"Form M (Sheets)" furnished to them for the purpose (Article *9 (2) (A)*), or under the usual "limited fabrication" (for the customer) described in Article *9 (2) (B)*.

Intermediaries cannot take delivery of materials and the material must go direct from the supplier who in fact has it to the ultimate customer (Article *9 (3)*).

(IV) *High Speed Steel* and *Sheets Guaranteed by the Makers to be sheets having Specified Electrical Properties* are exempt from the Scheme.

(V) *Material situate abroad* is exempt from the Scheme; but once the material is in the United Kingdom its acquisition and disposal, and its treatment use and consumption by anyone other than the direct importer (Article *12*), are controlled (Article *11*). Imports may be subject to restrictions under other legislation.

Exports may be delivered on ship or aircraft without licencing under the Order, but they may be subject to restrictions under other legislation; and in any case taking delivery in the United Kingdom before they are in the ship or aircraft requires licencing under the Order (Article *11*).

(VI) THE MINISTER OF SUPPLY retains general control by licencing etc., including the power to reduce or revoke any authorization, indent, sheet form, docket, etc., which may be current.

The Orders which remained subsisting in the old "Control of Iron and Steel" series, and the Iron and Steel Utilization (Records) (No. 2) Order, 1950, are revoked.

PIG IRON Distribution and Use is regulated by the Pig Iron Distribution Order, 1951 (S.I. 1951 No. 2005) coming into force concurrently with the above Order.

RECORDS must be kept of Indents, Sub-Authorizations, Forms M and Dockets given, issued or delivered.
