works associated therewith) for the conveyance of anything, but does not include a pneumatic despatch tube;

"plastics material" means any material (other than synthetic rubber of any kind) made wholly or mainly by addition, polyaddition, condensation, polycondensation, polymerisation, copolymerisation, esterification, or other similar chemical process, or regenerated or modified cellulose, or hardened proteins or natural resin modified by fusion or esterification, and includes any such material reinforced by glass fibres or bonding glass fibres;

"principal activities of the engineering industry" means activities which, subject to the provisions of paragraph 2, are specified in paragraph 1, other than sub-paragraphs (*t*) and (*u*) thereof, as activities of the engineering industry;

"processing" in relation to plastics material means any of the following operations, that is to say, masticating, compounding, mixing, calendering, extruding, moulding, pressing, thermoforming, blowing, casting, dipping, coating, encapsulating, heat sealing, laminating, filament winding, machining (other than stitching), cutting, vulcanising or foaming;

"production" includes any process or operation incidental or appertaining to production;

"related activities" means any of the following activities, that is to say—

(i) research, development, design or drawing;

(ii) buying, selling, letting out on hire, testing, advertising, packing, distribution, transport or any similar operations;

(iii) operations of a kind performed at office premises or laboratories, or at stores, warehouses or similar places;

(iv) cleaning, washing or garaging vehicles or carrying out running repairs or minor adjustments thereto;

(v) training of employees or apprentices;

"repair" includes all or any of the operations of repair, reconditioning, modification, alteration or conversion or the replacement of a part, but does not include cleaning or washing vehicles or carrying out running repairs or minor adjustments thereto;

"ship" includes any description of ship, vessel, boat or other floating craft, but does not include a hovercraft or an article that is inflatable by air, gas or liquid;

"toys and games" does not include sports requisites or coin or disc operated machines;

"vehicle bodies" includes motorcycle sidecars and bodies for caravans.

4. For the purposes of this Schedule two companies shall be taken to be associated companies if one is a subsidiary of the other or both are subsidiaries of a third company, and "associated company" shall be construed accordingly.

(r) 1966. c. 26 (N.I.).

APPENDIX

The activities that would be included in an industry specified in Column 1 hereof by virtue of the industrial training order specified in the corresponding entry in Column 2, if the provisions specified in Column 3 were omitted from that order.

Column 1	*Column 2*	*Column 3*
The construction industry	The Industrial Training (Construction Board) Order (Northern Ireland) 1964(**s**)	Schedule 1 Paragraph 1(*h*)

EXPLANATORY NOTE

(This note is not part of the Order, but is intended to indicate its general purport.)

This Order re-defines the activities in relation to which the Northern Ireland Engineering Industry Training Board exercises its functions. The Board was established on 21st September 1964 by the Industrial Training (Engineering Board) Order (Northern Ireland) 1964. Its activities were re-defined by the Industrial Training (Engineering Board) (Amendment) Order (Northern Ireland) 1967, which Order is now revoked.

The principal changes are the inclusions in the engineering industry of—

(*a*) the production of cold finished tubes or cold finished pipes;

(*b*) the manipulation or fabrication of any tubes or pipes;

when carried out by an employer (or associated company) mainly engaged in the production of iron or steel and in the production from iron or steel of hot finished tubes or pipes.

There will henceforth be excluded from the Industry—

(*a*) the maintenance and repair of agricultural or horticultural machinery;

(*b*) the manufacture or repair of perambulators, folding push-cars or organ pipes or otherwise than by an engineering process, furniture;

(*c*) the manufacture of components (not being metal) for footwear;

(*d*) the repair or reconditioning of barrels, kegs, and drums designed for packaging;

(*e*) the manufacture or fitting out of vehicle bodies except where the employer is a motor vehicle manufacturer or where the vehicle bodies are manufactured or fitted out to the order of a motor vehicle manufacturer;

(*f*) the repair, painting or paint spraying of vehicle bodies;

(*g*) the assembly of electric blankets;

(*h*) the plating of articles with gold, silver or platinum;

(*i*) the diesinking, stamping or pressing from nickel silver, copper or brass blanks, of articles for supply to an employer engaged in plating articles with gold, silver or platinum or in the manufacture of any products wholly or mainly of gold, silver or platinum or of an alloy that includes any such metal;

(*j*) the manufacture of copper alloy ingots;

(*k*) the manufacture of washers.

The activities of a charity, the Post Office and of local authorities are also excluded from the engineering industry.
