EXPLANATORY NOTE

(This Note is not part of the Order, but is intended to indicate its general purport.)

The Order replaces the original Order which scheduled the principal suppliers of iron and steel as "Scheduled Disposers" (Second Schedule), and provided that when any steel mentioned in the First Schedule is acquired from a Scheduled Disposer the acquirer must give, and the Scheduled Disposer must take and preserve, an "Iron & Steel Utilization Record" stating, in the manner set out in the Order, the purpose for which it is acquired (no records being required for acquisitions for cash not exceeding £5 aggregate in any one month).

The principal changes are—a new definition of "export", alterations in the First Schedule CLASSES and in the Ministry of Labour Industrial Classification Code in the Third Schedule, and deletions from the "Scheduled Disposers" in the Second Schedule (which list is now in alphabetical order of registered names and now gives only the registered addresses).
